Luckily, John was on the Hope side, which, having good sense, religion and poetry with it, made his task as inspiriting ad it was easy. The other side had been eleverly sustained. Collins Ode on the Passions had been quoted with great effect; but st was really wooderful to see John carry his ! audience away from the point where his opponent, an eloquent young college graduate,

" Hope has it," exclaimed a voice.

" That's so," said another. "Order !" shouted the chairman.

"I go in for Hope," cried a daring young

fellow near the door. Thersupon a timid friend of the other
