Work on the Methodist Magazine has been commenced. The Editor is in charge of Mr. M. A. The ladies will have it completed in a few days, and the further aid be extended.

A young lady, educated at Salem, wishes to obtain a school. Refers by permission to Rev. M. E. Grunel, President of Salem Female Institute, N. C. Address Mrs. H. E. H., care of Alex. McRae, Shoe Street, Robeson county, N. C.

Nothing of public importance came before the Board of County Commissioners last Monday except that Dr. E. A. Covington tendered his resignation as school commissioner for this township, and W. W. Winfree was appointed in his stead.

The Board of Trustees for the Wadesboro Township will be in session on the 21st, 23d, 25th, 28th and 29th of this month at the Grand Jury room in the C. H., for the purpose of listing the taxables of all persons liable to taxation and it is insisted that all will come forward and give in, as in case of failure they subject themselves to double taxes.

EXECUTIVE COMMITTEE.—We are requested by Col. Bennett, Chairman of the County Executive Committee of the Conservative Democratic party for Anson co., to say that the members of said committee will have a meeting on Tuesday, the 25th inst., at the Court House, in Wadesboro. A full attendance important.

The trial of Criscoe, the murderer of Cagle has been removed to Monroe, Union, and will come up before the next term of Union court, which convenes in Monroe Monday.

Through a gentleman from Stanly, we learn the opinion most prevalent there is that the killing was in self-defence.

The Ladies of the Wadesboro Presbyterian Church purpose having a dinner or revival on Tuesday of next term of the church, the purpose of raising money to enable them to complete the church edifice now standing incomplete, and respectfully and earnestly request all persons who would be pleased to see their names on the list, to aid them by contributing money or provisions.

ENRATA.—In our article of last week in regard to who will take warning, a mistake was made in computing the cotton statistics. Instead of 4,000,000 bales weighing an average 400 pounds, the aggregate should have been 1,600,000,000 pounds, worth \$100,000,000, thus it cost the country \$100,000,000.

CIRCULATION.—The Treasury Department is receiving, from San Francisco, millions of silver coin, to prepare for the circulation of silver. This will amount to a million dollars. The amount in the vaults of the Treasury at the present time is less than \$30,000. Orders have been received at the Department for \$20,000 fractional currency. The amount of fractional currency still in the vaults is \$2,000,000, though none has been circulated since the middle of last month. Since that time the requisitions upon the Treasury from the banks and other offices have been supplied with fractional currency, amounting to \$3,000,000.

Licenses to marry were issued to the following named persons by the Register of Deeds for this county during the month of March:

WHITES. H. Goodwin, Louisa A. Turner. S. C. McCall, Harriet E. Horne. Robert Hall, Anely A. Wallace. M. C. Evans, Virginia Thompson. J. B. Parker, S. C. Cutler. Phinwood Carpenter, Sally Gaddy.

COLORED. Martha Bennett, Ester Myers. Joe Baker, Liza DeBerry. J. B. Lyle.

We surrender this week, much of our space to an article from one of Anson's daughters, now residing in Ala., which will no doubt be very interesting to her many friends left behind—consequently all agricultural matter has been crowded out. But in the future we intend to turn our attention more to the interests of the farming class than ever, and each week our paper will contain at least one column of instructive reading for the farmer.

Mr. George Horton, who had heretofore put up the frame work and was rapidly carrying on a dwelling on Rutherford street, and sold the same, now has the frame of another dwelling on the same street opposite the first one, and the work is rapidly going on. Other buildings are in contemplation. Wadesboro must and will swell out, whether the Cheraw R. R. be or not.

On the night of the 4th inst., a negro by the name of Bill Ingram went to the store of S. J. McLendon, and after he left Mr. Z. D. Clark who was clerking in the store, missed a piece of cloth, and ran out to stop the negro, but failed. He then returned to the store, got a gun, and again commenced pursuing the boy, and after ordering him to halt, which the boy did not heed, Mr. Clark fired at him, the ball taking effect just below the knee, breaking both bones, and rendering amputation necessary, which operation was performed by Messrs. Ashe and Ingram.

This man, Bill Ingram, is a notorious character; and, if we are not mistaken, he has just finished a term in the penitentiary and was sentenced for stealing.

HOTEL ARRIVALS FOR THE WEEK ENDING APRIL 5.—Brown House, M. Brown, Proprietor:

W. J. Crowson, Town; Thomas, Atlanta Ga.; J. S. Lucas, Monroe, N. C.; H. C. Jones, T. B. Turner, Charlotte, N. C.; E. R. I. Lile, Lileville, N. C.; Jno. P. Steele, W. T. Gintion, Baltimore, Md.; D. Ayres, J. M. Bell, Philadelphia, Pa.; James W. Johnson, Newark, N. J.; Prof. Hind, N. Y.

We have received the April No. of the American Farmer, and find its pages well filled with seasonable instructions in every branch of agriculture—prominent among which are formulas for making fertilizers for all the main crops grown in the Middle and Southern States. Among the correspondents who largely figure in this number, are gentlemen of the highest standing connected with Agriculture in the several States—among them Mr. Wm. Holman, of Va., on Chemical Manures and the Wheat Crop. Prof. Wilson, of Baltimore, on Error in Fertilizer Analyses. Dr. James, of Georgia, on the Progress of Agriculture in that State. On the Use of Concentrated Fertilizers, and Management of Pastures, by Mr. Cheever, of Mass. On the Cultivation of Tobacco, by Mr. Sheldon, of N. C., and numerous others, upon Soiling, Live Stock, Dairying, Poultry, Horticulture, Floriculture, Orchards, Landscape Gardening, in short, no branch pertaining to the cultivation of the soil appears to be overlooked. The old Farmer is a complete manual for every country home, and every single number of it is worth the year's subscription. Published by Samuel Sands & Son, Baltimore, Md., at \$1.50 per year—5 copies for \$5.

Pic Nic.—The public generally are invited to a Grand Pic-Nic, at Bennett's Mill, on the Yadkin River, 9 miles N. E. of Albemarle, on the 17th of April, 1876 (being Monday after Easter Sunday). There will be music and refreshments suited to the occasion. Everybody and his family are expected to be there with a basket of Goodies as a contribution to the dinner.

BLACKWOOD'S MAGAZINE for March has been issued by the LEONARD SCOTT PUBLISHING Co., 41 Barclay Street, New York. The following are the contents, briefly told: "The Dilemma—Part XI." All the old friends we lost in India seem to be turning up in England. "Secondary Education in Scotland" shows how the Primary Schools have been extended and re-organized in Scotland, and how desirable it is to adopt some measures for filling up the gap between them and the Universities with "Secondary" Schools. "Some Aspects of Friendship" is a rambling article, giving quotations from Jeremy Taylor, Lord Bacon, and others, and concluding that "Friendship is the touchstone of merit. A man must have many good qualities, as well as a freedom from many uncounted ones, to be a friend in the true sense of the word, and having them, friendship keeps them in exercise." "So 'Maimie' (M' Aymez)," stanzas to a damsel of fifteen, who wishes to abbreviate herself to 'May.'" "Eton College." An interesting account of the foundation of this old institution, by Henry VI., who planned, and watched over the building, and the chief feature of whose idea was, "the college in distinction from the school, the religious corporation of provos and fellows, for whom he built his chapel, and to whom he secured various privileges of special indulgence from Rome." Mention is made of the different provosts of note who have ruled there, and the routine of work in the sixteenth century is compared with that of to-day.

"Little Bobby" is a Sketch in Paris. "Some gentlemen in the City" is a sketch of the rise of the Goldensterns, Conrad Lloyd, Emanuel Biggs, and others of the more prominent London financiers.

"Powers of the Air." Some years ago friend described some things that had occurred at a spiritual seance, which he

was present, and when asked what he thought of the demonstrations, answered: "I don't know; I think it was horrid." The writer of this article seems to have arrived at the same conclusion. He certainly has a firm belief in the devil. "The opening of Parliament" refers to the various bills that will occupy the attention of the present session, all of which "are likely to be passed without serious opposition." Address, THE LEONARD SCOTT PUBLISHING Co. (41 Barclay Street, N. Y.)

CHRONIC DISEASES.—From the earliest historical times there have been more or less discussions as to what constitutes a chronic disease, as distinct from an acute malady. The plainest presentation of this subject that we have met with is contained in "PLAIN HOME TALK," commencing on page 333. The author of this work has been engaged for over twenty years in treating exclusively chronic diseases, and it would seem as if by this time he should know pretty well what constitutes the difference between a chronic and acute affection. The doctor invites and receives consultations from the sick in all parts of the world, and with his large practice it would seem that he might be considered authority upon the points alluded to. His work "PLAIN HOME TALK," is full of valuable suggestions to the sick, and is having a very extensive sale. We would invite attention to his advertisement. April.

MEDICAL NOTICE.—I respectfully announce to my former patients and the citizens generally that I will resume the practice of my profession on the 1st of April next. W. J. McLENDON. Office in Cevington & McLendon's Drug Store.

We expect to have Col. Polk of Anson, to make us a grand speech that day. We will have also a band of good music (M. S. Parker's band.) We hope to see our Anson friends on the occasion. It has been reported that we had changed our place of meeting. This is all a mistake. Come to the Narrows, as the waters are good and the scenery grand. A GRANGER.

STATE NEWS. The first strawberries of the season, made their appearance in Wilmington on the 29th, and sold at 75 cents per quart.

Marion Barnett, (col.) committed suicide in the woods about ten miles from Charlotte, week before last by hanging himself from the limb of a pine tree.

The publication of the North Carolina Farmer, a monthly journal of agriculture, horticulture and domestic economy will shortly be begun in Raleigh.

Moses Trexler, in Morgan township, accidentally shot himself last week. In setting a gun down it was discharged, lodging a load of buck-shot in his person. He died shortly after.

Col. S. H. Walkup, Chairman of the Congressional District Executive Committee has called a meeting of the members of said Committee (one from each county in the district) to convene in this place on next Tuesday, the 11th inst., for the purpose of selecting a place for the meeting of the District Convention, which will nominate our next candidate for Congress.—Monroe Enquirer.

The Concord Sun says that Mr. John N Maxwell, of Cabarrus, has a young chicken that has four distinct and separate legs, three eyes, two bills and only two wings.—The same gentleman also tells us that he has a small Thomas kitten that has six legs and two tails. The two extra claws attached to the nether enl—where all hind legs belong.

The Raleigh Sentinel says: Nearly \$20,000 has been subscribed towards building the Methodist Metropolitan church in this city. We hear that \$40,000 is to be raised, and that no difficulty is anticipated in raising that amount. In the proposed church there will be a pew bearing the name of each county of the state engraved on a silver plate.

SURRENDERED HIMSELF.—D. A. Criscoe, who killed Geo Cagle, in Stanly county on Tuesday last, has surrendered himself and been committed to jail in Albemarle. A gentleman who arrived in the city last evening from that section, thinks it very doubtful if any true bill is found by the Grand Jury against the slayer. He believed that his wife was unfaithful to the marriage vows, and that Cagle was the cause of her infidelity, and it is probable that he will be able to establish this. If so he will be but lightly punished. Criscoe is a young man; Cagle was an old man.—Charlotte Observer.

[Special Dispatch to the Observer.] BRANCHVILLE, S. C. April 3.—An altercation occurred this evening, at Sixty-Six Turnout on the South Carolina Railroad, near this place, between J. W. Meadows, white, and Rufus Johnson, (col.) had a difficulty with Meadows' son this morning. Several blows were passed and Meadows came down to this place to procure a warrant for the arrest of Johnson for assault and battery. When he returned to his home at Sixty-Six, he found Johnson there. Harsh words were used, afterwards blows, when Meadows went in his house and in a few minutes afterwards re-appeared with a shot gun, the contents of which he emptied into the head of Johnson, enirely blowing his brains out. S.

NEW YORK, March 29—Night—A heavy rain and high winds prevail here. The house of Elijah Brundreck was blown down and his wife and child of 2 1/2 years killed. He with one child escaped badly injured. His wife was about becoming a mother. The storm entered Western New York and Northern Pennsylvania. The Jersey meadows are flooded.

MEMPHIS, March 29—Night—The award of a premium of \$1,000 for the best bale of cotton grown in this district, offered by the Memphis cotton exchange, for exhibition at the Philadelphia Centennial, was made to day to Wm. Taylor, of Lee county, Ark. The competition was very good, there being thirty-two bales presented. The committee state that as regards staple, color and handling, this bale is as near perfection as possible.

ATLANTA, March 29—Night—The State Supreme Court has unanimously decided that the head of the family can waive, both for himself and family, the right to a homestead, thus enabling the people to create a valid lien on the full value of their property.

HARRISBURG, March 29—Night—The Republican State Convention met to day with W. H. Koontz as temporary chairman and Edward McPherson as permanent President. The platform of the Lancaster convention of 1875 was reaffirmed, especially that portion demanding honest men

for office with brains enough to know dishonesty when they see it; demands candidates for the Cincinnati Convention whose honesty is above suspicion; denounces the Democrats in Congress for their subservience to the defiant leaders of the late rebellion who are now ruling them; for insinuations of a purpose to open the treasury to alarming and unjust demands from the insurrectionary States; declares against division of school fund; denounces the attempt to force upon the nation a free trade tariff while the remedy for our suffering is a higher and not a lower tariff; present Hartrauff to the Cincinnati Convention as the candidate for the Presidency and the delegates are instructed to give him their earnest and united support. Grant and his administration were unnoticed.

MR. DANIEL F. BEATTY, manufacturer and proprietor of the Beatty Piano and Beatty's celebrated Golden Tongue Parlor Organs, Washington, N. J., is certainly a very reasonable and generous man to transact business with. He makes this very fair proposition to any who may favor him with an order, as follows: "If the instrument does not prove satisfactory after a test trial of five days after receiving it the purchase money will be refunded upon the return of the instrument, and he will pay freight charges both ways." This is certainly an ex-ceeding generous, and safe manner in which to transact business with him. He warrants his instruments for six years. See his advertisement.

\$1150 AVERAGED PER DAY. Feb'y 10, December 14th, 1874. Messrs W. F. & JOHN BARNES—Gentlemen—I sawed 110 feet for balustrade for portico, and 18 brackets in first two days running. Every one who has witnessed the working of the Saw has pronounced it the most useful machine ever invented. I have been working from twelve to sixteen months, and have done all my shop work (sawing) on your machine, running it daily since I purchased it, and have paid nothing for repairs, except for saws, which amount was comparatively small. Three weeks since I purchased some imported woods, and some nice designs, and I turned my attention to the work. I have averaged per day, since that time, \$1150. I know of no occupation as pleasant and profitable for a mechanic as to spend his winter days at the shore. Your machine runs so light and easily that it will not tire the most delicate men after a little practice; in fact, I consider your machine indispensable to any carpenter, sewer, miller, his business is as it can be done, the little machine is in my every place, and makes enough brackets in one week to pay for his machine. I consider my machine just as essential in my shop as a set of bench planes. Very truly, M. FRID RELL, Architect and Builder. Address, for full information, W. F. & JOHN BARNES, Rockford, Illinois.
