REGISTRATION.—There seems to be some misunderstanding as regards the registration places in the Fifth and Third Wards. Voters in the 3rd Ward will register at Neel Gerkin's Store, corner of 6th and Mulberry street. Those in the 5th Ward, at Anthony Howe's Shop on Queen street, between Third and Fourth.

THE rooms of the College of Physicians and Surgeons are being put through a thorough renovation preparatory to the inspection of visitors. Numbers of valuable Anatomical charts are being hung, and the place begins to look like business.

A COTEMPORARY remarks that no courtesies were due to Senator WILSON from the city authorities. It goes back on its own record. Should JEFF DAVIS, representing an important constituency in the national government, be pleased to honor the city with his presence, common respect to his position would be paid to him. How much greater an honor is due to a man whose life long services have been given to the cause of American principles, Liberty and Equality, before God and man. It cost the tax-payers nothing, and even if it had, would they have begrudged it?

THE Raleigh News says the public printing for two years under "Radical rule" amounted to \$69,185.49, and that under "Conservative rule" it "will be not more than" \$34,292.01.

The Democrats may not have spent as much money here as the Republicans, because they didn't do near as much work. Why haven't got the laws yet, which were to be delivered last April! The people want to see what this "Conservative printing" is. Show us the books! Where are the Senate and House Journals? Don't keep them back until after election. As the News is now the official organ, we desire to know if the above amount of \$34,292.01 includes the "overdrawing" or not. We are curious to know.

THE TOWN CRIER.

The steamship Tonawanda, from Philadelphia to Wilmington, was only 50 hours from wharf to wharf.

EDITORIAL.—Mr. C. W. Harris, late of the Battleboro Advance, and for some time a contributor to the editorial department of the Star, has removed to the city and accepted a regular position on the editorial staff of that paper. We welcome his arrival among us and hope our editorial sparring may be as free from all personalities, as it has heretofore been, among the editors of the three dailies.

ROUGH.—A paper of very limited space fencing with two Democratic papers, which are filled with charges against "Radicals." One of these days, when the Post becomes as large as the New York Herald, won't we "go for 'em."

COMPLAINT.—We hear so many complaints of the non-delivery of the Post, that we took the pains to examine carefully into the matter and have come to the conclusion that the Post is so attractive a paper that it gets stolen! It is taken up by customers or visitors in the various Stores and Offices and carried off. It is also stolen from the front yards of our subscribers, who take the Post at their houses. We hope to be able to catch some of these latter thieves and prosecute them.

LONDON, July 20.
Advices from St. Petersburg state that the cholera is epidemic. It is gradually making its way from the Eastern provinces and gaining a foothold in the central and Western portions of the Empire.

Moscow is now suffering from its ravages, and the disease there has assumed a most malignant form. The proportion of deaths to recoveries is placed at 8 to 1. This terrible fatality has created a panic among the inhabitants. Thousands of the better class are fleeing into Western Europe. At St. Petersburg a few spasmodic cases have appeared, and the authorities are taking the most rigid precautions to cut off communication between the capital and the infected district.

The grave diggers at Woolwich Cemetery, in the Eastern suburbs of this city are on a strike.

FOUNDED on a Rock.—The disappointed adventurers who have from time to time attempted to run their worthless notions against Drake's Plantation Bitters, vow that they cannot understand what foundation there is for its amazing popularity. The explanation is simple enough. The reputation of the world-renowned tonic is founded upon a rock, the rock of experience. All its ingredients are pure and wholesome. How then, could tricksters and cheats expect to rival it with compounds of cheap drugs and refuse liquor, or with liquorless trash in a state of aqueous fermentation? Of course the charlatans have come to grief. Their little game has failed. Their contempt for the sagacity of the community has been fully punished. Meanwhile Plantation Bitters seems to be in a fair way of eventually superseding every other medicinal preparation included in the class to which it belongs. In every State and Territory of the Union it is, to-day, the accepted specific for nervous debility, dyspepsia, fever and ague, rheumatism, and ailments involving a deficiency of vital power.

It is reported that Parliament will be prorogued for August 10th.
