newspaper, and will, during the canyass, now fairly commenced, steadfastly main tain the established principles of that Party. It will support the regular nominees of the rhiladelphia Convention, and do its share n securing their triumphant election in November. It regards the success of the Republican Party as an object of the very first importance, and will give no support to irregular or "bolting" nominations, which can only result in the return of the Democrats to power. There are projects of all kinds on foot for dissolving the Republican Party, and the Times will oppose them all. Its course in reference to the Tammany Ring, at a tame when all the other daily papers in New-York obstructed and discouraged its efforts, attests its sincerity in the cause of Reform. The Times stood alone in demanding Reform from 1869 to the close of 1871—now other journals are attempting to make political capital out of the mere repetition of the cry. There is no sincere and honest proposal for reform, in any branch of the Government, which will not be heartily supported by the TIMES. But it will not conspire in assisting ambitious politicians or demagogues to reach power under false pretenses. It will not encourage defection from the party.
