

The Raleigh News publishes our remarks in relation to the Confederate Memorial ceremonies, and says:

"When such sentiments as above expressed shall prevail in the hearts of the Northern people, the day of true reconciliation and mutual good feeling between the lately disaffected sections will have dawned upon the land."

It is said there are always two sides to a question, and so here we think that a little more of human kindness in the hearts of the Southerners toward their Northern brethren would go far toward bringing about the good feeling we all desire to see.

The beautiful mare, Black Bess, with which Miss Leo Hudson has been playing "Mazppa" in different parts of the country, fell from the staging at the Grand Opera House, St. Louis, Saturday night, falling about fourteen feet, and received injuries from which she died.

WILMINGTON, N. C., May 12, 1873. Col. Wm. L. DeRosier, President of Chamber of Commerce: Sir: On Friday, the 9th instant, we made a visit to the public works for the improvement of our Harbor, on board the tug James T. Easton, Capt. Leary, Captain Phillips, Assistant Engineer in charge of the works, being on board.

Since our last visit, on the 27th of February, (reported on the 13th March,) comprising a period of ten weeks, there has been about 530 feet of foundation cribs placed in position, which aggregates about forty four hundred feet (4,400) to its final terminus at the old jetty of rocks in front of Zeke's Island.

The beach and shoals in front are closing in upon the work in the most approved manner; in fact, we could hardly direct it better, even if we had the power of doing so.

Zeke's Island is extending its borders in every direction, even to invading the main inlet on its north side, meanwhile stretching its arms westward into the harbor, and eastward into the ocean, curving southward, apparently courting alliance with the beach south.

It has been discovered that three fourths of the Boston women wear false teeth.

WAIFS.

A Minneapolis man, who "pleaded guilty to selling a peanut on Sunday," has been fined one dollar and costs.

"If a man bequeathed you \$100, would you pray for him?" said a Sunday school teacher to a pupil. "No," said he, "I would pray for another like him."

One of the presents, at a recent wedding in Rochester, Minnesota, was an accident insurance policy for \$3,000, covering the groom for twenty four hours.

Two fat Philadelphians have made a walking match for \$500 a side and a basket of wine, the conditions being that they shall take a certain walk every morning for a week, the distance being about fourteen miles.

It is reported that work on the East River suspension bridge, at New York, is to be abandoned, legislative permission having been obtained for the withdrawal of the present directors from the enterprise, and the great project is practically laid away on the shelf.

The Engineering and Mining Journal has an interesting article on the loss of coal in breaking it. At present one-half is wasted to obtain the other half, and though some plans have been proposed whereby this crumbled coal may be utilized, the real remedy, it justly says, lies in having the coal broken at the place where it is consumed, thus doing away with the "fancy brands."

Japan has a population of more than 30,000,000 souls, and a history which runs back, by tradition, over 2,500 years with authentic records for more than 1,100; while her neighbors in China, from whom Japan obtained her written language, and whose civilization Japan adopted about a thousand years ago, have a population of nearly 400,000,000 and a history covering about 4,000 years.

One of the latest inventions is a portable traveling bed, which can be rolled up like a shawl in a cylindrical form, 23 to 27 inches long, and 7 to 9 inches in diameter, the price ranging from \$5 to \$22, according to the size and quality. It consists of a light hair mattress, including single or double air pillows, a fine woolen coverlet, a camp stool, attachments and cords for adapting the mattress as a hammock, and apparatus for filling the pillows with air.
