The Governor of Louisiana and the Relief Committee of New Orleans rereceive letters daily from the overflowcd parishes, giving details of the condition of the inhabitants. Recent letters from Catahoula, Caldwell, Concordia, Franklin, Ouachita, Rapides and Tensas parishes show no improvement, but indicate additional affliction by sickness. From the great mass of correspondence the following is selected as showing substantially the purport of the whole: Mr. Redditt, writing from Cuba Ouachita parish, says : "The country for miles around is submerged, and twelve farms are almost entirely under water within three miles of this place, with a population of 700 persons, from the breaking of the Cuba levee. The levee broke on April 8, and the duce ; threats cannot awe them into an current of water was so strong that it washed away everything on my lot except my dwelling house and store house. My corn, horses and oxen are all gone. The water in my dwelling is four feet deep, and rushes through in such a current as to make it tremble like a leaf but look not to me alone. There are 600 or 700 others similarly situated within three miles."

For the Post. MR. Post :- The very devil has been played among the Democrats by the nomination of the Hon. A. M. Waddell: The old hunkers of the party swear by der their liberties to King Caucus in any such way-that they have been cheated-and no such infamous trick have preferred "this man" and they would have taken "that one"-indeed, almost "any other" man would have done as well. They say another grave and serious objection to the Colonel is the great pleasure which his nomination has given the Republicans ! They are extremely jealous and suspicious of him on that score. What can done to reconcile them? is the question. Nothing less than the explosion of some big gun of the party will settle and hive these discordant elements. The cohesive attraction of public plunder will fail to attract and influence these old Hickory Democrats; money can't seacquiescence of injustice and wrong ! They have men true, able and faithful, who have grown gray in their service and now was the time to reward them for the long and continued sacrifices which they have made for the party, and no compromise will do-because, they say, any compromise is a sacrifice of principle, and therefore they will

Groves went down to the bank and as nothing is said of his war record | and called out several times to stop the the people will doubtless be curious to boat, but she steamed on faster and blew a distress whistle. Captain Sam S. Johnson, a planter from Chicot bomb-proofed by a militia office, or the Houston, in command of the boat applied offensive epithets to Captain Groves, and a shot was fired at him, but he got behind a tree. Another Baxter man then rushed out from the cabin of the boat behind barricades. The Brooks men returned the fire, and a fusilade was kept up for half an hour The boat had been carried by the current over toward Brook's men ; but, during the fight got into another current, and drifted to the opposite bank, the firing all the while being very brisk. A hole was shot through the steam-pipe, and the boat, drifting with the current, reached the shore. The Baxter men, about thirty in uumber, rushed up the bank and fled into the woods in all directions. A white flag was then hoist ed by the mate of the boat, and the firing ceased. He asked Col. Brooker to send aid to the wounded, and skiffs, containing eight men each, were sent on board. The hole in the steam-pipe was plugged, and twenty-gve men, under an officer, were put on board the boat to take her back to Little Rock.

### A Story of the Overflow.

The little town of Pearlington on Pearl river is pretty well overflowed. A branch of the Poltevent mills is situated there, and consequently the place is well peopled with negro laborers.
