The subscriber having been appointed agent for this state, offers for sale at the factory prices,

Dr. A. G. HULL'S

LATELY IMPROVED SELF-ADJUSTING
Patent Hinge Truss.

THE superior utility of this Truss, consists in its simple mode of application, as well as the happy effect of its approximating qualities of the *Rupture Pad*, which in its form and operation, differs from all others, inasmuch as it acts on the principle of a double hinge, possessing its flat border on the outer walls of the aperture only, with its concave part and cushion to its centre; and is by its own power of adjustment and approximating qualities of the rupture pad, supereminently calculated, not only to keep the rupture in its place, without harm to the adjacent parts, but also calculated to, and has in many instances, effected a perfect cure, on persons from 30 to 70 years of age; and even when a cure is hopeless, it will, by approximating those parts on which the Truss Pad is applied, actually lessen the dimensions of the rupture opening, and read of enlarging it, as is the great fault with the convex or round formed pads, mechanically, though erroneously designed to press into its opening.

In evidence of the superiority of this Truss, there are deposited at the several places of sale, certificates, more than verifying all that the Patentee has said of its excellence. Among the number, is a certificate of the Medical Society of the State of New-York. Also, from many of the most respectable Medical Institutions, as well as eminent medical practitioners in this and other states.

Richard L. Cook.

SADDLERY.
Sept. 26, 1821. 85-3w

JUST PUBLISHED,
The first No. of the
MONTHLY MAGAZINE,
FOR THE
SOUTHERN CLIMATE
OF THE
UNITED STATES.
For the month of September, 1821.

CONDITIONS.
I. The Magazine will be printed on a small type, and good paper, comprehending as much matter as the American Farmer, or the Port Folio; and published in monthly numbers of 64 pages, which will be securely stitched in a cover. Six numbers to form a volume.

II. The price is five dollars a year; to be paid semi-annually in advance—two dollars and fifty cents on the receipt of the first number of each volume.

III. The work will necessarily be commenced in a plain unadorned style of letter press printing; but if 500 subscribers are obtained for the first volume, an ELEGANT COPPER-PLATE engraved likeness, for the *Biographical Sketch in the first number*, shall accompany a title page, table of contents, and a list of *Subscribers' names*, to be given with the 6th number. And as soon as 1000 subscribers shall be obtained, the subsequent numbers shall contain as many engraved likenesses of celebrated characters, rare and useful animals, new and valuable inventions; implements of manufactures or husbandry; or sublime and beautiful views from nature scenes, as shall be annually in any other periodical publication in the United States.

IV. N. B. So much of the above conditions as relate to the payment in advance are suspended for the present; and no payment will be required till subscribers enough are obtained to ensure the cost of publishing the first volume of six numbers, which will require 250 at least. In case these are not obtained by the first of Nov. 30 cents will be required of each person who shall receive the first number. If the requisite number is obtained to support the work, the subscriptions, according to the above conditions, will be expected to be paid.

Any subscriber dissatisfied with the work, can decline on paying 62 1-2 cents for each number received.

It is probable that it may be found difficult to obtain a sufficiency of interesting materials in the first year of the commencement of such a work, to fill a number every month; therefore, perhaps, it may for the first year be published only once in two months, making a volume in a year.
