January 9, 1822.

D. HEARTT

Proposes publishing, in Hillsborough, N. C. a religious paper, to be emitted

THE NORTH CAROLINA Evangelical In elligencer,

in which will be given the most important information relative to the spread of the gospel, and the consequent meloration of the condition of the human family, with such other incelligence as may be interesting to the christian reader; occasionally enlivened with religious and moral essays, and lighter articles tending to promote christian charity and heavenly-mindedness.

PROSPECTUS.

TO a contemplative mind it is pleasing to look abroad over the various portions of the globe, and observe the improvements which are dady taking place in the condition of mankmd. We perceive the dark clouds of ignorance and error, of superstition and fanaticism, gradually wasting away, and the horizon gil-ded with a brightness indicating the approach of a morning glorious to humanity and rich with blessings to the children of men. These heart-cheering prospects are the natural results of extended information, but more particutarly the blessed effects of an expanding knowledge of the divine precepts of the caristian religion. A general thrist for knowledge seems to be awakened, and the efforts now making by missionary, bible, and other socie-ties, to diffuse the religion of the gospel, and monculcate a more attentive observance of our civil, moral, and religious dunes, are actended with a success cheering to the heart of the

ph lanthropist. I is under such circum-tances that we present to the friends of christianity in this and the neighboring states, proposals for publishing in this piece a weekly paper, calculated to aid the cause in which so many are engaged; and are induced to hope that such an establ shment would not be among the least efficient means of promoting religious information. By the multiplication of political papers the minds of the people of this tavoured country have been enlightened in the science of government above a l the nations of the earth. I rough the same means is it not reasonable to expect that moral darkness may be dissipated, the love of religion be inculcated, and a warmth be intused into the hearts of believing christians which would urge them to still greater exertions? For though we are pleased in contemplating the general advancement of christian knowledge, and the meliorated condition of mankind; vet we find much to fament when we look around us and per-ceive how many are still enveloped in slothful ignorance, the victims of vice and immorality Though living in a christian land there are some, alas many, who never enter a church, who never open a bible, who never reflect on the cause or the purpose of their existence. May not the d flusion of religious intelligence tend o remove this listlessness! May it not excite to inquiry! May it not lead to conviction? to reformation? The commual droppings of water wears the hadest stones; may not weekly admonitions and repeated examples meit hearts of stone? Surely there is room to hope that the contemplated work, if properly encouraged, may contribute in some small degree, towards hastening that glorious period, when "the mountain of the Lord's house shall be e 'ablished in the top of the mountains, and half be exalted above the hills; and all nations . vail flow unto it."

In present og this prospectus to the public, it is unnecessary farther to explain the nature of the proposed publication. In its conduct, all possible care will be taken to select such matter as may be most in cresting and instructive; and the promised assistance of several emment divines, it is expected, will aid userulm as and respectability to the work.

CONDITIONS.

The Evangelical Intelligencer will be pubhehed once a week, and contain eight quarto pages, neatly printed on good paper. The price will be three dollars a year, if

paid in advance; otherwise four dollars will be demanded.

No subscriptions received for less than one year; and no subscr-ption will be discontinued unto all arrears are paid unless at the option of the publisher. A failure to give notice before the end of the year of a wish to discontinue, will be considered as a new engagement. To persons procuring eight subscribers,

and remitting the amount of the subscriptions, the paper will be sent gratis. The publication will commence as soon as sufficient encouragement is obtained to de-

fray the expense T Persons holding subscriptions are request ed to forward to this office the names of the subscribers they may have obtained-retaining the proposale tell further notice.

Foreign Intelligence.

New-York, October 8.

Last evening the regular trading ship Euphrates, capt. S ordard, arrived here in 25 days from Liverpool. By this conveyance the editors of the Commercial Advertiser have received London papers to the 9th and Liverpool to the 11th of September.

THE GREEKS.

Nothing of an Official nature had transpired as to the late buttles in Greece: but amidst the contradictory statements in the continental journals, there is evi dently enough to in-luce us to adhere to the opinion, that the series of engagement- which took prace, though at first favourable to the Turks, terminated in their total defeat at the celebrated pass of Thermopylæ.

We have a confirmation of the confla gration of Jassy in Moldavia, by the Musselmen, who appear to have taken advantage of the quiet and peaceable di-positions of the inhabitants; and at the moment trade was revived, to set fire to the city in the night of the 10 h of August, by which 20,000 houses were destroyed. Taking advantage of the confu sion this occasioned, the Turks gave themselves up to universal pulage, and such was the insatiable thirst of these barbarians for plende, that it was sup posed they would not be satisfied until the whole city was laid in ashes.

SPAIN.

The accounts from Madrid are to the 27 h of August. At the first interview between the new minister of foreign atfairs and the foreign ambassadors, the Spanish minister called on them to pronounce frankly the relations they propose to maintain with Spain under the present constitution; and those who were not prepared to give an unequivocal assurance of their friendly disposition. were informed that they might have their passports without a moment's delay. A conduct so independent, was well calculated to produce impressions favoraple to the talents and energy of the new ministers, and to show the enemies of the constitution, that it was in vain for them to attempt any longer to disturb the public tranquility.

We have another proof of the determination of the government to act with firmness, in the banishment from Madrid of the Duke del Infantado, the Mais quis of Les Amarielas, the Archbiscop or Saragossa, and the Bisno is of Malaga and Ceuta; a set of unprincipled men, who were constantly about the king, and atways advising him to violate the oath he had taken to maintain the new order of things. The accounts received at Madrid from the provinces were highly satisfactory; and ministers, to show the confidence they placed in the people, had reduced the garrison to 800 men. leaving the protection of the capital entirely in the hands of the national guard.

PORTUGAL.

Lisbon papers to the 25th of August, state, that the troops embarked for Bahia had been on board the vessels eleven days, without orders to pro-eed on their voyage. This delay was supposed by some, to have arisen from a wish on the part of ministers, to strengthen the expedition; while others viewed it as an indication of its abandonment altogether.

FRANCE.

The French papers appear to be exclusively occupied with the reports of the trials going on at Paris and Poictiers, of the persons charged with conspiracy against the government. Gen. Berton had been denied the privilege of appointing his own counsel; and from the nature of the evidence brought forward in this case, it appeared that the prosecutors were more anxious to inplicate La Fayette, Benjamin Constant, and other leaders of the liberal party, than to convict the accused.

THE CONGRESS.

Several ministers from foreign courts are stated to have arrived at Paris, on their way to the congress. The follow ing is given in the Paris papers of the 5th of Aug. as a summary of the propositions to be submitted to the congress of Verona:-

1. To declare firmly and openly agams revolutions of every kind. 2. To intrust the guarantee of Italy and Germany to Austria. 3. To agree to a secret article relative to Spain. 4. To renew the gua antees given to the other states of Europe. 5 To declare a neutrainty, at least ostensibly, with regard to the affairs of Turkey. 6. To invite the different powers to abstain from open ar with Spain. 7. To agree to repressive and general measures with respect to the press."

GREAT BRITAIN.

The Duke of Wellington had been cupped for a severe billious attack, from which he had recovered, and was preparin to proceed to the congress.

Lawless depredations are stated still his wife and children. The Greeks,

to exist in some parts of the proclaimed districts of Ireland.

The merchants having an interest in the Bohia trade, had applied to government for the protection of a ship of war, in the event of its becoming necessary, on account of the impending struggio for independence in that province, to ship off the English residents and their property.

An alarming riot took place in Oxford-street, during which, one man lost his life, and several others were much injured before it was suppressed. The military was called in, but the object of the rioters is not stated.

Several alterations were about to be made in the custom establishments of ail the out ports, which would concentrate the duties, and occasion a reduction in the number of officers employed.

Mr. Capping has been paying farewell visits to all his friends, previous to his. departure for India.

A letter received at Lloyd's from Malta. dated the 23d July, states, that the plague had made its appearance on the coast opposite to, and within, a few miles of Corfu.

The trial of the conspirators of La Rochelle is terminated. Four of the prisoners are condemned to death, three to five years' imprisonment, one to three years, and three to two years. One is to be placed under the superintendance of police for fifteen years. Thirteen were

Augsburg, Aug 25. Chourschid Pacha had really passed the Therm py æ with only a part of his army, and he had proceeded with the other part towards Salona to reach Lepanto. At first he really obtained some advantages, which induced the Grecks to take the prudent resolution to occupy a stronger position on the lake or river Sperchios, (now Alamana). There the Greeks came into the rear of the Turks on all sides, and completely defeated them.

Trieste, Aug. 1g.

A letter from Durazzo, in Turkish Albania, says "The Greeks gained a great victory near Thermopyla, on the 18th of July. Chourschid's expedition against the Morea has failed, and his army is destroyed. Coron and Modon had surrendered before, and Patras will soon

Corfu, July 25.

The accounts from the comment of the 16th of this month, inform us, that a post of 30 Franks, encamped in the vitlage of Pera, near Arta, was surprised and surrounded by the Turks. They were taken to Arta where the barbarians cut off their ears and noses, and put out their eyes, and sent them back in this condition to the camp of the Greeks; who, inflamed with anger at this sigh , feil upon the Mahometans, and retaliated, by cutting in pieces 340 prisoners who fell into their hands.

While these scenes of horror were passing in the south of Epirus, Mark Betzaris, issuing from the mountains of Suli, penetrated by the plateau of Juair nina, and over-ran the part of Catzana Choria, from which he drove the Turks who escaped only by embarking on the lake to return to the port of Joannina.

No reliance is now placed in Greece on the assistance of Russia, to which, as Chourschid Pacha has publickly announced, 'the Porte had deigned to grant peace, since it had abandoned the cause of its Greek fellow-christians, and recognized the pre-eminence of the Crescent above the standard of the Cross." Though this is merely the boasting of a baroarian, it is not easy to describe the sinister impression which it has made on the minds of the Christians.

It is affirmed that in the famous battle at Thermopylæ, the Greeks were aided by the counsels of a loreign general of distinction, who came from Corinth. This officer, who observed the strictest incognito, fought in the ranks, merely as a Greek captain.

The Spanish government has published the results of the last census, arrang. ed according to the provinces. The whole population of the peninsula, including the Ba caric Islands, amounts to 11,248,026 souls.

London, Sept. 4. On the 25th June the Greek fl et, to the number of 62 sail, passed the channel of Scio. - The fort and the vessels exchanged some hundred shorts, but without effect. Six hundred Greeks from Tschesme have arrived at Scio -They are conducted every day towards Campo to get in the harvest. Elies Aga remains encamped with his corps at Campo. All persons who had been carried off from the Mastic villages to Scio, have been sent back, except the young girls who are retained, and retused to be restored, notwithstanding all the enden-

vors of the Pacha. The contagion rages more than ever at Scio. There have died already at the French consulate, 11 Catholics, and 76 Greeks, including the D ogom a, with
