PROSPECTUS OF THE AMERICAN PHRENOLOGICAL JOURNAL AND MISCELLANY.

It is a remarkable fact, that while the converts to the belief that Phrenology is true, have, within a few years, most astonishingly multiplied, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the inquiries which even and audacious persons are disposed to make concerning it.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions, of law, and of divinity. But notwithstanding the important bearings which phrenology has upon these sciences, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favor of phrenology; but these do not meet the present necessity. A periodical which is devoted to phrenology—one whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts as now needed, and a strong feeling of the necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "The American Phrenological Journal and Miscellany."

The object of this work will be to preserve and to publish the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on education, (physical, intellectual, and moral,) on the Medical Treatment of the Insane; on Jurisprudence; on Theology; and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions from our able penmen; and the religious character of the work will be decidedly beneficial; for one prominent object in view is to excite, in the minds of our countrymen, a more just estimate of the true nature and tendencies, as well as the true nature and tendencies, of phrenology, and to show the bearings of this science upon the various branches of human knowledge, and upon the duties of human accountability, and moral obligation. A frequent subject of discussion in our pages will therefore be, The Harmony between the truths of Revelation and those of Phrenology. And on the subject of the religious bearings of our science we respectfully solicit the inquiries and objections, not of cavillers, but of the truly candid, and the conscientious, and well-meaning, and who will always be welcome to our pages, and they will always be treated with kindness; so, also, will honest and respectful objections to Phrenology. But the captious and cavillers will ensure to themselves our silent contempt; and the ignorant pretender, who seeks to overthrow a science which he will not be at the pains to investigate, may expect a merited rebuke. As our object is the establishment of Truth, we solicit the communication of facts which are supposed to militate against Phrenology, and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral development in all cases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non-phrenological or anti-phrenological writers, as to the degree in which the several organs are developed; we must in every such case, see the head or skull, or a cast of it, properly certified to be true to nature. Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and anti-Phrenological works; nor shall we fail to present to our readers such matters of interest and importance as may be found in foreign Phrenological works of standard excellence, and which are not generally accessible to the American public. Our facts we pledge ourselves shall be bona fide such; and, as often as practicable, we shall accompany our descriptions with illustrative cuts; indeed, we intend and expect that scarcely a number will be issued without two or more such cuts. To encourage Phrenologists of talent (and especially professional men who are Phrenologists,) to enrich the work with their contributions, we offer for accepted matter, as a liberal compensation per printed page, as is usually afforded by the very best periodicals in our country; but the editor does not promise to endorse all which his correspondents may communicate; nor all which may be admitted into the work. To error, if serious, and especially if it affect the interests of morality and religion, he claims the right of correction, in the form of reply, or if the suppression of the objectionable matter; and communications for which compensation is expected, must be so prepared as to be fit for the public eye. In conclusion we may be also allowed to say, that the pecuniary value of each number will depend much on the extent to which the work is patronized. It is not with the desire or expectation of gain that it is offered to the community, but from moral considerations: from a desire to know and to promulgate truth. Hence should a large subscription list be obtained, a considerable portion of the profits will be devoted to the enlargement and improvement of the work, without an increase of expense to the subscribers. More frequent illustrations and embellishments will, in that case, be inserted, and the attractions of the work be thus multiplied. TERMS 1. The American Phrenological Journal and Miscellany will be issued monthly, commencing on the 2d of October next. 2. Each number will contain at least 32 octavo pages, making a volume of not less than 384 pages; corresponding in point of mechanical execution with the best periodicals of the day. 3. The work will be furnished to subscribers at \$2 per annum for a single copy; \$5 (current in Philadelphia or New York) for THREE copies; or \$10 (current as above) for SIX copies sent to one address. To FOREIGNERS and THEOLOGICAL Students, single copies will be furnished at \$1.50 per annum; and to companies of eight or more of such, it will be reduced to \$1.25 per copy if sent to one address; and the subscription forwarded to the publisher free of expense. N. B. As funds are already deposited for sustaining the work one year, subscribers will in our no risk of loss by paying in advance, and for the same reason, will be invariably required to pay in advance. Money sent by mail, if enclosed in the presence of the post master, will be at the risk of the publisher; but postage must, in every case, be paid. To editors who will give this Prospectus one or two insertions, and forward a paper containing it to the publisher, the work will be sent for one year. Subscriptions and letters of business, may be addressed to the publisher, ADAM WALDE, 45 Carpenter street, Philadelphia, and communications for the work to the EDITOR of the American Phrenological Journal, care of A. Walde. Postmasters throughout the country will please to act as agents for this Journal. September. 39--

William Neal, & Co. MANUFACTURERS OF LOOKING GLASSES, No. 27, North Fifth Street, Philadelphia, back of Merchants' Hall.

The only establishment in the city devoted exclusively to this business. COUNTRY Merchants are supplied at manufacturers' prices, and their Glasses insured from breakage to any part of the Union, without extra charge. Those who may have orders for large Glasses, would do well to inform us by letter, previous to their coming on, of the size of the plate, and the kind of frame they may want, (whether of Gold, Mahogany or Marble,) that the article may be manufactured expressly for the occasion. Merchants should give their orders for Looking Glasses the first thing on their arrival, to insure them well put up. Any editor of a weekly paper, who will publish this advertisement to the amount of six dollars, at his usual rate, shall be duly paid in Glasses at the manufacturers' prices, which of course must be as low as they can be bought in the city—provided he will send on his bill by a merchant who will purchase Glasses, with which we can pack and forward them at our risk of breakage. PROSPECTUS OF THE Hillsborough Recorder, ENLARGED.

TO THE PUBLIC. After some unexpected delays, we have this week been enabled to present the Recorder to its readers upon an enlarged sheet. This has emphatically been called the age of improvement; but in all the multiplied forms in which this spirit has manifested itself during the last twenty years, perhaps in none is it more perceptible than in the appearance of the public press. The newspapers of our villages now, surpass in size and neatness those formerly issued from our largest cities. It has long been our desire that the Recorder should reflect a portion of this spirit of the age; and an effort to accomplish this desire, we felt was due to that portion of our friends who have continued to sustain us through good and through evil report. This enlargement of our sheet necessarily involves a considerable additional expense; but we are mistaken in the people of Orange, if we may not safely throw ourselves upon their generosity, and with confidence hope that they will duly appreciate the benefits of a free and honest press, and extend to it such a portion of patronage as will, in some degree at least, compensate the care and toil and expense necessary to sustain it.

It is now more than eighteen years since we commenced our establishment at this place, during which time we have had many difficulties to encounter. The storms of political strife engender many prejudices which it is sometimes vain to attempt to allay; and the zeal of popular enthusiasm creates preferences which yield nothing to honesty of purpose. These things tend greatly to depress a village newspaper, the prosperity of which depends almost solely on the patronage of the county in which it is published; and we ought not, perhaps, to expect entirely to escape their influence. But we have had more potent adversaries than these. It is said of the church of Rome, that she withholds the Bible from the common people, that they may not, through ignorance of the true meaning, be led into heresies; the priests only are to read and interpret for them. So it is with some of our self-styled Republicans; they are afraid to trust the people, and if it was in their power, they would entirely prohibit the circulation of all papers which do not perfectly square with their notions. Not able to contend openly for their doctrines, they would suppress all inquiry. And this is the spirit which has been operating for several years to undermine the circulation of the Recorder, and if possible to break up the establishment. At one time this was very nearly being accomplished; we were reduced almost to the last extremity; the star of our hope had sunk almost to the very horizon. But amid all this darkness, we were sustained by a consciousness of the integrity of our purpose and the justness of our cause; and perseverance has enabled us to witness the return of a brighter day. Our star of hope is now again in the ascendant; and we trust that under its enlivening influence we shall be permitted long to battle for truth and sound principles, with our flag nailed to the mast—"UNION, THE CONSTITUTION, AND THE LAWS."

Our enlarged sheet will enable us to embrace a greater variety of matter than heretofore; and we shall endeavor to gratify the various tastes of our readers, by placing before them every good thing we can select from our exchange papers and other periodicals, whether of Morality, Literature, or Politics. In all our selections our object will be, to blend instruction with amusement, to inform the judgment, elevate the mind, and mend the heart. In political matters, we shall not extenuate through favor, nor set down ought in malice, but on all occasions shall endeavor to give "the truth, the whole truth, and nothing but the truth." Having fewer advertisements, our paper in its enlarged form will perhaps contain a much reading matter as any other paper in the state. We shall endeavor always to procure good paper, and to make the impression fair and legible. When these things are considered, with the fact that the whole contents of the paper will be selected expressly for the people of this section of county, we hope those who have been in the habit of sending abroad for their papers, may be induced to bestow their patronage upon their own press, and thereby build up an establishment respectable in its appearance and useful in its operation. To those of our friends who coincide with us in opinion, we might make an appeal, urging upon them the expediency of exerting their influence to extend the circulation of our paper; but we deem it unnecessary. They surely have discernment enough to know, that before their principles can triumph, light must be spread among the people. We would also remind those of opposite politics, that the columns of the Recorder are always open to respectful and decent communications, as well from their party as our own; and that we shall endeavor on all occasions to give an impartial and faithful account of the transactions of the day. And further, when any important measure shall come before Congress, upon which we may think the public mind requires to be enlightened, we shall consider it a duty always to give speeches on both sides of the question. With these brief remarks we submit our cause to the people of Orange, and trust that they will mete out to us a due portion of liberality. Hillsborough, N. C., May 9 1838.
