The religion of Christ not only arms others are strangers. While bad men trace, in the calamities with which they are visited the hand of an offended Sovereign, christians are taught to view them as the well intended chastisements of a merciful father. They hear amidst them that still small voice which a good conscience brings to their ear: Fear not, for I am with thee; be not dismayed, for I am thy God. They apply to themselves the comfortable promises with which the gospel abounds. They discover in these the happy issue decreed to their troubles, and wait with patience till Providence shall have accomplished its great and good de-signs. In the mean time, devotion opens to them its blessed and holy sanctuary, that sanctuary in which the wounded heart is healed, and the weary mind is at rest; where the cares of the world are forgotten, where its tumults are hushed, and its miseries disappear; where greater objects open to our view than any which the world presents; where a more serene sky shines, and cand Monday in Mare beest, and plead, asafflicted heart. In those moments of devo- same will be beard ex par e, and judgment ta tion, a pious man, pouring out his wants and sorrows to an Almighty Supporter, feels that he is not left solitary and forsaken in a vale of wo. God is with him: Christ and the Holy Spirit are with him; and though he should be bereaved of every friend on earth, he can look up in heaven to a friend that will never desert BLAIR.

THE PRAISE OF PATIENCE.

Copied by Bishop Horne from Tertullian's noble
Treatise on the subject. Sermon 10. vol. 2.

Patience is the guardian of Faith, the preserver of Peace, the cherisher of Love, the teacher of Humility. Patience governs the flesh, strengthens the spirit, sweetens the temper, stifles anger, extin-guishes envy, subdues pride; she bridles the tongue, refrains the hands, tramples on temptations, endures persecutions, con-summates martyrdom. Patience produces unity in the church, loyalty in the state, harmony in families and societies; she comforts the poor, and moderates the rich; she makes us humble in prosperity, cheerful in adversity, unmoved by calumny and reproach; she teaches us to forgive those who have injured us, and to be the first in asking forgiveness of those whom we have injured; she delights the faithful. and invites the unbelieving; she adorns the woman, and approves the man; is loved in a child, praised in a young man, admired in an old man; she is beautiful in either sex, and in every age. Behold her appearance and attire: her countenance is calm and serene as the face of heaven, unspotted by the shadow of a cloud, and no wrinkle of grief or anger is kins, &c. seen in her forehead; her eyes are the eyes of doves for meekness, and on her eye-brows site hosefulaces and joy: her mouth is levely in silence; her complexion and colour, that of innocence and security; while like the virgin, the daughter of Sion, she shakes her head at the adversary, and laughs him to scorn. She is clothed in the robes of the martyrs, and in her hand she holds a sceptre in the form tion. of a cross. She rules, not in the whirlwind and stormy tempest of passion; but her throne is the humble and contrile heart, and her kingdom is the kingdom of Peace.

Education. - The following brief but beautiful passage occurs in a late article in Frazer's Magazine:

Education does not commence with the alphabet. It begins with a mother's look -a father's nod of approbation, or a sigh of reproof; with a sister's gentle pressure of the hand, or a brother's noble act of forbearance; with a handful of flowers in green and daisy meadows; with bird's nosts admired, but not touched; with ereep ng ants, and almost emmets; with humming bees and glass bee-hives; with pleasant walks and shady lanes, and with thoughts directed in sweet and kindly tones and words, to nature, to beauty, to all Merchants and Paysicians who are in want acts of benevolence, to deeds of virtue, and to the source of all good, to God himself.

Dr. Taylor's Balsam of Liverwort.

For the cure of Coughs, Colds, Catarrh A-thma, Whooping Cough, Bronchitis, Liver Complaint, and all Affections of the Throat and Lungs.

TellIs remedy is invaluable and unequalled It is purely vegetable and highly medici-nal, mild and gentle in its effects upon the system, and being entirely free from all mineral products, by many so justly feared and dread. ed, is perfectly safe, as well as salutary. From a knowledge of its properties, and the wonder, ful success which has attended it, even in diffirst and aggravated cases, for nearly ten years, during which it has been in use, the Proprietor feels no besitancy in introducing it, and recommending it to all who unfortunately may have accasion to resort to some means of recovery. Physicians not unfrequently use it in their practice, and with the Medical Facul ty generally, it has met with much more than mary approbation.

Disease a Unit.

Impurity of the RLOOD the only Di-EFOW simple, yet how wise, how good and besutiful are the laws of paters? Simplicity and truth are stamped upon every law of the creation. The mighty words which cell in space of every degree of velocity and direction, are all governed by ATTRACTION OF MATTER TO MATTER

This principle governs the human body Brandreih's Vegrenble Entirered Pills stiract altimporties of the blood to the bowe's, which organ expels them from the body. Attraction and disease are both units. All accidents or infections only effect the body in proportion and they occasion impurity of the blood.

The bowels for instance are costive—this most invested areas in closed—the course.

ost important organ is closed-the conscquence is a great accumulation of impurities, which as they cannot get out by their usual passage, are forced into the blood, occasioning impurity of blood. Thus, Fevera, Cholies, Rheumatism, Coughs and Colds are often pro-duced. But let Brandroth's Pitis be used in Pa- | such doses as will effectually evacuate thebow els, and health is restored at once.

Hot weather, by occasioning debility, pro duces impurity of blood, from which arrives be sentery, Cholera Morbus, Cramps in the bow els, febloness, pain in the back and hip joints headache, Se. Se. There unpleasant compa-nions are speedily removed by a few dones of Brandreth's Pills, which soon restore boalth by purifying the blood.

Grief, great anxieties of mind, much watch

ing, fear, bad food, intemperance, residence near marshy land, tend in a very powerful de gree to promote impurity of the bk ud, which oon snows itself in Erysipolas, consumption epeloptic fits, apoplexy, scurrey, fever and ague, derangement of the stomach and bowels all which symptoms will soon be removed by purifying the blood with the Brandreth Fills. Ulcers are produced by impurity of the blood; the part where it breaks out had in days gane by been injured, and therefore its powers
of life could not repel the impurity of the blood
Sugar
U'Caboy's

when it settled upon it.
But let Brandreth's Pills be need say four or six of them to be taken daily, the Pills will open another drain, i. e. the boxels; the bad bumors contained in the blood will thus bad bumors contained in the blood will thus be discharged from the body by their natural cutlet, and none will be left to keep up the irritation and burning in the ulcer, and it will get well. In like manner are white and lings, unnatural enlargements, liver complaints, gravel, salt rheum, diseases of the prostrate gland cured by abstracting with the Brandarm Pills the impurities from the blood. All persons who do not fell well should use these Pills. No man was ever sick long use these Pills. No man was ever sick long whose blood was kept pure. No man can be in good health if his blood be impure. Attract then the impurities of your blood to

your bowels with Brandreth's Pills, and you Pulished Trace Chain-Chrome Green will be as strong and healthy as the life with B. at Chewing obsects fotten Stone in you is c: pab'e of sustaining.

Mysterious.

GENTLEMAN belonging to one of the most ancient and wealthy families of this city, (New York.) who must be well known to numerous friends, having since the year 1814 up to recently, been bent nearly double, and for several years confined to his bed, has been restored to good health-has regained his natural erect position-and has quitted his carriage, and now walks with ease! We believe this is the gentleman's own description as near as possible, and there is no exaggeration in it. We will give inquirers his address, and denbt not his humane feelings will excuse the liberty; so that any one doubling may know these facts-though he requests his name may not appear in print. The great popularity of Sarsagaul'a. and its established efficacy, render it superfluous to enter into any ercomium of its vir nes, or adduce any evidence in its favor.

The Sarsapar lia is warranted positively as good as any other that can be my de at One Dollar, at just half the price of those so much advertised, and as strong and in as large bottles, viz :-

Fifty Cents per Bottle, or Four Dollars per Dozen-This article has cured Scrotula of 30

years, after the Dollar articles had been To be had of the agents of Comstock

and Co, only, throughout the country, in New York only at 21, Corslands Street. THE REASON.

Some people are foolish enough to beieve that we cannot afford to make as good an article of Seresparile Extract and sell it for 50 cents per bottle or \$4 per dozen, as all others that sell for just double that money. The simple fact is this, and all will now be convinced. While Five Hundred dollars is squandered by others in a column or two of adver tisements, we do not spend Five. Therefore we make the public pay but half as much for as good or bester article as any one else, and yet make as much if net so a quantity of first rate more profit than they. The rest cots in making the article is probably more than theirs, as we use nothing but the best Sarsaparilla Root, &c. And we are fully convinced that we will sell three bodies, to one of the dollar priced bottles, when the public know what we charge for it, as its virtues are such as not to require half a newspaper to sustain its reputation.

Inquire always for Comstock & Co's Sarsaparilla, at Fifty cents, and have no other.
