

There's a good time coming, boys. A good time coming. When printers shall be paid their dues. Their children have new frocks and shoes. In the good time coming: The "devil's" pittance shall be paid. His pantaloon sew'd stronger. And a lean new hat to crown his head— Wait a little longer. There's a good time coming, boys. A good time coming. Subscription lists shall swell in size. Proportioned to the enterprise. In the good time coming— And every merchant in the land. Shall find his mind grow stronger. Patronizing his country print— Wait a little longer. There's a good time coming, boys. A good time coming. When an editor can pay his debts. (Which now too often he forgets.) In the good time coming: He'll settle off his old accounts— To make his credit stronger. With half times in his job for change— Wait a little longer—(or else VANOE.)

The End of Education.—The multitude think that to educate a child, is to crowd into its mind a given amount of knowledge; to teach the mechanism of reading and writing; to load the memory with words; to prepare a boy for the routine of trade. No wonder, then, that they think every body fit to teach. The true end of education, is to unfold and direct a child's whole nature. Its office is to call forth powers of thought, affection, will, and outward action; powers to observe, to reason, to judge, to compare; power to adopt good courses, and to pursue them efficiently; power to govern ourselves, and to influence others; power to gain and to spread happiness. Reading is but an instrument—education is to reach its best use. The intellect was created not to receive passively a few words, dates and facts; but to be active for the acquisition of truth. Accordingly education should inspire a profound love of truth, and teach the process of investigation. A sound logic, by which we mean the science of art, which instructs us in the laws of reasoning and evidence, in the true method of inquiry and the sources of false judgment, is an essential part of a good education. *Clanning.*

Such as have virtue always in their mouths, and neglect it in practice, are like a harp, which emits a sound pleasing to others, while itself is insensible of the music.

BRANDRETH PILLS. MAN cannot have his diseases cured but by removing the cause, which is generally internal. No effect can take place without a cause. Therefore, no Rheumatism can affect the head, the foot, or any other part of the body, save from the actual presence of those humors whose acid or peccant qualities produce pain. No Banchical Disease can present, nor other affections of the Throat or Windpipe, or Consumption, but from these malignant humors having become seated upon, or near the air-vessels of the lungs. It is in truth these acids and humors which are the occasion of all the aches and pains; all Eruptions and Ulcers; all Skin diseases, and Swellings of the Feet, and all Inflammations; all Cancri and Tumors; all Piles and Costiveness; all Fever and Agues; all Dyspeptic Affections; all Head-aches and Bilious Affections whatsoever. Mitchell's Eye Salve. THE concurrent testimony of men of integrity and worth is the best evidence we can have of any fact of which we have no cognizance ourselves. The great advantages possessed by this salve, over every other, are—its Certainty, Safety, Convenience, and Economy. All Physicians admit that great danger is to be apprehended from dragging the eye when in an inflamed and unhealthy state. In the use of this salve this objection is entirely removed, as no harm can possibly result from its use; it being in all cases applied to the external portions of the eye; thereby avoiding all the inconvenience, pain and danger, which necessarily attend the introduction of any pungent article into the eye. Its activity in subduing inflammation is so great that but few cases require the use of more than one bottle to effect a perfect cure. One Physician remarked to us, after having witnessed its effects in several instances, that it was a "perfect fire killer." We might multiply reasons why this Salve should be preferred above every other in the treatment of diseases of the eye, but we prefer it should state its own merits. All we ask is that its virtues be thoroughly tested, and that the directions be strictly followed. **D. MITCHELL, Jr.,** Perry, Wyoming Co., N. Y. For sale at this office. March 14. 21

Bulletin No. 2.

THE great flood of 1847 will be long remembered as an event of unusual magnitude, but during the season of 1848, the waters subsided, and the inhabitants were enabled to remove their dwellings from the river's side to safer places; families were compelled to sever their dwellings; the post and mail were almost entirely suspended. The public authorities were called on to administer aid and comfort. In short, a great public calamity had occurred. It will be if the sad consequences of the flood had ceased when the waters subsided. But no! The rising waves left vast alluvial deposits, which in a few months were given out that delirious mania which produces bilious disease! What says the celebrated Dr. Ferguson on this point? Answer: "The cause of bilious derangement and its principal source in half dried excrement of rivers." All history and experience support this theory. When the British army encamped on the plains of Hindostan, at the time when the River Ganges had become dry after a flood, the British and Indian troops were seized with a violent and insupportable fever, which was among the troops with such destructive malignity that they gave high being extinguished. The GRAEFENBERG COMPANY, therefore, earnestly call the attention of the entire West to their most extraordinary and celebrated series of **ANTI-BILIOUS MEDICINES.** In every locality where there is the slightest tendency to any form of **FEVER, FEVER AND AGUE,** DYSPEPSIA, and the like, the inhabitants should at once send to the General Agent of the entire West, where this does, and the **GRAEFENBERG VEGETABLE PILLS and HEALTH BITTERS** would according to directions, there would be no fear of bilious diseases. So important are the Graefenberg Medicines to the people of the West, that the following steps should be immediately taken— 1st. Every neighborhood should have a **Graefenberg Depot.** By addressing the General Agent of any district this can be secured. 2d. Families should club together and get an **antidote supply.** 3d. Emigrant Societies and other philanthropic bodies should furnish them to the needy. By such means bilious diseases will be entirely prevented. The other Medicines of the Company are most eminently adapted to the diseases for which they are recommended, and consist of the following: **The Graefenberg Eye Lotion, The Children's Panacea, The Green Mountain Ointment, The Consumptive Balm, The Dysentery Syrup.** The General Agent for North Carolina is **Capit. PHENIX BITTERS. The high and merited celebrity which these pills have acquired, has rendered them a household name. WAREHOUSE OF PRINTS ONLY. No. 56 Cedar Street, New York. **LEE, JUDSON & LEE,** (LATE LEE & JUDSON) OCCUPY the spacious Five Story WAREHOUSE, No. 56 CEDAR STREET, the whole of which is devoted to the exhibition and sale of the Single Article of **PRINTED CALICOES.** Their present Stock consists of nearly **One Thousand Packages,** embracing some THOUSANDS of different patterns and colorings, and comprising every thing desirable in the line, FOREIGN and DOMESTIC. All of which are offered for sale, for cash, or satisfactory credit, at the lowest prices, by the **PIECE OR PACKAGE.** New Styles are received almost every day, and many of them are got up for our own sales, and not to be found elsewhere. Printed lists of prices, corrected from day to day, with every variation in the market, are placed in the hands of buyers. Merchants will be able to form some idea of the extent and variety of our assortment, when we state, that the value of our stock of this **ONE ARTICLE,** is at least twice the value of the entire stock of dry goods usually kept by our largest wholesale jobbers. This fact, together with the fact, that our means and our attention, instead of being divided among a vast variety of articles, are devoted wholly to one, will render the advantages which we can offer to dealers perfectly obvious; and it shall be our care that none who visit our establishment shall meet with any disappointment. Our assortment is complete at all seasons of the year. **LEE, JUDSON & LEE.** P. S.—D. F. LEE, formerly of the firm of Lord & Lee, and late senior partner in the original firm of Lee & Brewster, from which connection he withdrew some time ago, has resumed business in connection with Messrs. Lee and Judson, and assures his friends that the new concern shall have the same pre-eminence in this branch of trade, which formerly distinguished the other two houses to which he belonged. **July 20.** 66-
