

A CORRECTION. An oration delivered in this city on the 4th of July last by Verpasian Ellis, Esq., and published in the National Intelligencer on the 6th of the same month, contained the following remarks: "The Pope's Nuncio to Spain, before the Cabinet of the President was known to the public here, declared, in Madrid, that the present Postmaster General, a Catholic, would be a member of the Cabinet of Gen. Pierce."

DEAR SIR: I did not receive till last evening your note of the 13th instant, addressed to me at Baltimore, and covering your card to the public, in which reference is made to a conversation between the Nuncio to the Pope at Madrid and myself about the appointment of Mr. Campbell as a member of the present Cabinet at Washington. If I had sooner seen or heard of the contents of your card I should have deemed it my duty to reply at once to that portion of it which refers to this matter.

You are mistaken as to the purport of the remarks made to me by the representative of the Pope at Madrid. It is not that he knew before-hand that Mr. Campbell would be appointed, and as a member of the Catholic Church, or that he knew any thing about the appointment which was actually made. What I have said and what I repeat is, that before I had any certain news of the formation of the Cabinet, and while its constitution was still in doubt and the subject of conjecture in the public mind at Madrid, he told me that Mr. Campbell was appointed, and that he was a Catholic, which was the first information I had of either fact.

I did not at all suppose that he had any previous knowledge of an intention to appoint this gentleman to office, or that he knew or had any reason to believe it was done in pursuance of any bargain or intrigue to the detriment of any persons whatsoever.

The inference I made was, that the appointment of a Catholic to this high office, being naturally a cause of much interest and satisfaction to the church of that faith, especial pains had been taken in some quarter to communicate the earliest intelligence of that fact to the leading members of the Catholic priesthood.

It is proper to add that, having seen in a Raleigh paper a brief, and what appeared to be an imperfect, report of a speech recently made in Washington by the Hon. Kenneth Rayner, in which there occurred a similar statement, though somewhat different in detail from that contained in your card, and in which my name was quoted as authority, I took the earliest opportunity, on the 6th instant, to write him a note for the purpose of correcting the erroneous impressions which might so readily be made on the public mind, however unintentionally, from such a reference to a casual conversation in social intercourse, with a written statement of the facts.

I am, very truly, yours, &c., D. M. BARRINGER.

To Verpasian Ellis, Esq., Washington.

THE CHARLESTON MERCURY vs. THE DEMOCRACY.—The Mercury has an article designed to show that the present National Democratic party is not to be relied on for the protection of the rights of the South. We give one short extract, which, coming from high Democratic authority, is certainly entitled to some weight. In reply to a statement in the Richmond Enquirer, "That the Democratic party as now composed and organized, is adequate and ready to secure to the North and the South, the East and the West, the peaceful enjoyment of their several rights and immunities," the Mercury says:

"We have no faith in the ability of the Democratic party. It has been overwhelmed at the North by abolition, and is powerless, either for its own national ends or the protection of the South."

Let those old Whigs who are disposed to take refuge in the Democratic party on the plea of safety to the South, put the above in their pipe and smoke it.

A correct list of deaths by yellow fever from its commencement on the 16th July, has been kept by a physician, and up to Saturday, the number was twenty, out of about sixty cases, showing the mortality to have been only one in three. And it is for this that nearly one half of our population have deserted their homes, shut up their stores, and caused a total suspension of business for the next two and a half months!

YELLOW FEVER.—The New York Commercial Advertiser says that thirty-three years have elapsed since New York was visited by yellow fever. Baltimore has been spared from its ravages about the same length of time. In 1821 there were many deaths there from the fever, and the year following it again made its appearance, but was not, we believe, attended with many fatal results. Richmond has heretofore been exempt from the yellow fever, and so has Petersburg.

A SLAVE CASE IN NEW YORK.—Mr. J. E. Thompson, of Georgia, on a visit with his family to Fort Edward, Washington county, N. Y., was cited to appear before Judge Gibson, soon after his arrival, and produce the person of an alleged slave Emily, complained of as in possession of said Thompson. Mr. T. appeared, having with him a colored girl of about twenty years, and answered to the complaint that she was not restrained of her liberty, but had been informed previous to starting upon the journey that she would be free to leave him if she desired on arriving in the free States—that she had no desire to leave him, but preferred to return to her southern home. No one appearing to prosecute the writ, the Judge discharged the same. The girl Emily had not been consulted previous to the preferment.

Our Democratic friends throughout the State are rejoicing very much over their late victory? They put us in mind of the Dutchman who was run over by a wagon, getting one of his arms and both his legs broken in the operation. He frequently exclaimed, "How glad I am! how glad I am!" "Ohal of what?" asked a spectator. "Glad that it was not my neck," said the Dutchman.

NORTH CAROLINA.

"The good old North State at the late election for members of Congress, has shown to the world that she was not to be lured by the fraud and lumbaggery of the dark lantern combination. The Congressional delegation stands, Democrats five, Know Nothings three, a Democratic gain upon the last election of one member. The Democratic majority of the popular vote will not be less than 10,000."

We cannot yet say exactly what the popular vote will be in this State; but we would like the Editor of the Gazette to point out to us how the Democrats have gained one member in the late election. He says they have now five. Last Congress they had four full blooded Democrats, and one T. L. Clingman—a mongrel between Democracy and Demagogism. The Congressmen from this State the last term were: Dem. Criss, Aale, Ruffin, Craige, Shaw, and we may add Clingman; 5 in all.

The Whigs were Puryear, Kerr, and Rogers—3 in all.

Now we ask the Editor of the Cheraw Gazette to explain to us how, when or where the Democrats have gained their member? It will be news to most of our readers. Fay, Augus.

FIRST IN THE FIELD.—We see the Western Democrat, Charlotte, N. C., has loaned the name of Hon. Henry A. Wise, of Va., for President in 1856.

A very fit man to be the standard bearer of the Democratic party. He has been, by turns, in favor of and against all the prominent measures and men in the nation. Argus.

COUNTERFEIT.—We have been shown a dangerous counterfeit on the Bank of Cape Fear, which from the quality and appearance of the paper, is liable to deceive those who do not examine it very particularly. It appears worn, but the paper is exactly of the same quality of the genuine. It is marked Aa, and made payable by D. N. Davis, to bearer, at Salisbury. The name of the Cashier there is D. J. Davis; the date is 1837, and the signatures of the President and Cashier are very well imitated, although the ink is rather pale. It will be observed, however, that H. R. Savage, Cashier, and Thos. H. Wright, President, is wrong, since these gentlemen did not occupy such positions in 1837, nor for some years after.

The engraving is rather coarse, the lettering is not perfectly straight, and the female figure in the centre is badly shaded, and the arm particularly defective. The figure on the upper corner on the right end is also very coarsely executed. Wil. Journal.

We have been shown a counterfeit \$10 bill on the same bank answering to the above description except in quality of paper and date. The paper is bad; the date 1847. Fay, Observer.

PERSPECTIVE OF CIVIL WAR.—The Kansas Herald of Freedom, of July 28th, gives the following account of an armed invasion into the territory: "We learn that a party of some thirty pro-slavery men met at Hickory Point, ten miles south of this place, the other day, and made a move to drive off the free State voters. They were soon outnumbered by resident free State citizens, who met and resolved to sustain their homes to the last extremity. The pro-slavery men retired from the field, and thus matters rested until Thursday night last, when an armed body of seventy five or eighty Missourians were found encamped in a piece of wood in that locality. Each was armed with a rifle, a pair of revolvers, and a bowie knife. On Friday forenoon they continued in the vicinity, apparently waiting for additions to their numbers. It is reported that they declare their mission to be to drive every free State citizen from the vicinity. Whether their purposes extend any further than this we have no information. There is no doubt of the facts, as an express, well known to us personally, has come to secure relief."

THE VOTE OF VIRGINIA.—The official vote of Virginia is at length published. It appears that Wise received 83,424 votes, and Flournoy 73,244; majority for Wise, 10,180.

It will be remembered that the anti-American papers crowded loudly over the result in the Old Dominion, and tauntingly asked the American party for the 70,000 votes that they alleged would be entitled to Flournoy. "Where are your 70,000 men," they cried, "they are but men of buckram." Behold now the answer, —73,244 voted for Flournoy; over three thousand more than the American party claimed for their cause in Virginia! "Men of buckram," indeed. Wil. Herald.

FOOD FOR YELLOW FEVER.—It is stated that at Gosport, where the yellow fever broke out, a census was recently taken of a row of six small two and a half story houses, and they were found to contain 307 persons, and in the second story of one of them was a pig-sty, and a cow had been stalled in the basement of another. A knowledge of these facts is profitable only as it tends to show the influence upon disease of uncleanness, sloth and penury.

The New York Express says that the new census of that State will not present the grand aggregate at first anticipated. From actual returns thus far reported it will probably not exceed 3,450,000, all told, or again of about seven and a half per cent. in five years. The falling off is very large in some of the agricultural counties.

VERMONT WILD STATE CONVENTION.—The whigs of Vermont nominated John Wheeler, of Burlington, for Governor, and Isaac T. Wright, of Castleton, for Lieut. Governor. The nominating convention was held at White River Junction on the 8th inst.

The Cincinnati (Ohio) Enquirer says that the corn and potato crops were never so glorious as they are this season. Potatoes are so plentiful that they are expected to be down to 1 1/2 cents per bushel.

GUANO A PREVENTATIVE OF YELLOW FEVER.—A writer in one of the Norfolk papers advocates the use of guano as a disinfecting agent, and in proof of the soundness of his position, adduces the fact that during the awful raging of yellow fever in Brazil, the crews of every ship of war in the Rio were swept off by it, save that of the U. S. ship St. Louis, and this exception was attributed to guano by the commander, Captain Cooke, of Surry, Va., who having a barrel of guano in the hold, spread it all over the ship. The St. Louis did not lose a soul.

The latest catalogue of William and Mary College gives a brief and interesting sketch of the rise and progress of the College. In age it is next to Harvard, it having been founded more than half a century after it. It was chartered in 1693 by King William III. and Queen Mary, who gave out of their private means nearly £2,000 sterling towards erecting the necessary buildings.

This, with 20,000 acres of land, the office of Surveyor General, (in virtue of which one-sixth of the fees received by public surveyors in the colony, and the sole power of appointing them were given,) and one penny a pound on all tobacco exported from Virginia and Maryland, granted in the charter, £2,500 raised by subscription in the colony, and a gift of £200 from the House of Burgesses, constituted the endowment of the college.

It is much to be regretted that the college records are so imperfect that a full list of the Alumni cannot be made out. Incomplete as it is, it contains such names as Theodorick Bland, Peyton Randolph, Carter Braxton, George Wythe, Thomas Jefferson, John Page, Edmund Randolph, James Monroe, John Marshall, James Barbour, Philip P. Barbour, William B. Giles, Benjamin Watkins Leigh, Chapman Johnson, John Randolph of Roanoke, Spencer Roane, Littleton W. Tazewell, William C. Rives, John J. Crittenden, William S. Archer, John Nelson, John Tyler, and Winfield Scott, among the most distinguished in American history.

GOOD EFFECTS OF EARTHQUAKES.—The New Zealand Spectator has an article, in which it is gravely argued that the recent earthquake has materially improved the harbor and its vicinity. Not only is the shore of the port elevated a couple of feet, but "it is a matter of congratulation that they have gained or can redeem a large tract of building-ground," in consequence of the elevation of the "flat extending round Lambton harbor."

ROBBERIES IN ITALY.—A letter from Bologna of the 27th June, states that so great is the number of robbers and desperadoes at present overrunning that part of Italy, that the Cardinal Bishop Balluffini never goes out on his ecclesiastical duties without being escorted by eight dragoons.

MORE TROUBLE WITH THE ROMAN BISHOP.—The Bull to Commercial letters that some difference of opinion has arisen between Bishop Timon and the congregation of St. Peter's (French) Church, in regard to its government, and that the Bishop's order was read on Sunday declaring that church closed for the present.

A SEBASTOPOL INVESTMENT.—An Englishman in New York who was trying to make a bet with an American on the speedy capture of Sebastopol, took up the following proposition: "The American deposited \$100 in the hands of the Englishman, for which he was to receive \$25 per month until Sebastopol was taken. This was on the 1st of November last, and the American has received his \$25 per month ever since that time. One hundred dollars could hardly have been invested better."

A STEBBORN JURY.—The Portland Transcript tells a story of Colonel M., living in Washington county, Maine, who had a great appetite for serving as a juror. When thus serving he had a very great anxiety that his opinion should be largely consulted in making up a verdict. Some year ago, while upon a case, after many hours' trial to agree but failing, he marshalled the delinquent jury from the room to their seats in the court, where the impatient crowd awaited the result of the trial. "Have you agreed upon a verdict?" inquired the clerk. Col. M. arose, turned a withering glance upon his brother jurors, and exclaimed: "May it please the court, we have no; I have done the best I could do, but here are eleven of the most contrary devils I ever had any dealings with."

Prince Lucien Bonaparte, a son of the radical Prince of Canino, and cousin of the French Emperor, who took orders about eighteen months ago, has been made by the Pope one of his private chamberlains.

Somebody hereabouts has invented a new article of wearing apparel—a dickey made of paper, and one thousand an hour are turned off by machinery. These articles bear a stamp on which the patent and owner's name are observable, and are cut, creased and dented after the fashion of our linen collars. A slit runs the entire length on either side, by which breakage or bending is prevented; they are highly polished and no amount of perspiration can disturb their equilibrium. They will be found peculiarly advantageous in the warm days of summer, and in the heated ball room or theatre. They bear such a striking resemblance to the linen collars we are in the habit of wearing, that we could not credit the statement made about them, until, by permission, we tore one. They are strong, durable, and the very cheapest invention of the kind we have ever seen, the wholesale price being three and a half cents each.

LATE FROM EUROPE. Halifax, August 15. The Cunard steamer America arrived here this afternoon, at 4 1/2 o'clock, with Liverpool dates to the 4th instant.

The latest news from the Crimea is to the 20th of July. Everything was prepared for the general action of the sea and land forces against Sebastopol, which was to come off in 15 days. The Russians had succeeded in establishing rifle pits in front of the French supports. A report prevailed in Paris that the French government had received official notification of the bombardment of the Malakoff and Redan batteries, preparatory to the assault.

The Viceroy of Egypt has been negotiating with the Bedonins to serve in the Crimea. The Queen sent a message to Parliament asking additional provisions for the war, which resulted in the Chancellor of the Exchequer proposing to issue £7,000,000 of exchequer bills.

Lord Palmerston, in reply to a question in Parliament touching British enlistments in the United States, stated that in order to prevent all possibility of a difficulty with the American government, the British government had stopped enlisting at Halifax.

Heavy rains had occurred in England, but the accounts from the crops are favorable. The offers for the new French loan amount to 3,690,000,000 francs.

Rumors were in circulation that Spain would send a contingent to the Crimea, but it is considered doubtful. It was also reported that, in consideration of the contingent, she would ask for a territorial guarantee including Cuba.

Our Liverpool correspondent has private advices from Lombard Street, indicating that important events are nearly ripe there, and exciting news may shortly be expected from that quarter.

A telegraphic despatch from London, dated Saturday noon, says: "The siege of Sebastopol is about to be raised. Also, a communication has been received from Germany by Western powers of startling interest."

In the Sea of Azoff the fortifications of the allies were progressing. Accounts from Constantinople say that Schamyl descended the mountains threatening a retrograde movement against the Russians.

New Orleans, August 11. Startling Intelligence from Mexico. The Delta newspaper has received letters from Mexico, which say that arrests were daily increasing at the Capitol. Among them were two Americans. A great conspiracy is said to have been discovered. The Police were busily engaged, searching for criminals.

The Convents have been subjected to the examination, and several Priests have been arrested. Zapatlan Elgrande, is said to have taken a garrison, consisting of 400 men, and joined Alvarez. It is rumored that Juan Ajuato is in possession of the rebels. Blanco has gone to meet Comonfort.

The latest rumor from Vera Cruz, is, that Conducha, with a million and a half of money, had left Mexico on the 18th of July, and been taken by the rebels. Forty troops were killed. Three hundred joined the rebels. The Orizaba, with Vera Cruz dates to the 5th, has arrived. It was reported that the revolutionists were within four leagues of Vera Cruz. Conducha, from the city of Mexico, had stopped at Puerto Nacional, and entrenched, for the purpose of fighting the rebels. Blanco had made a triumphant entry into Mexico, and would return in pursuit of Comonfort, who is reported to be at Tarrulla.

A great tornado had occurred at Tampico, doing great damage to the crops and shipping. Several lives were lost.

The latest accounts from Mexico announce the capture of Saltillo by the Revolutionists, after two days hard fighting.

The Government troops, 1200 strong, had two-thirds of their number killed, wounded and taken prisoners. The loss of the Revolutionists was trifling.

The condition of the stomach is of vital importance. No man, woman, or child can be healthy unless the work of digestion is regularly, thoroughly, and vigorously performed. With three-fourths of civilized society, this is not the case. And yet the remedy is within the reach of all. Hood's's German Bitters, prepared by Dr. C. M. Jackson, Philadelphia, will so surely create a regular and healthy action of the stomach as will lessen the friction of machinery. Let the victims of dyspepsia or indigestion in any of its forms, try it and we guarantee a good appetite, physical vigor, firm nerves, sound sleep by night, and increased cheerfulness by day. See advertisement. 95 in

Letter from Hon. John Minor Botts, of Virginia. Richmond, July 9th, 1855. Messrs. Wm. S. Bess & Co., Genls.: Considerations of duty to the afflicted alone prompt me to send you this voluntary testimonial to the great value of "Carter's Scotch Mixture" for that almost incurable disease, Scrophula.

Without being disposed, or desiring it necessary, to enter into the particulars of the case, I can say that the astonishing results that have been produced by the use of that medicine on a member of my own family, and under my own observation and superintendence, after the skill of the best physicians had been exhausted and all the usual remedies had failed, fully justify me in recommending its use to all who may be suffering from that dreadful malady. I do not mean to say that it is adapted to all constitutions, or that it will afford the same relief in all cases; for, of course, I can know nothing about that—but from what I have seen of the effects, I would not hesitate to use it, in any and every case of Scrophula, with persons for whom I felt an interest, or over whom I could exercise influence or control. Respectfully yours, JNO. M. BOTTS. 98 in

\$50 Reward each for Runaways. RAN AWAY from the subscriber, three Negro Men, ALECK, SAM, and JOHNSON. Aleck is a Mason, Carpenter and Blacksmith, of a yellow complexion, inclined to be bald, sharp features, stout and active, with quite a long foot, and is about thirty years of age. He took off with him a carpet bag, and I presume he carried with him a memorandum book, in which I authorized him to keep his accounts, and collect money for work done in Masonry. Sam is a younger brother of Aleck, also a Mason, and may be known by being very likely, straight, with a smiling, good-natured expression of countenance. He is a shade darker than Aleck. These two may be trying to get employment as Masons, or at some other mechanical work. Johnson was raised by Mrs. Patterson, of Orange county, N. C., to which place I suppose he will resort. He is about medium size, copper complexion, teeth not very good, eyes red as though he was fond of drinking, quick of motion and of speech, a little inclined to stammer in the shewlairs as he moves. He is about thirty years of age. He is also somewhat of a Carpenter and Blacksmith. I will give the above reward for the apprehension and confinement in jail of each of the above men, so that I get them again. JAMES W. DOWNEY, Ridgeway, Warren Co., N. C. June 27, 1855. 92-60000

Schofield for certain purposes therein mentioned, I will offer, at Public Sale, on Thursday the 23d day of August, (it being the Thursday before the Orange County Court.) THE HOUSE AND LOT in the town of Hillsborough, lately occupied by said Schofield. The House is entirely new and pleasantly situated, and has several large rooms, well lighted and well ventilated, and conveniently arranged, with broad passages, and easy access to the piazzas fronting north and south. There is a well of excellent water on the lot, with a good pump in its convenient location to the house and kitchen. All the Out Houses, including Stables and an Ice House, are new. It would afford a delightful Summer residence. Terms made known on the day of sale. J. A. TURRENTINE, Trustee. Hillsborough, July 30, 1855. 90

Fine Pictures. THE Subscriber, from Richmond, Va., where he has been located for the last four years, having determined to travel a short time, takes this method of informing the inhabitants of this place and the surrounding country, that he has taken rooms at THE MASONIC HALL, where he would be pleased to see every lady and gentleman in this community, and have them personally examine his Specimens, that they may at once be convinced of the Superiority of his Pictures.

The subscriber's Pictures have received the highest encomiums from the Press as well as from good judges of the Fine Arts. The peculiar Tone, Fine Texture and Style of Finish to his Pictures are pronounced by all who have seen them to surpass any thing in the Daguerotype line ever before offered in this community. He also takes a New Style of Pictures, called the Magnifying Daguerotype, which is the latest and greatest discovery yet known in the Art, by which the picture is made to appear the natural size of life. He also takes the beautiful and much admired STEREOSCOPIC PICTURES, and keeps constantly on hand a large and beautiful assortment of Fancy Cards, Gold Lockets, Breast Pins, Finger Rings, Watch Keys, &c., in which he will place Pictures, and sell on very moderate terms. Sam is a younger brother of Aleck, also a Mason, and may be known by being very likely, straight, with a smiling, good-natured expression of countenance. He is a shade darker than Aleck. These two may be trying to get employment as Masons, or at some other mechanical work. Johnson was raised by Mrs. Patterson, of Orange county, N. C., to which place I suppose he will resort. He is about medium size, copper complexion, teeth not very good, eyes red as though he was fond of drinking, quick of motion and of speech, a little inclined to stammer in the shewlairs as he moves. He is about thirty years of age. He is also somewhat of a Carpenter and Blacksmith. I will give the above reward for the apprehension and confinement in jail of each of the above men, so that I get them again. JAMES W. DOWNEY, Ridgeway, Warren Co., N. C. June 27, 1855. 92-60000

Valuable Residence for Sale AT AUCTION. By virtue of a Deed of Trust, executed to me by Samuel P. Schofield for certain purposes therein mentioned, I will offer, at Public Sale, on Thursday the 23d day of August, (it being the Thursday before the Orange County Court.) THE HOUSE AND LOT in the town of Hillsborough, lately occupied by said Schofield. The House is entirely new and pleasantly situated, and has several large rooms, well lighted and well ventilated, and conveniently arranged, with broad passages, and easy access to the piazzas fronting north and south. There is a well of excellent water on the lot, with a good pump in its convenient location to the house and kitchen. All the Out Houses, including Stables and an Ice House, are new. It would afford a delightful Summer residence. Terms made known on the day of sale. J. A. TURRENTINE, Trustee. Hillsborough, July 30, 1855. 90

Fine Pictures. THE Subscriber, from Richmond, Va., where he has been located for the last four years, having determined to travel a short time, takes this method of informing the inhabitants of this place and the surrounding country, that he has taken rooms at THE MASONIC HALL, where he would be pleased to see every lady and gentleman in this community, and have them personally examine his Specimens, that they may at once be convinced of the Superiority of his Pictures.

The subscriber's Pictures have received the highest encomiums from the Press as well as from good judges of the Fine Arts. The peculiar Tone, Fine Texture and Style of Finish to his Pictures are pronounced by all who have seen them to surpass any thing in the Daguerotype line ever before offered in this community. He also takes a New Style of Pictures, called the Magnifying Daguerotype, which is the latest and greatest discovery yet known in the Art, by which the picture is made to appear the natural size of life. He also takes the beautiful and much admired STEREOSCOPIC PICTURES, and keeps constantly on hand a large and beautiful assortment of Fancy Cards, Gold Lockets, Breast Pins, Finger Rings, Watch Keys, &c., in which he will place Pictures, and sell on very moderate terms. J. W. WATSON. Hillsborough, August 21. 61
