BUBAL BOOKSMY. " May your rich soil, Exuberant, natures's better blessings pour O'er every land."

From the Christian Son. IRISH POTATOES.

The time being hard upon us, for preparing the soil, and planting some kinds of buds, among these the Irish Potatoe; and as it is a favorite esculent with man, both for the pleasure and profit derived from its use: I propose to give you my mode of planting, which has for several years, proved eminent-

I select a friable soil, inclined to be sandy, if convenient; if not already rich I make it In a little precious stone, what splendor meets the eyes. Lewis spoke with a tender reprout in his moderately so, by a dressing, broad cast, of In a little lump of sugar how much of sweetness lies! well rotted manure, the scrapings of the So in a little woman love grows and multiplies; kitchen yard prepared, but any well rotted You recollect the proverb says, " A word unto the wise." manure is good; prepare the ground theroughly by repeated plowings or spadings, if necessary. This done, make furrows or trenches two feet apart and four inches deep.

Then make a compost of 29 bushels wood mould or partially decomposed vegetable matter, I bushel No. 1 Peruvian Guano, and one bushel fine charcoal, (such as can be had And as within the little rose you find the sweetest dyes, about the Rail road stations, or Black Smith And in a little piece of gold much price and value lies, shops) or instead thereof, 1-2 bushel ground As from a little balsam much odor doth arise, Potash, thoroughly incorporate those ingre- so in a little woman there's a taste of Paradise. I also desire to inform the public that I will give the dients and spread at the bottom of the furful market price for all saleable articles in bacter, esperow at the rate of one large handful to two row at the rate of one large handful to two The skylark and the nightingale, though small and steps, about six feet.

Cut and drop the potatoes in the ordinary Yet warble sweeter in the grove than all the birds that way about nine inches a-part, then fill the trench even full of earth, leaving the surface And so a little woman, though a very little thing, perfectly level, and if at digging time you are Is sweeter far than sugar, and flowers that bloom in not satisfied with the yield, your success will not equal mine. I have raised from this mode of culture over 400 bushels from 8 bushels of seed.

When the grass makes its appearance, I put with the hoe or plough, a sufficient quan- Mrs. Lewis, her manner half-smiling, half tity of earth about the plant to cover the rerious. grass, and this ends the cultivation, except to go over and pull out the large weeds.

This plan of planting is (for our latitude) founded on common sense. Our climate is warm and soil hot and dry in summer, hence, the pototoes in ridges scald and begin to rot, soon after, often before maturity; if we dig them so early they cribed is adopted, the Guano compost hastens just now." witness, Thomas Webb, Clerk and Master of the easily shaded and kept cool, and the potatoes walked on in silence. They had called in disappointments, in some measure dependent Court of Equity for the county and State aforesaid, at will be found sound and remain in the ground at the store of Mr. Edwards to purchase a upon his restless anticipations. He was not but if your ground is truly too damp for such jarred upon his ears. crop, it needs ditching, and will not grow any thing well until this is done.

WINTER WHEAT .- Fears have been expressed regarding the killing of the winter wheat by its exposure to frequent frosts and thaws, it not being covered with its usual warm mantle of cold snow. We would advise our farmers to go over their wheat fields with rollers in the spring, so as to press down all the roots of the grain which may be thrown out of the soil. This practice is pursued regularly in England, where the winter seasons are similar to our present one. Our farmers should also take measures for sowing spring wheat in situations where the winter kind may be killed. Wheel, Times.

The Times makes a very excellent suggestion, and we would commend it to the notice of farmers in this section if Virginia. The roller is one of the most useful of agricultural implements, and is particularly serviceable to the wheat crop when applied early

a foot square, to support the cloth. These | darkened over her own. ward melons, tomatoes, flower seeds, &c., child.' in season for transplanting."

IRISH POTATOES .- We stated yesterday, that a farmer near Norfolk cleared \$3,600 on a potato patch of only 28 acres. This is, however, not equal to the crop of another Norfolk county farmer, on 6 acres. Forty bushels were planted, and the yield was 242 said-bbls., equal to 726 bushels, which he sold in this market at \$3 50 per bbl., making \$847, or \$141 per acre. Had they been sold at the prices obtained in the season, they would have amounted to \$2,000. Peruvian guano, properly applied, produced the above results. Norfalk Argus.

More than all other condiments, though 'tis sprinkled

I might have gone to lay off her bounct and shawl, and known beforehand, that talking out in this change her dress. Well did her hasband unway would only make things worse. Oh, derstand the meaning look she gave him; and dear! I'm getting out of all heart!"

. What then, Caddy ?' Mrs. Lewis almost started at the sound of her husband's voice, breaking unexpectedly gold in pictures of silver,' said Mr. Lewis, · What then?' he repeated, turning towards

'It would send warmth and radiance sanding tenderly upon his wife,

through the whole house,' said Mrs. Lewis, her tones all a-tremble with feeling. * You think soft "I known so." Only try it, dear, for this that, saked Mr. Lewis.

'It isn't so easy a thing to put on a smiling the child. checked in growth, neither do they grow up face, Caddy, when thought is oppressed with

articles are just the thing for bringing for- careful of my words as if talking to a spoiled

No, it did not require much effort on the part of Mr. Lewis to smile, as he passed a few words, lightly, with Mr. Edwards. The remark of his wife had not really displeased him; it had only set him thinking. After remaining gravely silent, because he was undergoing a brief self-examination, Mr. Lewis

. You thought the smile given to Edwards came easily enough?"

'It did not seem to require an effort,' relied Mrs. Lewis.

'No, not much effort was required,' said Mr. Lewis, his tones slightly depressed. But this must be taken into the account; my mind was in a certain state of excitement, or activity, that repressed sober feelings, and made smiling an easy thing. So we smile and are gay in company, at cost of little effort, because all are smiling and gay, and we feel the common sphere of excitement. How different it often is when we are alone, I need not say. You, Caddy, are guilty of the sober face at home as well us your husband.' Mr.

But the sober face is caught from yours oftener than you imagine, my husband,' replied Mrs. Lewis.

' Are you certain of that, Caddy?' . Very certain. You make the sunlight and the shadow of your home. Swile upon us; give us cheerful words; enter into our feelings and interests, and there will be no brighter home in all the land. A shadow on your countenance is a veil for my heart; and the same is true as respects our children. Our pulses strike too nearly in unsion not to be disturbed when yours has lost its even beat."

Again Mr. Lewis walked on in silence, his face partly averted; and again his wife began to think that she had spoken too freely. But he soon dispelled the impression, for he

'I am glad, Caddy, that you have spoken thus plainly. I only wish you had done so before. I see how it is. My smiles have been for the outside world—the world that oeither loved or regarded me-and my clouded brow for the dear ones at home, for whom thought and care are ever living activities."

Mr. and Mrs. Lewis were now standing at their own door, where they paused a moment, and then went in. Instantly on passing his threshold, Mr. Lewis felt the pressure upon him of his usual state. The hue of his feelings began to change. The cheerful, interested exterior put on for those he met in business intercourse, began rapidly to change, That smiling face you turned upon Mr. and a sober hue to succeed. Like most busiever far in advance of the slow evolutions of Mr. Lewis slightly averted his head, and trade; and his daily history was a history of tatoe delights in a deep mellow moist soil, by surprise; and though spoken lightly, had vance. The consequence was, that when the day's excitement was over, his mind fell into
