

DEATH OF FOUR CENTENARIAN CLERGYMEN.—Six months ago a statement went the rounds of the press that four graduates of Dartmouth College—all of them clergymen—still survived, the aggregate of whose ages amounted to more than four hundred years. Hardly had this fact become known than death commenced its work. One of the number, Rev. Mr. Parsons, of New Jersey, was called away at the age of 99; Rev. Labin Ainsworth, for three-quarters of a century minister of Jeffrey, (N. H.) died about the same time, having more than completed his century; Rev. Zachariah Greene, of Hempstead, (L. I.) followed in his 99th year, and now we have to chronicle the decease of the last and oldest of the four, Rev. John Sawyer, of Bangor, (Me.) who died on the 14th instant aged 103 years and 5 days. Almost to the close of his life Mr. Sawyer retained his vigor in a surprising degree; and had preached occasionally during the past spring and summer. In early life he served in the Revolutionary army, and was wounded in one of the battles in which he took a part. Rev. Daniel Waldo, recently Chaplain of the National House of Representatives, is, it we mistake not, the oldest clergyman in the country engaged in the active duties of his profession. His age is about ninety-four years.

EDUCATION IN NORTH CAROLINA.—The Old North State, which by general consent has been considered far behind the other old States of the confederacy in learning and intelligence, and which has been called in derision, "Rip Van Winkle," appears to be wide awake by her having disbursed from her literary fund, for the support of schools and for the education of deaf and dumb children, during the year 1855 and 1856, the sum of three hundred and ninety-six thousand six hundred and sixty-five dollars. Some of the States that have looked upon the old "Rip Van Winkle" State rather with contempt, might profit by observing her example.

THE CROPS IN THE WESTERN STATES.—The last fifteen or twenty days have been the salvation of the corn crop at the West, which was almost despaired of being worth gathering a month ago. The extremely favorable fall has ripened many a field that the owner expected only to use for fodder. We have heard from many sources, say an exchange, that the quantity of corn at the west this year, will be far superior to that of 1857. The quantity is not, of course, as large in bushels of ears as it was last year; but there is reason to believe that there will be as many bushels of really sound corn. This is very encouraging, since it is well known that the old crop is almost a total failure all over the prairie States, and not worth bragging of anywhere.

COMETS.—The great comet having now begun to depart, to return no more for hundreds, if not thousands, of years, it may be some gratification to our readers to know that another is visible to the naked eye, although of modest and unpretending appearance. This is Tuttle's comet, and in the constellation Pegasus, which group is in a direct range with a line drawn from the two pointers in the "Great Dipper" through the North star, and is about as far from that body as Arcturus.

COOL RASCALITY.—In Cincinnati a few days since, two sharpers accosted a country gentleman, stopping at one of the hotels, and stating that he was detective, declared that he was suspected of dealing in counterfeit money. The ruralist asserted his entire innocence; but they said they would search him, and took him into a private room, when they found \$108 in good money. One went to consult a detective concerning the bank notes, and remained away so long that his companion also departed in search of the delayer. Of course neither returned, and the rural and unsophisticated fellow learned too late that he was victimized.

GORED TO DEATH BY A BULL.—The Rev. Samuel C. Parker, of Hinckley, Medina county, met with a terrible death on Sunday morning, the 10th inst. He was seen to go into a field in which he kept a bull, with a pitchfork in his hand, for the purpose, it is supposed, of driving the animal out. About an hour after a person called at his house to invite him to preach a funeral sermon, and was directed by the family to the field where they supposed Mr. Parker to be. On looking for him he was found dead, the body tossed over the fence several rods from where the pitchfork was lying. The horns and head of the bull were bloody, and the blood marks on the ground indicated that the unfortunate man was gored and pitched along by the vicious animal from the place where the pitchfork was dropped to the fence, and then tossed completely over it.

FAT.—The late news about the Paris "ragions" is somewhat startling. Fat is the fashion. Ladies cultivate it. They are devouring vast quantities of butter, mashed rose-leaves, and such like. The Empress is quite corpulent, which accounts for the style. The fashion will be here before long. We hail it with joy. A new era is dawning. Our girls will stop eating slate pencils and chalk, and commence partaking liberally of roast beef and baked beans. They will rise with the lark. They will exercise. They will try on the wash-tub, perhaps.

A NOBLE LOOKING INDIAN GIRL.—A soldier in the United States army, writing from Red River, New Mexico, under date of July 29, communicates to the Richmond Dispatch the following:

"It was here that I saw the noblest looking Indian girl that I ever beheld. Her dress consisted of a piece of brown cotton cloth wrapped around her loins and hanging to the knee. On her head she wore her native war plume. She was tall, straight as an arrow, and a free wild Indian look, that was quite taking. (Some of her tribe were given to another kind of taking which required all our watchfulness to prevent.) She appeared to be about 18 years of age, and was the wife of a young chief 20 years old. It was interesting to see with what respect she waited on him. Her example would be edifying to the wives of more civilized life. But it was amusing to see with what lordly indifference the young savage regarded her attentions. I trust I have too much of the native gallantry of my own Erin to see anything to commend in this example of coolness towards such a devoted and sweet spouse, although exhibited by "one of the rulers of the earth."

THE ETAW (Ala.) Whig of the 7th instant says that there has not been a better crop of cotton in that portion of the State since the year 1850. Several of the planters are gathering from 800 to 1200 lbs. to the acre, at the present picking.

SHOCKING BRUTALITY.
THE PRIZE FIGHT.—The fight between Heenan and Morrissey commenced at twenty minutes to four o'clock Wednesday afternoon at Long Point, Canada. Heenan made objection to the ground, saying it was not according to agreement, but as so many had come to see the fight he would waive his objections and fight. The first round lasted seven minutes. The fighting was terrible, Heenan throwing Morrissey and drawing the first blood. The second round Morrissey was thrown. The third round Heenan was thrown. The fourth round both men came up looking very weak, and Morrissey was knocked square down by a blow on the under jaw from Heenan's right hand. The fifth, sixth, seventh, and eighth rounds Heenan was thrown. The ninth round both fought wildly; and fell side by side. The tenth round Heenan was knocked down. The eleventh round Morrissey was very weak and had to be carried to the scratch; Heenan went alone. This was a terrific round; Heenan fell fainting. The twelfth round Morrissey was carried to the scratch, but Heenan was too faint to come to time and the battle was declared won by Morrissey. Eleven rounds were fought in twenty-two minutes. Both men were very badly cut and had to be carried away on beds. The fight was witnessed by about 3000 persons. There was no disturbance.

THE CHINESE INDENTURE DEBT.—It appears that China will have to pay, either in the shape of indemnities to neutrals who have lost property or to the Powers actually engaged in the war, for military and naval expenses and Commercial losses, the following sums in U. S. currency:

To England,	\$6,000,000
To France,	3,000,000
To the United States,	500,000

Russia takes her share out in the session of valuable territory on the Amoor river.

ACCIDENT FROM AN ELECTRIC TELEGRAPH.—The Gazette of Augsburg contains a letter from Zara, (Dalmatia), dated the 9th ultimo, in which we read: "The electric telegraph here has been the cause of an affecting disaster. During a violent storm yesterday two of the telegraph posts were thrown down, but without breaking the wire. When the storm was nearly over an official of the telegraph office and some artillerymen set about replacing the posts. Instantly three individuals who touched the wire received terrible electric shocks. Two were killed on the spot, and the third received serious injuries in the head and the upper part of his body."

THE COMET IS APPROACHING VENUS. About the 17th instant, the time of its nearest approach, it will be, as seen from the planet, thirty-six times as great as it appeared to the earth at its maximum. The nearest approach to Venus will be on the 19th instant, when it will be between two and three degrees distant. Owing to the great velocity with which it will be moving (about thirty-three miles per second) it will be subjected to the disturbing force of the planet for such a short time that its orbit will not be very much changed. If it had arrived three days earlier it would have passed so near as to present to Venus an appearance more than three thousand times as magnificent as it appeared to us on the 8th and 9th instant.

A BEAR TREED BY A HORSE.—Deers are more numerous this season than for several years in the central counties of the State, and adventures with them are quite common. Mr. D. Cross, of Fairfield, who recently visited Eaton county, related to us an affair which occurred four miles east of Eaton Rapids, which presents an example of maternal care by a mare for her colt that is rarely exhibited by the horse kind, if it was not a hair-breadth adventure. A mare with a colt by her side, was feeding in a pasture, when she was approached by three bears—an old one and two cubs nearly full grown. Alarmed for the safety of her colt, the mare forgot the usual fear of the horse for these animals, and attacked them with such vigor that they were forced to retreat. They were pursued so closely that one of them was compelled to seek safety, and remain in a tree until the owner of the mare, who had watched the whole proceeding, went to his house for a gun, returned and shot it.

INDIAN BATTLE.
St. Louis, Oct. 18.—Intelligence reached this city on Saturday of a desperate battle between the U. S. troops and the Camanches, near Wichita village, in which a part of the whites (Lieut. Van Camp and four men) were killed; also one man missing, and ten wounded, including Major Van Dorn considerably. The enemy had forty killed and a considerable number wounded.

Advices from Fort Kearney to the 23 instant report that Major Crossman, Captain Newton and Lieut. Bryan, of the engineer corps, and Lieut. Villegiel, of the second dragoons, reached that place on the 25th ult., on the steamer United States. They report the gold excitement as still very high, though the actual results of the operations are not so cheering as the accounts would seem to warrant.

WONDERFUL POLITICAL REVOLUTION.—Speaking of the election in Pennsylvania, Tuesday, the Philadelphia Bulletin says:—"Not only has Philadelphia pronounced against Mr. Buchanan, but the whole interior of the State is equally emphatic in repudiating him and his course. Barks, which usually give six or seven thousand Democratic majority, elects an anti-Buchanan man to Congress, defeating the President's bosom friend, and the proudest champion of Le-comptonism, J. Glancy Jones. Montgomery, Schuykill, and other strong Democratic counties, cast majorities for the opposition, and in the opposition counties there are also opposition gains."

The next Congressional delegation from Pennsylvania will scarcely contain three members on whom the President can rely. The Legislature next winter will be overwhelmingly in opposition, though it is possible that the Democrats may retain a bare majority in the Senate. On the State ticket the popular vote will be enormously against the candidates of the Democratic party, who represented the policy of the President on all the great questions of the day. As compared with the vote of October and November 1856, the present vote shows one of the most extraordinary political revolutions that has ever been witnessed in this State.

PARIS, SEPTEMBER 30.—Some doubts were expressed whether the Imperial Government would allow the decrees which opened the ports to foreign grain, provisionally, to expire at the end of this month, according to their limitation. Yesterday the *Constitutionnel* settled the point by declaring that the decrees would not be continued in force, but the law of 1852, with the sliding scale, would remain, and foreign grain be subjected to the old duties. A long argument is pursued to show that the sliding scale is necessary for the interests of both the home producers and consumers. Protection is the indispensable policy of this Government; the advocates of free trade are scarcely more numerous than the adherents to the Orleans dynasty.

NEWS ITEMS.
A CHALLENGE.—The American State General Committee of New York, have challenged the Republicans and Democrats to public discussion in every county in the State, after the Southern fashion. At the close of the American Convention many eloquent speakers pledged themselves to take the stump.

Colonel Kinney informs the San Antonio (Texas) Herald, that he has concluded his negotiations with the Mormons, for the sale of his interest in Central America, and has received an earnest of \$200,000, as part of the purchase money, which is to be \$2,000,000.

THE GOSPEL IN CHINESE.—The New Testament is about to be published in the Court dialect of China, in one octavo volume of about one hundred and fifty leaves, at a cost of from twelve to fifteen cents a copy.

Ten boxes of grapes from the vineyards of Los Angeles, California, were received at the Astor House, New York, by the last steamer. They are in perfect order, and in large clusters, and of a rich purple color, and very luscious. As a table grape they are said to be not inferior to any grape of foreign growth.

The Cork is being extensively cultivated in the neighborhood of Cincinnati. Ten thousand cans of the acorns have been ordered for planting.

A through-ticket for passengers has been formed from Wilmington to New Orleans, price, \$32.50.

The loss of life at the late explosion of the Arsenal at Havana, amounts to 112 persons killed and 108 wounded. The loss of property is estimated at \$1,000,000.

The clergy of England are making vigorous onslaughts on the customs of wearing hoops and diminutive bonnets. At a recent meeting of the British and Foreign Bible Society, a Rev. Mr. Marriott quoted scripture to prove that both these gay fashions were irreligious. It is said that his fair auditors showed no visible signs of contention or repentance.

The Emperor Napoleon III. is energetically pursuing his plans for the improvement of France.

LATE FROM EUROPE.
The steamer Pacific arrived at St. John, N. P. on the 20th instant. She left Galway on the 12th inst., and brings Liverpool telegraphic advices to that date, and the mail of the 11th.

The Paris press publishes the full correspondence between the U. S., and foreign ministers at Nicaragua, touching Belly's convention. The former says, no arrangement with Belly shall be recognized or assented to in anything contrary to the just rights acquired by American citizens, and that the liberal policy resulting from the transit-treaty of November last, shall be constantly maintained. The Nicaraguan minister replies that his government wishes only justice and its rights, and desires friendly relations with the United States, but declines the transit-treaty lead of no value because it was not opened at the stipulated period. Belly appeals to the Clayton-Bulwer treaty for protection, and Lord Malmbury's letter to him tells him the stipulations thereof will, in his opinion, apply to his scheme if carried out.

There have been several wrecks in the German ocean—no American vessels. The cholera had killed 30,000 people at Mecca.

The new company for the completion of the Great Eastern had been delayed in its organization by the non-attendance of directors.

France is exempt from navigation dues for another year on cargoes of iron, flour, rye and all vegetables.

The Bank of Frankfurt had advanced the rate of discount five per cent.

Advices from Canton were satisfactory.

The news from India is unimportant.

The ship Favorite from Liverpool for Savannah had put into Queenstown leaking.

PROSPECTUS.
Cantwell's Law Practice.
THE UNDESIGNED respectfully invites subscribers to the publication of his treatise upon the Practice of Law in the Courts of North Carolina, to hand in their names by the 1st January; and he solicits for the work the patronage of the Bar and the Public generally. The first volume now nearly ready for the press, is devoted exclusively to the consideration of Legislative and Executive Powers. Under the first named title, the following titles and chapters of the Revised Code, with the accompanying decisions, will be found embodied, viz:

County Boundaries; County Revenue and Charges; Court Houses, Prisons, etc.; County Trustee; Fairs; General Assembly; Inspectors; Poor; Registers; Rivers and Creeks; Roads; Ferries, etc.; Idiots and Lunatics; Ordinances and Ordinances; Mills and Millers; Prisoners; Weights and Measures.

Under the second named title, Executive Powers, will be found the following chapters and titles of the Revised Code, viz:

Attorney General, etc.; Attorneys at Law; Courts, County and Superior; Court Supreme; Guardian and Ward; Administrators; Auctioneers; Clerks; Constables; Coroners; County Boundaries; County Trustee; Deeds; Estates and Grants; Fairs; Literary Fund, etc.; Patrol; Pilots; Processioners; Registers; Revenue; Rivers and Creeks; Roads; Sheriffs; Rangers; Standard Keepers; Weirers.

The design of the work is, under these various titles, to present the student and practitioner with an intelligent and connected view of the Statute Law of North Carolina, applicable to each, together with all the decisions of the Supreme Court thereon up to the last term, and to accompany each chapter with the appropriate forms for proceeding.

It is also proposed to add, in the Appendix, a number of Forms and Precedents usually required in Conveyancing and Office Practice: the whole being intended as a guide to the practice of Law in N. C., and manual for the use of the student and lawyer.

The book will resemble in appearance and execution "Cantwell's Justice," and will be delivered, postage prepaid, to subscribers, for \$5 per copy, cash; payable on delivery. EDWARD CANTWELL, Raleigh, N. C.

HILLSBOROUGH MILITARY ACADEMY.
ON January 12th, 1852, the Institution above named will be opened at Hillsborough, N. C., to be conducted in chief by Capt. C. C. Tew, now Superintendent of the State Military Academy at Columbia, South Carolina, and Mr. W. D. Gaillard, a graduate of the South Carolina Military Academy, and an instructor of approved experience. The drill, discipline, and course of studies, will assimilate as nearly as practicable to those of the Virginia and South Carolina State Military Institutions. The studies of the first two years, or preparatory course, will be, Arithmetic, Algebra, English Grammar, History of the United States, History of England, Ancient History, Mythology, Geography, French and Latin. The details of the advanced course will be announced hereafter.

The Academic year will continue uninterruptedly from January 12th to the fourth week in November. The charge will be \$500 per annum, payable as follows: \$100 at the commencement of the Academic year; \$100 on May 1st, and \$100 on August 1st, for which the Academy will provide instruction, text books, stationery, quarters, board, fuel, lights, washing, clothing, (except shirts, drawers, and socks), and medical attendance.

No pupil will be admitted under 13 or over 18 years of age, or who cannot read and write with facility. Pupils will be received on day scholars for drill and instruction at the rate of \$105 per annum, payable in three equal instalments at the dates above mentioned. But in this case they will be provided with arms and accoutrements only, and no responsibility will rest upon the Academy except during the hours at which such pupils are actually engaged on drill or at recreation.

For further information address the undersigned at Columbia, S. C., until January 1st, after that date at Hillsborough, N. C.

PETERSBURG, VA.

OUR Stock this season presents unusual attractions in styles and variety. Importations are now in store, as also most of the goods purchased from American Factories, and those purchased at the Large Package Auction Sales. The entire stock having been secured at the lowest cash prices, and upon as good terms as any Jobbing House North, we take pleasure in inviting the Merchants of North Carolina and Virginia, to an impartial examination of styles and prices. Our objects in the trade are to sell goods as cheaply as possible, and to receive for them the best prices, and to sell by the piece or package, on as good terms as any regular establishment.
