

which he sat. Strange to say, he accomplished the feat and received the money. He went out and stepped into a store corner of Decatur and Jayne streets, where he was acquainted. He reclined upon a table, and in a few moments, when it was time to close the store, he was found to be dead. He died without an audible demonstration, but his features were found to be distorted, and his limbs contracted. His hands were closely clenched. The coroner held an inquest, and the jury rendered a verdict of death from natural causes.

DEATH OF KING LEOPOLD OF BELGIUM.

By the last steamer we get the news of the death of Leopold, of Belgium. Though advanced in years, his health had been of late so improved that the intelligence is somewhat unexpected.

Leopold was born in Coburg in the year 1790, and was a son of Duke Francis, of Saxe-Coburg-Saalfeld. In his nineteenth year he entered the Russian army, but by the influence of Napoleon was soon compelled to relinquish his position. In 1818, however he rejoined the Emperor Alexander, and took active part in the famous battles of that campaign. He accompanied the Allied Sovereigns to England the subsequent year, and it was on this visit that he made the acquaintance of Princess Charlotte, whom he married two years after. He was made a British Field-Marshal, and became a member of the Privy Council, and made a Duke and pensioned with £50,000. He continued to reside in England after the death of his wife, which occurred in 1817. On the division of the Netherlands, in 1831, he was elected King of the Belgians, having previously declined the crown of Greece.

In 1832 he married the Princess Louise, the daughter of Louis Philippe, by whom he had three children—Leopold, who succeeds him, now thirty years old; a second son, the Duke of Flanders; and a daughter, Marie Charlotte, the wife of Maximilian, the Emperor of Mexico. To the English Court Leopold held a double relation, not only through the marriage with Princess Charlotte, but as the brother of the Duchess of Kent, the mother of Victoria—and these ties have led him to make frequent visits to England. His relations to his own people and to the Governments of Europe have continued harmonious during a long reign and though many political agitations and changes. His administration of government was wise; his court without ostentation; was attractive and even brilliant; his wealth was immense; his habits of life unaffected and simple. His death will be sincerely lamented, not only by his own subjects, but throughout Europe. Not only his own beloved subjects, but the States of Europe, will sincerely mourn the loss of the long honored old King Leopold.

GREATEST INVENTION OF THE AGE.

Philo's Washing Compound.

THIS celebrated Soap has been in use for a number of years, and has given perfect satisfaction. No family should be without it. It does away entirely with the wash board, and the usual method of rubbing clothes, thereby saving them from wearing out so soon. The ingredients are perfectly harmless. You can do your washing in one fourth of the time that it requires by using the common soap, and will not take any more in quantity. I am prepared to sell the Soap; also receipts for making to families at five dollars.

We guarantee entire satisfaction in every case, or the money returned.

JAMES S. DAMERON.

Caldwell, N. C., Dec. 20th, 1865. 17-

To the Citizens of N. Carolina.

THE termination of a sanguinary contest, which for the past four years has presented an impassable barrier to all social and commercial intercourse between the two great sections of the country, having at length happily cleared away all obstacles to a renewal of those relations which formerly bound us together in a fraternal union, I take the earliest opportunity afforded me by this auspicious event, to greet my Southern friends, and to solicit from them a renewal of that extensive business connection which for a quarter of a century has been uninterrupted save by the great public calamity to which I have adverted.

It is scarcely necessary, on the threshold of a business re-union, I should repeat the warning so often given to my friends,—to beware of those spurious and deleterious compounds which, under the specious and false titles of Imported Wines, Brandies, Holland Gin, Liqueurs, &c., have been equally destructive to the health of our citizens as prejudicial to the interests of the legitimate Importer.

Many years of my past life have been expended in an open and candid attempt to expose these wholesale frauds; no time nor expense has been spared to accomplish this salutary purpose, and to place before my friends and the public generally, at the lowest possible market price, and in such quantities as might suit their convenience, a truly genuine imported article.

Twenty-five years' business transactions with the largest and most respectable exporting houses in France and Great Britain have afforded me unsurpassed facilities for supplying our home market with Wines, Liqueurs, and Liqueurs of the best and most approved brands in Europe, in addition to my own distillery in Holland for the manufacture of "Schiedam Schnapps."

The latter, so long tested and approved by the medical faculties of the United States, West Indies and South America as an invaluable Therapeutic, a wholesome, pleasant, and perfectly safe beverage in all climates and during all seasons, quickly excited the cupidity of the home manufacturers and vendors of a spurious article under the same name.

I trust that I have, after much toil and expense, surrounded all my importations with safeguards and directions which with ordinary circumspection will insure their delivery, as I receive them from Europe to all my customers.

I would, however, recommend in all cases where it is possible, that orders be sent direct to my Depot, 22 Beaver Street, New York, or that purchasers be made of my accredited agents.

In addition to a large stock of Wines, Brandies, &c., in wood, I have a considerable supply of old tried foreign wines, embracing vintages of many past years, bottled up before the commencement of the war, which I can recommend to all connoisseurs of these rare luxuries.

In conclusion, I would specially call the early attention of my southern customers to the advantage to be derived by transmitting their orders without loss of time, or calling personally at the Depot, in order to insure the fulfillment of their favors from the present large and well selected assortment.
