NEW SKIRT FOR 1865-6.

The Great Invention of the Age in HOOP SKIRTS.

J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.

THIS INVENTION consists of DUPLEX (or two) ELASTIC FINE REFINED STEEL SPRINGS, ingeniously BEADED TOGETHER and FIRMLY together, EDGE TO EDGE, making the TIGHTEST, MOST FLEXIBLE, ELASTIC and DURABLE Spring ever used. They seldom BEND or BREAK like the Single Springs, and consequently preserve their perfect and beautiful Shape more than twice as long as any Single Spring Skirt that ever has or can be made.

THE wonderful flexibility and great comfort and pleasure to any Lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small space as easily and conveniently as a Silk or Muslin Dress.

A Lady having Enjoyed the Pleasure, Comfort and Great Convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day will Never afterwards willingly dispense with their use. For Children, Misses and Young Ladies their use is superior to all others.

THE HOOPS are covered with 2 ply double twisted thread and will wear twice as long as the Single yarn covering which is used on all Single Hoop Skirts. The two bottom rods on every Skirt are also Double Steel, and twice or double covered to prevent the covering from wearing off the rods when digging down stairs, stone steps, &c., &c., which they are constantly subject to when in use.

All are made of the new and elegant Corded Tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect Shape possible, and are unquestionably the lightest, most desirable, comfortable and economical Skirt ever made.

FOR SALE in all first-class Stores in this City, and throughout the United States and Canada, Havana de Cuba, Mexico, South America and the West Indies.

MANUFACTURERS AND PROPRIETORS,

No. 20, South Delaware Avenue,

PHILADELPHIA.

This valuable MANURE has been before the agricultural public, under one name, for twelve years past, and its character for vigor of action and permanence in effect is well established. Before the war it was introduced to some extent in the Southern States, and was found to be highly adapted to

Cotton, Tobacco, and all Crops,

And as a perfect substitute for Peruvian Guano, (afforded at less than half the cost,) it has been adopted by agriculturists of known intelligence and discrimination. It is warranted not to exhaust the soil, but on the contrary permanently to improve it. The sales now amount to many thousand tons annually, and the facilities for its manufacture are extensive and complete.

Pamphlets describing its distinctive claims may be had on application to the undersigned agent of the manufacturers, from whom the MANURE may at all times be obtained.

GREATEST INVENTION OF THE AGE.

Philo's Washing Compound.

THIS celebrated Soap has been in use for a number of years, and has given perfect satisfaction. No family should be without it. It does away entirely with the wash board, and the usual method of rubbing clothes, thereby saving them from wearing out so soon. The ingredients are perfectly harmless. You can do your washing in one fourth of the time that it requires by using the common soap, and will not take any more in quantity. I am prepared to sell the Soap; also receipts for making to families at five dollars.

We guarantee entire satisfaction in every case, or the money returned.
