Editor Patriot : - Judging from what I see in the papers, as well as what I bear from Raleigh, the majority in both branches of the present Legistlaure seems to have run stark mad on the subject of Internal Improvements. This in sane balluctuation seems to have taken possession of their mental faculties, and run not with their reason until they have settled down in the absurd belief that they can, without dauger, and with great propriety grant as many mammoth overgrown and purestricted charters for Railroads and other corporate companies, as may be asked for by any one, or more persons either ceived in a large parior decorated or out of the State. [Correspondence Ansen Times.] WASHINGTON, D. C., Peb. 26 1684 I interviewed a man the other day about Senator McDenald's marriage. That man is known as "Menest Dick"-and bluff, outspoken "Dick" Bright-and he is Sergeant-at-arms of the Senate. Said I. "they tell me your lashy and fissby young widow; aren't you afraid it will prove another Christalney case ?" "Flash and dash h-l." said h does he look like an infernal fool ? He is only 61 she is 47; he has known her and her family for many years. She is one of the finest ladies in the land-ontirely worthy of him, as he is of her. He acted sensibly in marrying, as your own Senator Vance did." And I subsided. No old man (print it so, for likely he will never see it) ever, most probably, made augury was heightened into a sort a happier, er, in all respects, a more proper matrimonial alliance than did Vance when he invaded the "Blue grass region" of Kentucky. I dore not tell all

I known about it. Tis greatly to be regretted that this session will probably close Senator Mcpurest and ablest stalesmen of the day, and his absence from the National counof brilliancy, talent, elequence and broad patrotism which would have been worthy of the American Senate even in its palmiest and brightest days.

A day or two ago while prowling around he Sepate Library I encountered a man of distingue bearing tooking to be about fortyly seen about that and the other libraries and had always noticed the business-like air which he bore. He has an exceedingly intellectual countenance; wears a heavy brownish moustache and dresses in excellent taste; he works while others sleep in the toes in the afternoon. A chance question led to a few words of conversation, and I learned that he was the Honorable Kurd von in both houses of Congress reserved for them being generally untenanted. Now and then a frinky fledgeling in the shape of a clerk or escretary dro, s in for a little while to show off his importance and beauty, (?) but folks of that sort don't create any marked sensa-
