Politics Beyond the Ridge.

Captain Cope Elias, the champion politician west of the Blue Ridge, and who carries the election returns of every election that has been held in North Carolina in the last ten years pasted on the inside of his hat, was seen by the PAIRIOT man this morning heading for Democratic headquarters at Raleigh. He was going down to tell Coke "the good news from the West." We gathered a few points. The transmontane counties, he says, are solid for the Democratic ticket The in any of the western counties. Bennett has made a rousing canvass and has stirred up the Democrats. The only danger has been in apathy and indifference. Within the last two weeks a great re-action has set in and now the Democrats are at work and a full vote will be polled. Dockery is making his third canvass in the western counties and every repetition has found him with fewer followers. He takes along with him Bill Day, of Halifax, as a side show and exhibits him as an Eastern "Liberal," who is not afraid of negro rule in the Eastern counties. At no appointment, notwithstanding the most vigorous advertising, has there been more than a corporal guard of people to hear them. Their campaign is a ridiculous failure.

Fair Notes.

From Daily Patriot Oct. 27th. -The biggest potatoe on exhibition weighed 734 lbs., and was raised by Mr. J. R. Means, of Trinity college. It was entered too late for a premium. Mr. Means is an enterprising farmer. A few years ago he exhibited the premium bale of cotton at St. Louis. It was adjudged the finest bale of cotton in the United States, and received a \$500 premium.

-The premium baby declined to be interviewed. A young bachelor wanted to see her but she was engaged.

-What become of all the wine is one of the standing conundrums of the fair. +The painted china sets by Miss Mamie Benbow and Miss Bessie Yates excited general admiration. The decorative work'

cution. -The list of premiums awarded at the fair will be found in the PATRIOT to-day. We have tried to be impartial in making special mention of articles on exhibit but, of course, some will think to the contrary. No doubt much that was worthy of honorable mention escaped observation. It is beyond our power to make any further reparation now.

-The Graham brass band deserves special mention. It has furnished excellest music and gives promise of being one of the first bands in the State.

Two Dusky Damsels.

Susan and Becky, two dusky damsels of Warnersville, have been at outs for some time. Becky says her John comes home from church too often with Susan. He repeated the dose last night, so this morning Becky goes over to Susan's, found her in her back yard hanging out clothes; anade a round ring, told Susun to step in it, that she wanted revenge. Without word Susan leaped into the arena and quick as lightning hit Becky on the snout and brought the first blood, gave a twist to Becky's upper garment and brought nection restored.

Susan arose; tucked her head; made a run; struck Becky amidship, when she double up and keeled over. Becky got up ar pale as a burnt hoecake; gathered up her rags, and made a retrograde swoop, and said: "Now, I told you so; I guess you will let my John alone now; I told you so." To Garfiela Republicans. Washington Republican, the Presiden

The ravenous crew who hoped to gorge their coarse appetites for plunder through Blaine's power during Garfield's administration were frantic with rage when one of their own class sped the fatal bullet which disappointed their hopes. As tigers robbed of their prey, and not as citizens bereft of heir president, they turned with ferocious hatred not upon the murderer but upon the man who was by Garfield's death, made the unhapy custodian of the offices they craved. They made day and night hideous with their demand to have their hunger appeased. They had for spokesman the shameless tribe which through a syndicate of metropolitan dailies, defames every president upon whom they cannot levy blackmail. The new President was ordered to do whatever these scurrilous rag pickers in politics chose to say would have been the wish of Garfield if he had lived, on pain of such harm as they could do him. The President, anxions to give the country the repose it so much needed, and accepting as public opinion the extreme pretentions of these wretches, pro ceeded to administer the government accordingly. But this did not placate the Nibilists. Theyonly wanted to govern him in the exercise of the appointing power, but they wanted also absolutely destroy him.
