TOO MUCH ROTATION.

The Sentinel has noted with regret the tendency in North Carolina political life to divide out the spoils and "take turn about" going to the legislature and to congress. For instance, it seems to be an unwritten law in the 4th district that no DANVILLE has organized a camp congressman shall go more than twice. Last year, when General Cox had secured large influence in Washington and had large influence in Washington and und been placed as chairman of one of the most important committees of the House, it was decreed that this gentleman's polit-ical head must come off by the half dozen political aspirants in his district, and it did. And the result was, the district was lost and a radical of the blackest dye,

named John Nichols, was sent to Washington in the place of such an able man and thorough gentleman as Gen. Cox. We complain that North Carolina gets little recognition at Washington, that so few of our men get on important commit tees. It is true that we have little influence there, but it is our own fault. Of heads of the members of his cabi Brower of Nichols we can never expect recognition and not much respect, but if we send a man like Cox, or Henderson, we ought to let him stay until he fails in his duty. Occasionally there are men who go, and do nothing but vote for northern jobs, wear white cuffs, and look handsome; the various questions submitted at the close of his circulars, as folsoon as possible, but the majority of our representatives and Senators are worthy

An Undoubted Blessing. About thirty years ago, a prominent physician by the name for Dr. William Hall discovered, or by the name and Dr. produced after long experimental research, a remedy for disease of the throet, chest, and lungs, which was of such wonderful efficacy that it work gained a wide reputation in this country. The name of the medicine is DR. W.M. HALL'L BAL-SAM FOR THE LUNGS, and may be cafely re-
