HAIR NETS AGAIN.

THE VERY LATEST MODES OF DRESSING THE HAIR.

Some valuable and interesting information is to be had of the hair, together with directions for arranging it in the various styles that are in vogue.

Women should brush their hair thoroughly with clean hands and brush, and then apply a liberal quantity of hair oil to the scalp and to the hair. The hair should be washed with soap and water, and then dried with a towel. It should be brushed with a hair brush, and then styled in the desired fashion.

Illustration of a woman's head showing different hairstyles.

What is the prevailing fashion? It is impossible to tell, as the American women are so variable in their tastes. The styles of the day are similar to those of the past, but with a few modifications. The hair is now more loosely worn, and the styles are more varied.

A CARD FROM SENATOR VANCE

Denials General and Particulars of the Outrageous Fabrication about a Proposed Deal Between Mr. Martin and Col. Means—A Sharp Arrangement of the Fabricator and of the Washington Post.

By last night's mail the Observer received from Senator Vance the following copy of a letter which he has addressed to the Washington Post, and is only too glad to print. His arrangement of the matter of the miserable libel, and of the Post for publishing it, without investigation, is severe but thoroughly well deserved.

Editors of the Post: The story which you published a day or two since, concerning the suppression of a duel between my step-son, J. H. Martin, and one Col. Paul M. Means, is a lie so extraordinary, so circumstantial, and so malignant that I feel constrained to distinguish it from the rank and fetid crowd of its congeners by a denial. The remarkable feature of the story, and which stamps the author as a genius most unique and exceptional, is that with a particularity and minuteness, there is not a single word of truth in it. Even the names of the alleged participants in the thrilling story are given incorrectly.

I left Washington on the 10th of May with my family, including my step-son, Harry Martin; but I did not go under the care of a physician. We did not see Col. Means on the way; he did not enter the car and I did not see him. I did not see him at the hotel where he was staying, and I did not see him at the hotel where he was staying.

I did not return to Washington to suppress a duel. I have been unintermittently living in the quiet of these woods with my step-son, Harry Martin, for company. We have not gone to Washington or elsewhere. My son did not challenge Means, and has not seen him for a year. He is not an expert with the rapier—probably never handled one. In short, the only knowledge which I have of the alleged incidents was derived from the story of the Post, which I first read on yesterday, the 12th inst.

What motive its fabricator could have had beyond the money you paid him for it, I know not, and what good reason the management of a paper aspiring to respectability could have had for swallowing without inquiry so monstrous and mean a lie concerning my son and me, I cannot see, when the means of ascertaining the truth were so immediately at hand that the slightest effort would have elicited it—or left a habit you have acquired.

I believe, sir, that you cannot escape moral turpitude any more than I can responsibility for such wanton attacks without such statement as may be possible to me and to the public which may not be indifferent to the truth or regardless of the decency of private life.

ZANTHON B. VANCE,
Governor, near Black Mountain, N. C., June 13, 1893.

I request that the same pronouncement be given to this correction as was given to the original falsehood.

THE QUESTIONS OF THE HOUR—SILVER LAW, INCOME AND BANK TAX.

The World Interviews the Members of the House on Them—A Majority Opposes the First and Favors the 2nd and 3rd.

New York, June 8.—The World has interviewed nearly all the members of Congress by telegraph on the following questions:

1. Do you, with the present information, favor the repeal of the Sherman silver law?
2. Do you favor an income tax?
3. Do you favor the repeal of the State bank tax?

The World, in reporting their answers, says: "Many of the answers deviate so far from plain 'yes' to 'no,' and involve so many qualifications, that no tabular statement would fairly represent the opinions they express. The important facts shown are that in the first question, do you, with the present information, favor the repeal of the Sherman silver law? there are 86 Representatives who say, practically, 'yes,' while only 18 say 'no.' Of the rest many who qualify their answer so strongly that they cannot fairly be placed in the affirmative column, show plainly that their inclinations are in favor of repeal. The sentiment of the lower house on that question seems to be overwhelming."

"The World had already polled the Senate on the silver bill, and March 6th, last, printed a table showing that that body stood for repeal 59, against repeal 28, non-committal 15. It will be noticed that several who were non-committal then are now in favor of repeal. There seems to be no doubt that nearly two-thirds of the Senate will vote that way."

"The newer questions of the income tax develops an interesting situation. Many who speak freely as to the Sherman bill evade or ignore this question, but 15 say squarely that they favor it, 43 that they do not. The Southern and Western Congressmen are the most numerous advocates of such tax."

"On the State bank tax question the opinion is almost as one-sided as in regard to the Sherman bill. Many oppose it entirely, but 69 say positively that they are against repealing the tax, while only 30 favor it."

"My little boy was very bad off for two months with diarrhea. We used various medicines, also called in two doctors, but nothing doing until we used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I can only say that the best medicine made and sold conscientiously recommended to all who need a diarrhea or colic medicine. J. K. Hare, Trenton, Tex., and 50 cent bottles for sale by Ward and Watkins."

CAUGHT A NAPPING.
The County Convicts Catch the Guard a Sleep and take his Gun.
Last week about the time the News was being printed the county convicts caught the guard when he was not guarding, took his gun, and those who desired left, carrying the gun with them. The following taken from last week's Gleaner gives an account of the transaction: "Yesterday morning the county convict at work on the road between Graham and Gilbreath's bridge made an attack on the guard, a man named Davis, secured his gun and three of them made good their escape, taking the gun with them. There were nine in all in the squad, but six of them surrendered. The names of those who escaped are Ben Trolinger, John Tate and Geo. Ruffin, all colored. A posse went out from here on horseback in search, but nothing was seen of the escaped ones. We understand the convicts were unruly all Tuesday night and trouble was feared; on that account it seems some extra precaution should have been taken to keep under proper control."—Burlington News.

PROFESSIONAL CRACKSMEN.
Fayetteville, N. C., June 15.—Burglars made a raid on Fayetteville last night, entering the Merchants' Mill and blowing open the safe, from which they took \$198 and about \$2,000 in valuable papers. They then visited J. D. Huffine's brewery, from which they beat a hasty retreat for parts unknown.

Where is Your Boy?

We do not leave home at night when it is possible to remain there, but when we have occasion to be up street at late hours we have never failed to observe some boys from eight to sixteen years of age going to and from crowds, and using language that would shock the modesty of any decent man. Some parents say it is impossible to keep their boys in doors at night. We think it is getting to be a serious matter when a parent can't govern boys from eight to sixteen years of age. We have had some of them to tell us their boys would slip off without their knowledge. One of these fathers said that he would like to see a boy who has the right of a parent, would wish to commit. Leather straps, cow-hides or shingles could soon cure a boy thus inclined if properly applied. It has been said that children, when young step on our toes but when older step on our hearts. A great deal of the latter stepping could be avoided if the subject were taken in hand in time. When a young tree is planted, however crooked it may be, it can be straightened by proper care, but let it grow for a few years and then try to straighten it and you will fail. The boy resembles the tree in this particular. Most boys need frequent chastising to keep them in the path of the upright.

Let every parent, who has boys, try to instill into them a high sense of honor. This can be done, but it requires both time and patience to accomplish the work. The world is getting too busy to find time for culture. There are parents, we mean fathers, who seldom ever see their children awake. They go from their business late at night, and leave for the same early in the morning. The children grow to manhood without any special training by the fathers. Mothers cannot do all the work.

All business men could do just as much business as they now do and spend a third of their time with their families if they would unite upon a plan. The profits of business men are consumed by the expense connected with night work. Save your boys while you can and in after life you will save many heart aches.—Durham Recorder.

Carlisle Gives it Out Straight.
Secretary Carlisle was asked Saturday by a removed official why he had been dismissed. The Secretary's answer, characteristically short and to the point, was "I removed you, sir, solely for political reasons. I wanted your place for a Democrat."

Our dispatches of Tuesday stated that when some of the chiefs of division, whose resignations had been asked for by Secretary Carlisle, complained, Monday, of the shortness of the notice, the Secretary replied: "You received notice on the 8th of last November."

How indefinitely better that than keeping them in place or beating about for substitutes for their dismissal! When the people decreed last fall that the Republican party should go out of power, the decree included not only Republican politicians but the men who have been executing them. It is not worth while to look beyond our hills side of the 8th of November for reasons for removing Republican office holders. That these should be a part of the calculation of the people at that time, they decreed it and they will take the responsibility for all dismissals.

There are occasions in life when an excuse, apart from the real reason for action taken, is justifiable, and in the matter in question "brutal candor" is all that the case calls for. "I removed you, sir, solely for political reasons. I wanted your place for a Democrat." This is reason enough.—Charlotte Observer.

Another Alliance Stars Goes to Pieces.
The Alliance star at Morganton, which rejected in the name of Farmers' and Mechanics' Co-Operative Association, or some such high-sounding title, and of which Lieutenant Governor (P) R. A. Cobb was manager, has gone to pieces and is in the hands of the sheriff. Messrs. Wallace Bros. of Statesville, had a claim against the concern and as it was getting shakier they took out an attachment and had the store closed. Their attorney, Mr. Silverman, of Morganton, came down last evening to secure an order from Judge Armfield for the appointment of a receiver to wind up the business. Messrs. Wallace Bros. claim it safe and they will get their money.

And thus another one of the concerns which "our noble order" established to give "relief" has gone to the wall, and the sufferers will be the honest farmers who have been enjoined into putting their hard-earned cash into them.

The Perfect Color.

Perhaps you have seen roses dawn first blush.

Or the crimson glow at night; Or you've watched the blush on a fair girl's cheek. When the love god showed his might, Perhaps you've admired rare shells by the sea. Or you've seen a rose unfold; In the jungle's depths you have seen strange birds. In plumage green and gold— But you never saw in this beautiful world Nor nature nor art reveal Colors or tints that will ever compare With the pink of a baby's heel. —Puck.

TERRIBLE TRAGEDY.
A Crazy Mother Murders Four Children and Herself.
PARKERSBURG, W. Va., June 14.—Mrs. Phillips Kerch, the wife of a well-to-do farmer near Pleasant Hill, this county, murdered four of her children yesterday and then committed suicide. Mr. and Mrs. Kerch had eight children, the oldest of whom, Mollie, was 17 years of age. For some time Mrs. Kerch had been melancholy, and frequently said that she was afraid she would die and leave her children.

She seemed to be in good health, however, except that she sometimes complained of a trouble in her side. After dinner Mrs. Kerch quietly said to Mollie as she was at work in the laundry: "I have given Johnnie and Freddie poison and we will all jump into the well." Mollie remembered that a bottle of strychnine was in the house and she ran to the place where it had been kept. It was gone, and when she returned to where her mother was she saw her throw the 19 months-old baby into the well.

Before she could be prevented the crazed mother threw a 3-year-old child after the infant and was in the act of seizing a boy 8 or 9 years old when Mollie rescued him. A desperate struggle then began between mother and daughter, but the woman broke loose and jumped into the well, which had eight feet of water in it.

Mollie, who had been given the poison, was found lying dead on the floor of the house, and Johnnie died a few minutes later. Mr. Kerch was absent from home at the time of the tragedy.

Space Has a Value.
Some people act as if they think it does not cost anything to put a line of type in a newspaper. It does, though, and if for the benefit of an individual, he should be willing to pay for it. If no one else pays for it, the owner of the newspaper does. Space in a newspaper is the owner's stock in trade. He can no more afford to give it away than a grocer his groceries, or a baker his bakeries, or an oysterman his oysters. He has it for rent, and he can no more afford to furnish it free than a landlord can furnish rent free.—Chester (Pa.) Times.

Fifty cents is a small doctor bill, but that is all it will cost you to cure any ordinary case of rheumatism if you use Chamberlain's Pain Balm. Try it and you will be surprised at the prompt relief it affords. The first application will quiet the pain. 50 cent bottles for sale by Ward and Watkins.

Carrying the War Into Her Country.
Jess: I have come to the conclusion that we should be foolish to marry, and that we had best call it all a happy dream.
Jack: That has been on my mind for weeks, but I had no idea that you would look at it so sensibly.
Jess: You—hoo-hoo—miserable brute!—Truth.
The Queen Pawned Her Jewels.
Queen Isabella of Spain, pawned her jewels to raise money to fit out the expedition that discovered the new world. Her sacrifice was not greater than is made by many women of America, who deny them selves many things in order to have money to buy Dr. Pierce's Golden Medical Discovery for their sick husbands or children. This "Discovery" is more important to them than the one made in 1492. For all diseases of the Lungs, Liver, Throat or Stomach, the "Discovery" is a sovereign remedy. A trial convinces, its continued use cures. It purifies the blood, invigorates the liver and strengthens and builds up the whole system. Guaranteed to benefit or cure in every case, or money paid for it returned.
