### TRANSFORMATION.

Only a little, shriveled seed— It might be flower, or grass or weed; Only a box of earth on the edge Of a narrow, dusty window ledge; Only a few scant summer showers, Only a few clear, shining hours, That was all. Yet God could make Out of these, for a sick child's sake, A blossom-wonder as fair and sweet As ever broke at an angel's feet.

Only a life of barren pain Wet with sorrowful tears for rain; Warm'd sometimes by a wandering gleam Of joy, that seemed but a happy dream; A life as common and brown and bare As the box of earth in the window there; Yet it bore at last the precious bloom Of a perfect soul in that narrow room— Pure as the narrow leaves that fold Over the flower's heart of gold.  
—HENRY VAN DYKE.

### DEMOCRACY'S ATTITUDE

Clearly and Acceptably Defined by the State Executive Committee.

Following is the address issued by the Democratic State executive committee at its meeting at Raleigh Thursday night:

"The representatives of the Democratic party in North Carolina congratulate the Democrats of her sister states, who, with a firm stand for the principles embodied in the Chicago platform, have won splendid victories for the people.

"In rejoicing at the success of the Democratic party in the late elections, we remind the people that Democratic majorities were largest, and Republican minorities were smallest, in those states where that platform was the issue. It is a significant fact that Democracy was defeated in the states where local concerns were allowed to overshadow the principles of the party. Democracy is for all the people. The recent utterances of the people are plain and decided. They have expressed their faith in the Chicago platform, their belief in bimetallism, their disgust and disapproval of Republican creeds and practices, and, above all, their hatred of the tyrannical gold standard. They show that they will no longer submit to the robbery of trusts, the domination of bosses, and the oppression of the money power. The condemnation of the hypocrisy and falsehood of the Republican party is crushing.

"It is equally pronounced, whether we hear it, loud and free, in the wheat fields of Ohio and Iowa, or struggling for utterance in the wealth congested centre of 'Greater New York,' where the candidate for mayor received 80,000 plurality—a candidate whose only campaign utterance was: 'I am a Democrat,' who has heart and soul for the Chicago platform and the candidates who stood on it.

"No less significant is the fact that the people of the state of New York have elected by 70,000 majority as chief justice of the Court of Appeals, a statesman who sought support by announcing that he had voted for Hon. Wm. J. Bryan last year.

"And with this glorious news of Democratic success we rejoice that 'sham international bimetallism' has been exposed. There is no room for Republican dodging.

"We reaffirm our belief in the principles of the Chicago and State platforms of the Democratic party, as adopted in 1896, in their entirety, and we will still support those principles until they are written in our laws.

"We would be untrue to the firm and loyal allegiance the Democratic party of North Carolina bears to our greatest leader, Hon. William J. Bryan, if we failed to express our confidence in his honor and integrity and in his devotion of head and heart to the welfare of all the people. We emphasize the fact that our great victory was won in the states of Ohio and Kentucky, where he personally appealed to the people.

"We view with alarm the depressed condition of trade and the low prices of all products raised by our people, but we remind those who heard Republican orators in 1896, that the disaster if the Democrats were elected, that McKinley is President of these United States and both branches of Congress are Republican. The people are swift to draw the proper conclusions.

"We thank all patriotic citizens who joined with us last year in carrying the state for our presidential candidate, and we invite to the future councils of the Democratic party—the party of the people—all men who believe in its principles, desire its supremacy, and who will assist in carrying out its policies.

"In less than one year opportunity will be given the voters to express a firm adherence to those principles. We regret that the ballot box was not this year open to all North Carolinians. North Carolina is now accidentally Republican. We do not believe that any number of intelligent and virtuous men expected or hoped for the present rule in this state. We are sure all good men are eager for a change. We have fallen on evil days in North Carolina. They recall the days of reconstruction. They demonstrate the truth that no Southern State can be governed with honor and decency by the Republican party. Too large a number of its voters are ignorant, for the masses to control, and too large a number of the leaders are venal and corrupt, to give North Carolina good government. We look with horror upon the evils wrought by a combination of Republicans and the corrupt elements of the Populist party by means of which our

### THE NEGRO IN NORTH CAROLINA.

legislature has become a farce, many of our office-holders become corrupt and criminal, and ignorance and vice raised above intelligence and virtue.

We denounce the efforts of this combination to place the insane of the State at the mercy of incompetent, vicious and unjust men, and we condemn the changes wrought in our laws whereby ignorant and impure men have been placed in control of schools, courts, prisons and asylums. These are the inevitable consequences of Republican rule. The Democratic party promises the people on its return to power to correct all these abuses. It will guarantee every citizen his rights, but it demands that virtue and intelligence shall rule the State. It will restore to the white women of the State the security they felt under the twenty years of Democracy inaugurated by immortal Vance. To the accomplishment of these ends let every patriotic citizen rally to the white man's party. 'To your tents O Israel!'

The following resolution was introduced by Mr. H. L. Stevens, of Duplin, and adopted:

"That all white electors who intend to vote with us in the next election and who desire the re-establishment of Anglo Saxon supremacy and honest government in North Carolina are cordially invited to participate in all of our primaries and conventions."

The Democratic Executive Committee intend that there shall be no excuse for any white man to vote with the negro next year, unless he really wants negro and venal government—such as we have now.

### A New Assignment Law.

The question of credit is by far the most important that confronts the business world today. It is almost impossible to do business without credit, and yet half of the failures are due to that cause. To avert or minimize credit losses almost assures success.

The assignment law of North Carolina is unsatisfactory to both debtor and creditor. By the present method of settlement the creditor at best gets little and, in a great many cases, nothing at all, and the debtor is forever and hopelessly left in debt. The main trouble is that the assignor's assets are either sold at sacrifice prices or eaten up by expenses in winding up the business. Now, if the assignor's property could be sold for its worth, at a small cost, in most instances, the creditors would be paid and the assignor relieved of debt. To do that the assignor must have a market for his property, and the best way to assure one is to make the creditors individually and collectively interested in the sale of the assets. Now, if the law could be changed so as to first prohibit all preferred creditors in all assignments. Second, have all the assets sold at public auction. Third, permit any creditor to apply the amount of his purchase to the liquidation of his debt, all creditors would then be on an equal footing and they would see that every piece of property sold for its worth. The debtor would be benefited by the cancellation of his debts and the creditors would be interested in securing and dividing whatever the assignor possessed.

A summary as follows, to wit: First, all creditors would be on an equal footing. Second, a speedy settlement would be assured. Third, the cost of settling and winding up the business would be reduced to a minimum. Fourth, a market for the debtors effects would be assured, and the market value guaranteed by the individual and collective interest of the creditors. Fifth, the creditors would certainly get something and most instances 100 cents on the dollar.

### WILL INVEST IN THE SOUTH.

Mr. Milliken, in Behalf of the Northern Visitors, Speaks Well of the South.

CHATTANOOGA, Tenn., Dec. 2.—The distinguished party of New York bankers, merchants and manufacturers, who have been making a tour of the Carolinas, Georgia, Alabama and Tennessee, were in this city today. Mr. S. M. Milliken, of Deering, Milliken & Co., of New York, in speaking of the results of their investigations, said:

"We have found the South a very inviting field for investment in the matter of cotton manufacture. You have the cotton at your very doors and your labor is not so well employed as in the East. Besides this, your labor is the true article and therefore more contented, more tractable and willing to work for reasonable pay."

Mr. Milliken intimated that the result of their visit would be the expenditure of considerable money in cotton mills in the States visited. The party left for home tonight.

### THE NEGRO IN NORTH CAROLINA.

Col. E. A. Olds, in a letter written Saturday from Raleigh to the Wilmington Messenger, says:

In the past six months a great deal has been said regarding the negro and negro rule in North Carolina, and yet the remarks were generalizations. They did not give any figures and facts as to the part the negro plays in the economy of the state or in its social life.

In 1890 the population of the state was 1,617,947. Of this 35 per cent. was colored. There were 1,055,382 whites and 561,018 negroes. The total vote last year was 330,993. Of this the negroes cast 114,794, the whites 215,889.

Last year the Republicans cast 153,787 votes for governor. Of these only 38,993 were white. This shows that the white Republicans cast only 415 of their party's vote.

They are in fact a mere handful, yet they dominate the negro as the English do the natives in India.

Now as to the matter of illiteracy. There are free schools everywhere. No neighborhood, however secluded, is without them. Public education is only a trifle more expensive than water or air in the country. Yet the percentage of illiteracy of the whole population in this state is 36. That of the whites is 23 per cent.; of the negroes 60. In other words it means that 336,010 negroes are illiterate, and 242,847 whites are in the same condition.

In 1895 there were in the courts of North Carolina 7,078 criminal actions disposed of. Of these 9,135 defendants were white and 7,918 negroes. In 1894 there were 14,577 criminal actions disposed of, of which 7,780 were white and 6,719 colored. As to percentages the 1895 figures show that of defendants in criminal cases there was one in every 80 colored persons, while there was one in every 117 of the whites. There are 1,150 state convicts. Of these 300 are whites, 850 negroes.

The taxes paid by negroes very closely approximate 4 per cent. of the total paid. The amount expended last year for the education of the white children in the public schools was \$473,466, and for the negro children \$246,946. Of taxes on real and personal property for schools last year the whites paid \$402,829, negroes \$14,748. The percentage paid by whites was 96.34; by negroes 3.66. The total appropriation for public schools was \$847,578. Two-thirds of the white males over 21 paid poll tax, and only one-half of the negro males. The aggregate value of real and personal property, in 1895 was \$230,861,311, of which \$222,681,057 was owned by whites and \$8,180,254 by negroes. In other words, only one-twenty-ninth was owned by negroes.

### WONT SAY "AMEN" ANYMORE.

A Democratic Episcopalian Lawyer Inspects Governor Russell.

A certain lawyer from the western part of the State, who is here attending Supreme court, recently called upon Gov. Russell, whom he had never seen.

"I'm a Democrat," said the lawyer, "one of the strongest you ever saw, Governor, but I've never had the honor of meeting you and so I thought I'd drop in to pay my respects to the chief executive of my State."

His Excellency assured him he was pleased to have him call.

"And then you know," went on the lawyer a little hesitatingly, "you know, Governor, besides being a Democrat I'm a member of the Episcopal church and my people pray for you every evening. You know our prayer-books ask the blessings of Heaven upon the President of the United States and the Governor of the State and all in authority." So I've called to see what manner of man it is I've been offering up this petition for."

"Well, I hope sir," ventured the Governor, "you are pleased with the inspection."

"Yes—I reckon so—but, well, I don't think I'll say amen any more for the present, while that prayer is being said."

This closed the interview and the lawyer retired.—News and Observer.

### BEHOLD THE RESULT!

The Other States Have Swung Back and North Has a Republican Government.

The organization of the People's party is the resurrection and restoration to power of the Republican party in poor old North Carolina. This is the only present result of that party's organization in the United States. At first, when the People's party was first organized, with the help of the Democrats it carried Kansas, which had been a strong Republican state, and mighty things were predicted for it. Then it carried Colorado, and one or two other "mining camp" states, and then the leaders of the People's party were greatly encouraged and boasted of their power. Southern Democrats were made to believe that the People's party was sweeping over the country like a tidal wave, and thousands were persuaded to abandon their old party and unite with this "young giant of the West." And what is the result?

Just exactly what the Record and other Democratic papers predicted has happened. These Western States have returned to Republican rule—to their first love—and North Carolina has a Republican Governor and a Republican party by a gang of an incompetent and unprincipled demagogue as ever disgraced any state.

Was it for this that honest men abandoned the Democratic party and joined the so-called People's party?—Chatham Record.

### JUSTICE FIELD RETIRES.

Justice Harlan is Now the Senior Associate of the U. S. Supreme Court.

WASHINGTON, Dec. 1.—Justice Field's retirement from the Supreme Court took place today. There was no formality attendant upon it. The justice was not present in the courtroom, and as he had not sat with the court since the opening day of the term, the proceedings did not differ in any respect from those of ordinary days.

The general transfer of the seats of the associate justices was postponed until Monday next. On that day Justice Harlan, who now becomes the senior associate, will change his seat from the left to the right side of the chief justice, taking the seat vacated by Mr. Field, and Justice Gray will become Chief Justice Fuller's neighbor on the left. All other justices will move up one chair nearer the chief.

If Justice Field's term had continued until next Tuesday he would have had forty four years of continuous service. Under the law he will draw full salary until his death.

### The Attorney-General Knéw.

Attorney General Walseer recently gave an opinion that sheriffs could not enforce the provisions of sections 35 36 of the new revenue act against tax delinquents until after the regular time for the sheriffs to make levy and sale. The act names September 1 as the day when taxes are due and that imprisonment is the penalty for delinquency. The Supreme Court now says, in the case of the State against Jones, from Rockingham, that under the above named sections it is not the legal duty of the sheriff to make the levy of delinquents to the court until after the day of levying and selling has passed. So the court sustains the contention of the Attorney General.

### Forced to Study Economy.

The receipts of the federal treasury during November are placed at about \$25,000,000, a slight improvement over October. The deficit since the first of last July has mounted up to \$46,581,120, the expenditures having been \$174,242,280, against receipts of \$127,701,160. Receipts need to be about \$6,000,000 a month more than they are to make ends meet. The Dingier tariff is not the revenue producer protectionists predicted it would be. Shutting out imports cuts off the revenue from imports. But results are expected to be better next year. Sugar, wool, etc., were imported in vast quantities to anticipate the Dingier duties and the imported supply will after a few months be exhausted. Next spring sugar is expected to produce revenue very largely and increased revenue is expected from other articles. There is no expectation, however, that the deficit will be wiped out by July next. On the contrary, it is thought to be certain that the deficit by July next will be \$65,000,000.

The coming session of Congress cannot but feel the force of the facts. The treasury balance—thanks to the frugality of the Cleveland administration—still holds out, it is true, and the gold reserve, with better times, has increased to \$156,924,244. The receipts from the sale of the Pacific railroads supply a welcome addition to the treasury's available balance. But with expenditures exceeding receipts by \$65,000,000 a year, no balance will last long and Congress will have to study economy. Not much can be spent on new ships, docks and additions to the army. Pensions will hardly be much increased and the Nicaragua canal will be at a disadvantage. If we annex Hawaii we shall have new expenses in that quarter. Altogether the situation will be a novel one, since the party in power must be forced by facts to observe for the first time in its history what it has been accustomed to call a "cheese-paring" policy.

### CLAIMS HE IS LEGALLY DEAD.

Nevel Defenses Set Up by Ex-Treasurer Bartley of Nebraska.

A novel petition has been filed in the district court by Joseph Bartley, a state treasurer of Nebraska, under twenty years' sentence for looting the treasury of \$500,000.

The petition was an answer to the state's suit in which Bartley is made co-defendant with his bondsmen by the state, in which it seeks to recover the amount stolen.

The petition declares that Bartley cannot be sued, since he is dead, having been sentenced to the penitentiary for twenty years. His attorneys declare that under the state law no convict can be sued. If this contention is held the suit against the bondsmen cannot be maintained, since the principal must be sued with or before sureties are sued in Nebraska.

## BEAUTIFUL TEETH

Sometimes cannot be secured simply by the use of tooth brush and powder. Sometimes Nature has not been as kind as it should be. Sometimes teeth are not as regular and shapely as they ought to be. In many cases like this a good dentist can remedy the trouble. Crooked teeth can be straightened. Absolutely bad teeth can be replaced with natural looking porcelain crowns. Modern dentistry can work wonders with bad teeth.
