—An alarm of fire last night about nine o'clock caused considerable excitement owing to the high winds prevailing. The blaze occurred in an old field out beyond the water works. Fortunately it was gotten under control before any serious damage resulted. A similar fire occurred out beyond Pomona.

—A colored school teacher created some apprehension on the part of north-bound travelers on the C. F. & Y. V. railway Sunday. He was badly broken out with chickenpox, which some of his more timid fellow-passengers feared might be smallpox. His school in Chatham county had been broken up by the chickenpox and he was on his way home to High Point.

—The February term of Superior court convenes next Monday. Those of our friends who are in the habit of paying their subscription at court times will find us at the same old stand ready to give them the glad hand, and any others who wish to inaugurate this agreeable custom will meet with all the encouragement necessary to full and complete satisfaction.

—Mr. O. D. Boycott, the brick mason and general contractor, announces through our advertising columns that he is in business at 407 Walker avenue, where can be found brownstone, lime, brick, cement, etc. He will gladly furnish estimates on all work in his line and would like to correspond with those who contemplate building. He can be depended upon for reliable work.

—The Implement Company, of Richmond, Va., has an attractive advertisement in this issue that will interest purchasers of farm implements, machinery, wagons, harness, etc. A handsome catalogue will be sent free upon application. Mr. T. W. Wood, the well-known seedman, is president of the company, which was formerly known as the Richmond Agricultural Implement Co.

—Gen. John Gill, of Baltimore, Capt. J. W. Fry, Messrs. J. F. Jordan, A. T. Brooks, S. L. Gilmer, John J. Nelson and J. E. McKnight are at Manchester on a fox hunting expedition, going down Monday on a special train over the C. F. & Y. V. They were joined by a small party of prominent Atlanta gentlemen who have a taste for the sport. Twelve horses and forty dogs were carried along.

—Mr. L. E. Darden has opened here the bankrupt stock of goods formerly belonging to Hammond & Co., of Virginia, and advertises a great clearing out sale of clothing, shoes, dry goods, notions, etc. He quotes a number of prices in his new ad. He is doing business in the McAdoo building, under the telephone exchange, east of the postoffice, and will be glad to have his old and new friends call on him there. His entire stock will go at bargains.

—A large party of Scandinavian editors from the northwestern states, making a tour of the South under the direction of the Land and Immigration department of the Southern Railway, stopped over here Thursday night on their way to Norfolk. They seemed favorably impressed with the southern states and will likely wield considerable influence in turning the tide of immigration of their countrymen this way. They represent an industrious, progressive people who would make desirable citizens of any locality.

UNPARALLELLED PREMIUM OFFER!

ONE DOLLAR'S WORTH OF SEEDS OR PLANTS

Given Away With Every Cash-in-Advance Yearly Subscription to The Patriot—Old and New Subscribers Alike May Share the Advantages of This Offer—Read Carefully and Consider.

We want to introduce THE PATRIOT in one thousand new homes in Guilford and surrounding counties within the next three months, and to aid in that enterprise we have concluded to make the following offer:

Every person paying ONE DOLLAR IN ADVANCE on subscription to this paper before May 1st, 1898, will receive as a premium ONE DOLLAR'S WORTH OF SEEDS OR PLANTS, as he may elect, the said seeds or plants to be sent postpaid to any address in the United States. All persons who have heretofore paid their subscription to February 1, 1898, in cash, will receive one of the above-named premiums upon application to this office, either in person or by letter. This offer does not apply to those who have taken or may take advantage of our club rates. The payment of a fractional part of a year's subscription in order to reach the date referred to (Feb. 1, 1898), when the same amounts to more than twenty-five cents, will not secure these premiums for subscribers.

Our purpose is to extend this inducement to those with whom we do business on a strictly cash-in-advance basis and we want it understood that all arrears must be paid before any delinquent subscriber can avail himself of these privileges.

The Seed and Plants we offer as premiums are all of standard varieties and are first-class in every respect. They are put up by THE GREENSBORO SEED AND PLANT CO., whose place of business is 110 East Market street, in this city, and they are identically the same as sold by this reliable company to its wholesale and retail trade. Each package of seed included in this offer contains the quantity put up in the regular 5-cent papers. Each plant is rated at the regular retail price. In other words, for one dollar you would get identically the same amount of seeds or the same number of plants at the Seed and Plant Company's store that we offer you free, postpaid, in case you pay a year's subscription to THE PATRIOT in advance. This is absolutely the best offer that was ever made by any North Carolina newspaper.

Read the following lists and see what we propose to give you:

—The "Early Queen Rose" seed Irish potato is advertised by Mr. Phoenix in this issue. He mentions these points in its favor: "Adapted to this climate; a very heavy yielder; produces large potatoes," and after handling it for five years he is prepared to speak knowledgeably of its merits. He has just received his first shipment of these potatoes (two car loads) and can fill all orders promptly. Good potatoes are bringing a price now that ought to stimulate their cultivation on a much larger scale the coming season. Read what Mr. Phoenix has to say in his new ad.

—Our traveling agent, Mr. J. F. Taylor, who is also manager of the West End Land Agency, tells us that since the first of January he has had sixty-five inquiries for houses in the vicinity of the State Normal and Industrial College and that there is not a vacant house in that section of the city. Eight or ten houses are being built out there but they are all engaged. When a pile of sand or load of bricks are dumped on a vacant lot house-hunters flock to the spot like candidates to a county convention, and there they stay until they learn the house has already been rented.

—"Good gracious, you certainly do sell shoes cheap here," said a lady in our store last week when she saw some of the new lace and button shoes we had just opened. And that is the verdict of all who get acquainted with us and our goods and prices—not in regard to shoes alone, but on every line we handle. The few who do not trade with us are people who have not taken the trouble to investigate and find out how much they can save by trading with us. You will find Thacker & Brockmann's store always one of the busiest places in town, and people who trade with us once or twice almost always come back and become regular customers. THACKER & BROCKMANN.

—One citizen of Guilford who is in no immediate danger of dying with enlargement of the heart lives a few miles northeast of the city and his name is Whitesell. He has given "Squire Pritchett a bill of ten dollars against a young man who cut from his land a holly tree that was used in the Christmas festivities at Grace church. The man who cut the tree claims he was given permission to do so by men working on the land at the time. Ordinarily holly trees are a drag on the market at a dollar apiece and Whitesell will have to pare his bill a little before it is allowed without a protest. While the church officials are in no way responsible in the matter they will undoubtedly come to the relief of the young man who has that tree to pay for.

Children and adults tortured by burns, scalds, injuries, eczema or skin diseases may secure instant relief by using DeWitt's Witch Hazel Salve. It is the great Pile remedy. Howard Gardner.

—Mr. Deveraux, a government inspector of buildings, was here the first of the week to see how the Federal building can best be enlarged to meet the requirements of the business transacted in it. It first occurred to him that another story on the building would be sufficient, but it is understood that he finally decided to recommend a large addition to the east side, where plenty of ground is available, and it is safe to predict that his suggestion will be favorably considered, it being certain that an appropriation to make the improvements will be forthcoming at the present session of Congress. As noted a few weeks ago, the Federal court room has been partitioned off into offices for the use of the U. S. Marshal's clerical force, and something will have to be done soon or the court will be homeless. It is hoped that the improvements will be made before the October term.

\$100 Reward \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc. Hall's Family Pills are the best.

—The well known drug firm of Richardson & Fariss was dissolved last week by mutual consent, Mr. John B. Fariss becoming sole proprietor of the store, with which he has been connected in various capacities for the past ten years, the first three as a clerk for Dr. Porter, and the last seven as a partner with Mr. Richardson. He enjoys the fullest measure of public confidence and lacks neither the experience or ability necessary to a successful continuation of the business. Mr. Richardson will engage in the wholesale drug business here and has organized a strong company with that purpose in view. As soon as the company is incorporated, which will likely be done today, the details of its plans will be made public. We understand that it is the company's purpose to carry a full line of druggists supplies, patent medicines, grocers' drugs, etc., besides engaging in the manufacture of a number of preparations that have been developed by Mr. Richardson. It will be an important addition to the wholesale interests of the city and will undoubtedly prove successful from the start, as there has long been a demand for such an establishment at this point.

—The North Carolina Rolling Exposition car was here Saturday and Monday and over two thousand people visited it. It was a source of wonder and admiration to all who saw it, as it exceeded their expectations in every respect. The very attractive exterior is forgotten the moment the eye rests upon the interior of the car, where there is a vast panorama of the State's products displayed in an admirable manner. Nothing is lacking, and to attempt a description of the vast and valuable collection would require the space of two or three newspapers the size of the PATRIOT. The wood, mineral, fruit, grain and fishery exhibits interested us most, and they alone would amply repay a visit to the car. A finer collection of fruits could hardly be conceived, and when it is known that a Guilford man, Mr. J. Van Lindley, contributed most of them from his Southern Pines orchards, the interest in that particular exhibit increases. The outside of the car carries among others two artistic paintings representing Mr. Lindley's horticultural interests and they do the subjects justice. He is the only man in the county represented on the car, so far as we know, but that is not saying that Guilford is not well represented. The car will do the state a vast amount of good when it gets into the northern states. It went east yesterday morning.

—Information reaches us through various channels that the work of the county road force is hampered by the refusal of land owners to grant the privilege of making changes in the road where the same are necessary to scientific permanent improvement. In an instance we have in mind the owner of a certain piece of land insisted that the force should cut down a hill requiring several weeks' work, rather than change the line to an easy grade that could have been established in four or five days. As we understand it, no sacrifice would have been made by permitting the change, as suggested by the county engineer, and no more reasonable objection was offered than that the road had been going over that hill for half a century and the aforesaid land owner hated to see it changed. In taking these stands our people hold off the greatest benefits that can possibly accrue to their property. Good roads will materially increase the valuation of every acre of land in Guilford county and the sooner they are built the sooner real estate will advance to something like its real value. So far as the road force is concerned, we think it would be wise for the commissioners to require an agreement from every land owner along the line of a road that is to be improved granting the privilege of making such changes in the line as are deemed absolutely necessary before the convict force is put on the road. That would enable the force to do the most effective and in the end the most satisfactory work, besides obviating uncalculated annoyances and delays. When property is actually damaged the owner should be reimbursed, but where sentiment or indifference to the public good acts as the only barrier the county at large should not be made to suffer. Along many roads the land owners stand ready and anxious to make some concessions to get good roads and they should be the first favored. The results would make convincing object-lessons.

A thrill of terror is experienced when a brassy cough of croup sounds through the house at night. But the terror soon changes to relief after One Minute Cough Cure has been administered. Safe and harmless for children. Howard Gardner.
