—The Bosten-Augusta ball game Thursday was not such as to provoke much enthusiasm on the part of the spectators. —One of the best paying investments in this age is modern farm machinery, and the best farmers have long since conceded this point. Time is money to the man who wants to make more than a bare living on a farm, and a great time-saver and money-maker is the Keystone corn planter advertised by the Wakefield Hardware Co. It has many good features that will commend it to our every intelligent farmer.

—Louisburg Times: The town authorities have purchased a hook and ladder truck from the town of Greensboro, and it will arrive in a few days. It was bought at a great bargain, and the Times commends the commissioners for taking steps toward the establishment of some kind of system to aid in extinguishing fire. Now for water works. A small hand engine would be a good investment until the water works are established.

—The executive committee of the North Carolina Teachers Assembly in session here Saturday fixed June 14 as the date of next meeting. Messrs. W. J. Teague, Tyre Glenn, Neil Ellington, John A. Hodgin, J. S. Hunter and others of our good substantial citizens have formed a stock company to rebuild and operate the Eagle Foundry, which was destroyed by fire about a year ago. The company was incorporated Saturday with a capital stock limited to \$25,000.

It will begin at once to replace the Eagle plant, which was owned by Mr. Teague at the time of its destruction by fire.

—Rain yesterday and today prevented two games of base ball that had been looked forward to with considerable interest. The Boston's were to play Richmond here yesterday but when the latter team arrived here on its way home from Charlotte, where it bested the champions Monday by a score of 4 to 1, the weather was so threatening that the game was abandoned and the team went on to Richmond. The regular Boston team is to play the colts today but the grounds are so wet it will be impossible. In case it clears the game will be played tomorrow. The club leaves for home Friday.

They went to Gullford College in the afternoon to inspect the new Duke Memorial building, which was planned by their architect, Mr. C. C. Hook, of Charlotte. It is the intention to lay the cornerstone of the new building next commencement, if possible.

—Mr. A. P. Damon announces through our columns this week that he will, on or about April 9th, open a first class dry goods store in the east room of the Pickard corner, 103 East Market street, and he would like our readers to wait and see his stock before making any extensive purchases. Mr. Damon comes from Georgia. He has been in the northern markets within the past three weeks purchasing goods for this store and promises to show an attractive line. T. M. Pickard & Co. expect to finish the improvements in their corner room the first of next week and will occupy it by the 5th or 6th, whereupon Mr. Damon will secure his room and begin at once to arrange for his opening. See his ad. on another page.

—J. W. Gore, Dean of the University, and acting president in the absence of Dr. Alderman, writes the PATRIOT as follows: "We send you by today's mail a copy of the latest catalogue of the same you will find the teaching force to consist of 38 instructors; 377 Academic students; professional 143; Summer school for teachers 185, making a total enrollment of 605, exclusive of all duplicates. The attendance, not counting the Summer School, exceeds the highest number ever reached (in 1857-58) by 46, it will be noticed, is a member of the Senoir Class, a graduate of Gullford College. A new department, that of Pharmacy, has been added, which enrolls 17 students the first year. This issue of the Catalogue was printed entirely by students, and in typography, appearance and quality of work is excellent. Any one desiring a copy should send his name to President Alderman at Chapel Hill. We wish very much to obtain the correct address of every Alumnus of the University in order to supply them with all the publications of the University, and thus keep in touch with them. Any assistance you render us in this direction will be very helpful and greatly appreciated."

**Millinery Opening.**

Mrs. C. C. Gorrell will have her opening of Spring and Summer Millinery on Friday and Saturday. You are cordially invited to call and examine her stock. 109 West Market street.

**The Private Secretary.**

With his nourishment, his goloshes, and his goods and chattels, The Private Secretary will make his appearance at the Academy of Music next Thursday night and his "do-you-know," so familiar to all good play-goers, will prove just as entertaining as when this meek and sanctimonious individual first made his appearance a number of years ago. The Private Secretary is one of the few comedies that has successfully withstood the test of time. For over sixteen years this great masterpiece of William Gillette's has charmed over and over again the same audiences, and has always been accorded a perfect ovation as it moves around the circle. Instead of being put aside as "one of the good things of the past," it continues among the good things of the present and is still the amusement lovers' idol—the standard by which all other comedies are judged. The gifted comedian, Edwin Travers, is the man that made the Private Secretary famous on two continents as the "funniest comedy ever written," and The Private Secretary made for Edwin Travers the enviable reputation he holds in the theatrical world. Mr. Travers and his admirable company will be seen at the Academy next Thursday night and those who have not done so are unconditionally urged to secure seats at once, not missing this opportunity of reveling in the beauties of the cleanest, brightest and best comedy of the season. Prices 25, 50 and 75 cents.

—An old colored woman, evidently from the country, was found by one of the night policemen standing in the door of a South Side business house Monday morning between two and three o'clock. She told the officer she recently came to the city to work and had ventured out to church for the first time at night, losing her way on her return. She could not remember the name of the family she worked for, but finally recalled the name of a neighbor, and was piloted home without further difficulty. She had walked the streets for several hours and was completely bewildered, in addition to her exhaustion. Her gratitude toward the officer was sincere.

**An Invitation.**

OAK RIDGE, Mar. 25th, 1898.

To the Teachers and Pupils of the Graded and Public Schools of Guilford county, Greeting:

I am authorized by a committee representing the Literary Societies of Oak Ridge Institute to invite you to meet

with the students of Oak Ridge Institute and the various High Schools and Colleges of Guilford county, on

Friday, May 6th, 1898, for the purpose of participating in the ceremonies attending the unveiling of a monument to Gillies, the Bugler Boy of

"Light Horse Harry" Lee's legion. We hope to make this a gala day for the young people of the county. We feel that in honoring this noble young patriot all the boys and girls of the county should be with us. So far as

we know, no other boy of Revolutionary times has been similarly honored, and yet it is fit while we are erecting monuments to statesmen and generals that this young boy, who gave his life to his country and thus aided in gaining

the freedom which we so abundantly enjoy, should be honored by the youths of historic old Gullford. The occasion falls at a time of year when a day's outing at the Gullford Battle Ground will be heartily enjoyed. We hope to have every one of you grace the occasion.

Very truly yours,

MICHAEL SCHENCK,  
Sec'y Bugler Monument Com.

—The closing exercises of Miss Virginia Taylor's school in district No. 1, Gilmer township, were held at the residence of Mr. John E. McKnight on

last Friday evening in the presence of a large gathering of patrons, neighbors and friends. The exercises consisted mainly of recitations, dialogues and music, local and instrumental.

The selections exhibiting good taste and careful training by the teacher, Miss Taylor, a graduate of the State

Normal, were happily rendered by the pupils and enthusiastically applauded by the audience. A fine string band

filled up the gaps between the recitations with good music, making the old folks forget, for the nonce, the cares of life and imagine they were young

again. Just before closing the exercises it was announced by Mr. McKnight that Miss Taylor had offered a

prize to
