—Rev. Rufus W. Weaver, a native of this city, has just completed a post graduate course at the Southern Baptist Theological Seminary, Louisville, Ky. While at the seminary Mr. Weaver made a most enviable reputation, winning the degree of Doctor of Theology, which was conferred upon him at the commencement last week. The course leading to this degree is of four years' duration, but Dr. Weaver completed it in three years, doing what had never before been done in the history of the seminary. He has accepted a call to a prosperous Baptist church in Middletown, Ohio.

—Hon. Giles Mebane died at his home in Graham Saturday, aged ninety-two years. He was a native of Orange county and lived a life of usefulness and honor. —The county commissioners were in session Monday, transacting considerable business. Two public roads were ordered opened—one leading from Mr. John Cook's place, on the McConnell road, to the Young, or Hanna, mill; the other leading south from Oakdale Cotton Mills to a point near Old Union, on the Freeman's Mill and Greensboro road. Taxes for the coming year were also levied, the rate of last year being maintained, as follows: State, 21½ cents; pension, 3½ cents; school, 18 cents; county, 73½ cents; road, 12½ cents, making a total of 79 cents on the one hundred dollar valuation. The poll tax is \$2.37.

—We gladly give space to the following from the Raleigh Post: "We congratulate the institution no less than President Dudley upon the unanimous re-election of the latter to the position, he has so faithfully filled as president of the state A. and M. College for the colored race at Greensboro. This action of the trustees, a majority of whom are white Democrats, is a just recognition of an efficient officer, whose duties have been well performed in the past, and whose earnest zeal in behalf of the proper betterment of his race has merited the sympathy of the white race. This college has done and is doing good work, and has the best wishes of The Post for continued growth and prosperity."

—Monday afternoon we had the pleasure of driving over Mr. C. P. Vanstony's farm lying along the eastern city limits, where a new six-foot McCormick mower just from M. G. Newell & Co.'s had been put to work that morning. Mr. Vanstony has over ninety acres of fine land in the track, ever half of which he usually puts in grass, with an average yield worth from four to five thousand dollars. This year he will make from the first crop nearly four tons of fine hay to the acre, the harvesting of which with a McCormick machine is a pleasant task. From twelve to fifteen acres can be mowed in a day with this big machine, which works to perfection. Farming under such a system as Mr. Vanstony's should serve as an object lesson to many agriculturists in Guilford. He produces more hay each year than is required in his big livery barns. Enough of his last year's crop remains to supply his requirements for two months yet. Messrs. Newell & Co. are justly proud of the farm machinery they put out, the working qualities of which can be so well demonstrated on such farms as Mr. Vanstony's. Already this year they have sold fourteen harvesters and binders and fifteen mowing machines. They consider quality first, not price.
