We concluded a few days ago the annual decoration of northern and southern graves. Three years ago, at this season, in memorial sermon I proposed the put upon the grave of the northern soldier and the other to be put on the grave of the southern soldier. But this year we need three garlands, the third to be put upon the graves of those who fell in this Americo-Hispanic conflict. whole battalions, whole regiments, whole brigades, whole armies of deathful malaria. ### Trusts Menacing Religion.

Tiffin, O., May 31 .- At the Reformed Church General Synod, which closed its business today, the committee on church and state reported:

"The danger to be apprehended from certain agencies, which are slowly but surely revolutionizing the entire social fabric; the absorption of the wealth of the country in the bands of the few; the steady enlargement of the poorer classes of people, and the gradual diminution of a prosperous and happy middle class, the hope of every thriving state; the rapid increase and intensification of all those social and industrial agencies which tend to make human life a burden of despair to the many and a material paradise to the few-all these things cannot but exert a balefal influence upon and prove a constant hindrance to the progress the kingdom of Christ upon

### Original of the "Cranks."

In the traditional slow-coach age the crank was a rarity. We had maniace in painful plenty, as we have now, but we had few monomaniacs. Today one meets a crank at every turn. Every movement that stirs the populace brings into being a swarm of whims and crochets and crochety people. And we have these crochety people in every grade of life. We have always looked for trifling idiosyncrasies in men of mind, but nowadays we want to know concerning every big-brained man we see what particular subject he is crazy about.

Run your pencil down the list of the best minds of America of today, and mark those who, wise in all things else, have shown themselves fools over some question of the day; the names that remain may be counted on one's fingers.

### 77 lives, Beware

An expectant mother had better not take anything at all than those positively dangerous mixtures so widely advertised to relieve her discomfort and nausea. She ought to know that outside external treatment is the only way that can possibly be of any benefit. She ought to know that Mother's Friend is the only remedy that will help her, and it is an external liniment. It takes her through the entire period in comparative comfort, shortens labor, and childbirth is no longer to be dreaded. More than that, it preserves her girlish shape after the ordeal, and her little one will come into the world perfect in form and health.
