HISTORIC DEWEY INCIDENT.

mander, Wished to Attack Manila in 1873.

Washington, August 7-Chairman Moses, of the committee of one hundred having in charge the reception of Admiral Dewey on his arrival in Washington and the presentation of the sword voted him by congress, has received from the admiral a letter approving the plans under consideration for the affair, and accepting the invitation for a date that will be hereafter named.

An interesting historical fact, that dating back to 1873, has come to light in which Admiral Dewey was the central figure. Dewey, then a commander, was in command of the United States steamer Naragansett on the Asiatic station, having taken charge of the vessel on May 1st, 1873. The vessel was cn surveying duty when the Virginius trouble was precipitated and a war with Spain seemed imminent. Commander Dewey wrote to the pavy department requesting that in case war was declared he would be assigned to the duty of capturing Manila. The peaceful settlement of the controversy with Spain avoided a necessity for a hostile demonstration, but the interesting fact is that the doughty officer had his eye on Manila over a quarter of a century ago. A search will be made for a letter in the files of the navy department and if found it is expected an effort will be made by the citizens' committee to have it reproduced as a souvenir of the reception.
