### A RICH HEIR WANTED.

Income of Over Ten Dollars a Minute -- While Vanderbilt Slept at Night He Got About \$4,474 Richer.

New York, Sept. 16.—Great interest continues to be taken here in the distribution which the will of Cornelius Vanderbilt, when probated, will be found to make of his great fortune, estimated at \$150,000,000.

Young Cornelius, eldest son of the dead millionaire, is believed by Wall street men to have the best prospects of getting the largest share of this immense sum. It is pointed out that in the last few years he has shown steadiness and business capacity which might overbalance his father's strenuous but ineffective objections to his marriage with Miss Grace Wilson.

The income which the elder Cornelius enjoyed during his life was one of the largest in the country. Of his estimated wealth of \$150,000,000, it was said in Wall street, about \$10,000,000 was in unproductive assets. It was also said that the average income on the remainder was between 4 and 5 per cent.

Calculating an income of 4 per cent. on \$140,000,000, it would amount to \$5,600,000 a year or \$15,343.47 a day. Perhaps a man having this income would be willing to drop the 47 cents. Dividing the even sum of \$15,342 by 1440, the number of minutes in a day, gives an income of about \$10.65 a minute. This would amount to a little less than 18 cents a second. Thousands of persons are glad to work an hour for 18 cents.

Now, suppose that Mr. Vanderbilt slept seven hours a night—that was said to have been about his average. While he was thus in bed, in dreaming unconsciousness, his income would have amounted to \$4,474.75. Not every man can go to bed and wake in the morning \$4,474.75 richer.

The only member of the Vanderbilt family not in New York now is Alfred, son of the dead finance king, who was located yesterday in the interior of Japan. He has been travelling. Word of his father's death was sent to him on Tuesday, and yesterday afternoon at 5 o'clock a cable message was received from him saying that he would start for America.

The finding of young Vanderbilt was a task that engaged the attention of many men in Japan and China. Hundreds of dollars were spent in cable instructions. Mercantile agents and Consuls were asked to find him, and from a dozen places messengers were sent into the interior of Japan.

In forwarding the messages to him and in hurrying his reply, the cable companies informed the family that the messages would be pushed through ahead of all except government business, and that where consent could be obtained the messages would take precedence even over those of the gov-

ernment. It was said that it was less than one hour and thirty minutes from the time the message was filed in Japan to the family in New York received it. The message came by way of Hongkong, Singapore, Bombay, Aden, Suez, Malta, Gibraltar, Lisbon and London.

### CASE OF KEY & CO.

\$2,400 for Exemption from Taxation--The Property Released.

Winston, N. C., Sept. 16.—Captain R. B. Glenn returned from Washington to-day. He secured a compromise yesterday in the case of Key & Co., rectifying distillers of Statesville and the largest whiskey dealers in the South, whose plant was seized by revenue officers.

The company offered to pay the Government \$2,400 for exemption from prosecution for alleged irregularities. Collector Harkins recommended that the offer be accepted, and Captain Glenn got an order issued to go into effect to-day releasing Key's property. He was also instrumental in getting the Government to release J. H. Sprinkle, of this county, from paying a wholesale whiskey tax charged against him.

Captain Glenn says he found the Democrats in Washington hopeful regarding the election this fall. They are confident that this will prove a winning year for the party.

Eight volunteers for service in the Philippines passed through Winston to-night from Wilkes county en route for St. Louis, where they will enter a company.

Asa Flinn, who recently shot and killed his brother, J. B. Flynn, near Madison, attempted to commit suicide in Rockingham jail. He used a pen knife and gashed his throat. Not succeeding in this attempt to end his existence he used the same weapon in stabbing himself in the breast, but the blade was too short, and both efforts were unsuccessful. When asked why he tried to kill himself he said he thought a mob was trying to get in to lynch him.

The naval officials responsible for assigning Admiral Schley to the command of the South Atlantic squadron, the most undesirable flag-command in the navy, evidently felt a little bit ashamed, as they took the trouble to give out statements about the intention of the department to increase the number of vessels in the squadron, the importance of the command in case of war with Central or South America, etc. The real object is probably to get Schley out of reach of inquisitive congressional committees.

### NEGROES SHOT DOWN.

Six Killed and Others Wounded in the Illinois Riot.

Cartersville, Ill., Sept. 18.—Cartersville was the scene of a bloody riot about noon to-day, in which six negroes were instantly killed and one was fatally wounded, while two others received slight wounds.

Trouble has been brewing since the militia was recalled by Gov. Tanner last Monday. The white miners of this place refused to allow the negro miners to come into town, always meeting them and ordering them back. To-day, however, thirteen negroes, all armed, marched into town, going to the Illinois Central depot, where they exchanged a few words with the white miners there.

Then the negroes pulled their pistols and opened fire on the whites, who at once returned the fire. A running fight was kept up. The negroes scattered, some being closely followed by the whites up the main street, while the remainder fled down the railroad track. Here the execution was done, all who went through town escaping. After the fight was over four dead bodies were picked up and another negro was mortally wounded.

Two more dead negroes were found late to-night near the Brush mines, swelling the total killed to six.

Killed:  
Rev. T. J. Floyd.  
Huse Bradley.  
John Black.  
Henry Branum.  
Jim Hayes.  
One unidentified.  
Mortally wounded, Slim Cummins. Cummins, the wounded negro, is reported to-night as dead.

Trouble has existed here off and on for over a year, but no fatalities occurred until June 30th, when a passenger train in the Illinois Central Railroad was fired into and one negro woman killed. These negroes were on their way to the mines, having come from Pana.

A short time afterward a pitched battle ensued between the union and non-union forces, during which time the dwellings occupied by the non-union negroes were burned. Several arrests were made, and the accused are in jail at Marion, awaiting trial on the charge of murder.

Supt. Donley, of the Brush mines, where the negroes reside, reports that the negroes are worked into a frenzy, and that while he is doing all in his power to hold them in check, he is afraid that he cannot do so much longer.

Company C, Fourth Regiment, I. N. G., arrived here to-night, and will endeavor to preserve order. Forty miners from the Herrin mines are reported to have left that place for this city armed with Krag-Jorgensen rifles, and determined to assist the white miners here.

### JIM CROW LAW IN GEORGIA

Grand Jury Indicts Southern Railway and Seaboard Air Line.

Elberton, Ga., Sept. 18.—The grand jury of this county has indicted the Southern and Seaboard Air Line for hauling negroes and white people in the same coaches. The law in Georgia is very strict in this respect, and is usually rigidly enforced. Both the Southern and Seaboard operate accommodation trains, on which there are frequently only one or two coaches, and in this manner the negroes are compelled to invade the cars in which white people are riding. The matter has excited severe complaint for some time, and efforts have been made to remedy it, but to no avail. Unless the indictments are withdrawn, it is expected that the railroads will make a fight on the law, so far as it applies to accommodation, or local trains with light traffic. There have been several instances wherein the races have clashed when forced to occupy the same coaches. Particularly are the whites opposed to letting their women ride in such close proximity to the negroes.

Up in Maryland, near the town of Westminster, a novel mail service is in operation. The carrier is a dog, and is believed to be the only one of its kind in the United States that is looked upon as a fixture in the postal service of Uncle Sam. The dog, which is a fine shaggy fellow of goodly size, is owned by a man living some distance from the main road, and makes daily connections for his master with the rural free delivery wagon of the postal service. At the same place and hour his dog-ship is to be found waiting for the mail wagon, safely bearing away to its destination whatever is tossed out to him. The only difficulty with this adjunct to the carrier service is that he always insists on taking something home with him, and when the driver has no mail he endeavors to provide himself with a bunch of old newspapers, which he throws out, where-with to appease his canine ally.

Attorney-General Walzer has given leave to Alex. McIver and other members of the fusion board of education, of Chatham county, to institute quo warranto proceedings to test the title of J. M. Griffin and others, members of the new Democratic board of school directors.

Recently Miss Lillian Clayton Jewett carried the widow and children of the murdered colored postmasters of Lake City, S. C., to Boston, where they might receive the sympathy and care of their "true" friends. The Boston people have already grown tired of their wards, and the woman is appealing to the public for financial assistance.
