For about ten months she had been suffering from lung trouble, which ended in death on the morning of the 15th, when she gently and peacefully passed away in the full bloom of young maidenhood, aged 20 years and 9 months.

CHOOSE YOUR DRUGGIST CAREFULLY

A druggist can do more harm or good than most people give him credit for. There are different qualities in drugs just as there are in dry goods, and to the outsider all qualities go by the same name. The difference between pure, high grade drugs and cheap, inferior drugs of the same name, means the difference between keeping sick and getting well. When a doctor writes a prescription, he means best quality. When some druggists fill a prescription, they think only about big profits.

Choose your druggist carefully.
