Churches, societies and other organizations had provided a wealth of diversions for the holidays, and not a night has passed during the joyous season that there were not from one to half a dozen entertainments of one sort or anothermusical, literary or social. Numerous family gatherings have added no little to the joys of the week, and it will long be remembered for its privileges and its pleasures.

If a man resolves to save more money in the future than he has done in the past, it is not so valuable a resolution as a resolution to start a savings bank account with a specific amount, and adding not less than a certain amount every week, and as much more as possible. In talking with an intimate friend during the Christmas holidays who is well fixed in this world's goods, he said that for the first money he saved he made a nice little wooden box with a slot in it, nailed it up thoroughly and began on the new year to put money in it with the determination not to put less than fifty cents a week in this box, and as much more as he could. He opened it the next Christmas and found that he had a litte more than \$100 which he had saved in this way and said that never he had been without meney

Three deaths are reported this morning, two at the hospital and one in South Greensboro. Very brief mention can be made of them in this issue. Mr. Chas. W.
