Dear Sir:—Answering your inquiry regarding the condition of my wife, will say she had been confined to her bed for about six weeks when you sent her one of your Rheumatic Bands. I never saw a person suffer more than she did. I was using every remedy we could, with the doctor attending her two or three times a day, and she was not improving at all. She put on your Band and began to improve right away, and in three weeks she was well. When she put on high shoes she removed the Band, and had a slight return of rheumatism, but put the Band on again, and in two or three days was entirely well again. would not have my wife back in the condition she was in when you cured her for all I am worth.
