Bank Account!

However Small It May Be.

It is well to pay bills promptly, but not to pay the same bill twice. Sometimes bookkeepers, by mistake, send out bills after they have been paid. If you pay by check, however, the cancelled checks are returned to you and can be produced as receipts.

Checking accounts are, therefore, more than a convenience. They are an insurance against overpayment. Every man or woman who pays bills should

do so with checks. Your checking account will be welcomed at this bank, where you are assured of absolute security and the most courteous service.
