Wm. Morris, a resident of Florence, Oregon, says: "For the last fourteen years my kidneys and bladder incapacitated me for all work. About eight months ago I began using Foley Kidney Pills, and they have done what other medicines failed to do, and now I am doing and feeling fine. I heartily recommend Foley Kidney Pills." FIGHTING FLY AND MOSQUITO.

E. P. Wharton and Dr. Battle Leading in Important Work.

A systematic and well organized campaign is being waged in Greensboro to rid the city of flies and mosquitoes this year. In this work the health department is being ably assisted by two of the city's most public-spirited citizens, Mr. E. P. Wharton and Dr. J. T. J. Battle, who have been sworn in as assistant health officers and thereby given the authority to enforce the execution of needed regulations for the abatement of the fly and mosquito nuisance. Mr. Wharton and Dr. Battle are serving the public without pecuniary recompense, their sole object being to give a practical demonstration of what may be done to improve sanitary and health conditions in the community.

Mr. Wharton is paying attention to the fly and is working to rid the city of this pest, by destroying its breeding places. A thorough inspection of stables and other breeding places is being made, and already the good effects of his work are apparent. Dr. Battle is directing his efforts in a fight against the mosquito. He has prepared the following imaginary correspondence, which will prove both interesting and instructive to all citizens who desire to rid their premises of this ubiquitous and dangerous pest:

**Fair Warning Given.**  
Greensboro, N. C., June 17, 1913.  
Messrs. Anopheles and Culex,  
Mosquito Coast:

Dear Sirs:  
All of our citizens recall with a vivid recollection on your visits here last summer and fall. I am frank to tell you that our people were very much displeased and incensed at the persistence of your nightly serenades, which were very disagreeable and entirely out of harmony with their feelings. Also the determination with which you prodded your bills into them was simply exasperating. Recalling those disagreeable associations in which you were unbidden guests, we have decided, and actually a law is passed, forbidding your appearance here again.

"This is to give you fair warning not to visit this community again, under penalty of death.

Yours truly,  
J. T. J. BATTLE,  
Assistant Health Officer."

**The Reply.**  
Mosquito Coast, June 20, 1913.  
Dr. J. T. J. Battle,  
Greensboro, N. C.

"Dear Doctor:  
"We acknowledge receipt of your communication in regard to our annual visits to your city. In reply we wish to say that after consultation and due consideration of your letter we have decided it is a reflection upon our character and voices. We do not hesitate to say to you that we have a sufficient number of friends in your city who will provide us with all the breeding places we wish, such as tin cans, bottles, jugs, cups, etc., in their back yards, and around the factories are barrels of water in which we can raise millions of our tribe. We prefer stagnant water, but we can raise our young in any water that is not much disturbed for two weeks, such as horse troughs, etc.

"Again, you have three or four branches in town, and wherever a little pool is formed we can raise them there. It is true that the branches could be straightened and ditched and thus break up our places but it won't be done, for the owners of them are our friends. The cow and horse tanks in the marshes are all we wish, as the grass growing over them keeps away the mosquito hawk from our young ones.

"The guttering around the houses, thanks to the builders and tinners, very seldom drain themselves, and we find those splendid incubators for our eggs. It is true that a great many of your people have had their houses screened, but we have consulted all the hardware firms and find that about 98 per cent of the screens are made of 12 or 14 wires to the inch. While these may turn bumble bees away, we can crawl through them with ease, in fact, anything below 18 to the inch. So your screens won't keep us out at all, thanks.

"Last winter was very mild and many of our tribe passed through it unharmed, and besides these we are sending out our scouts to spy out the water in which we can lay our eggs, which in a few days will be wiggle tails and in two weeks full grown mosquitoes.

"You were so frank and open in writing to us we will be the same with you, and do not hesitate to say that if you have all back yards cleaned up, and the barrels of water which are kept for fire purposes covered with kerosene oil, the marshy places drained, the branches ditched, oil put into the guttering and stagnant pools drained we can raise our young.

of four persons in Greensboro last year and a great many cases of sickness, and if you prevent us from breeding all of that will be saved.

"But what we wish to impress upon you is this fact, viz., fair warning, if you force the people to deprive us of our breeding places and thus save your city all the vexations of our presence, besides the deaths and sickness, you will make more enemies than you have ever had before.

"Yours for a tussle,  
"ANOPHELES QUADRIMACULATUS AND CULEX PUNGENS."

John Fogleman Sentenced to Penitentiary For 30 Years.

The trial of John E. Fogleman for the murder of W. H. Tucker, which was in progress when The Patriot went to press last week, came to an end in the Superior court Saturday afternoon, when the jury returned a verdict of guilty in the second degree. Judge Feebles sentenced Fogleman to the penitentiary for 30 years, the maximum penalty for second degree murder. A motion for a new trial was overruled, whereupon attorneys for the defendant gave notice of an appeal to the Supreme court. Judge Feebles fixed the appeal bond at \$5,000. In order to regain his liberty, Fogleman will also be required to give a bond for \$2,500 under which he was held in a number of blind tiger cases at the time he was arrested on the murder charge.

The following gentlemen constituted the jury that returned the verdict of guilty against Fogleman: Foreman W. W. Hayworth, J. W. Pearson, V. E. Walker, G. T. Thomas, G. W. Brooks, H. H. Layton, W. M. Little, A. F. Johnson, J. W. Loman, H. W. Cray, D. A. Powell and J. W. Hobbs. Their verdict was reached after the third ballot.

Most Children Have Worms.

Many mothers think their children are suffering from indigestion, headache, nervousness, weakness, costiveness, when they are victims of that most common of all children's ailments—worms. Peevish, ill-tempered, fretful children, who toss and grind their teeth, with bad breath and colicky pains, have all the symptoms of having worms, and should be given Kickapoo Worm Killer, a pleasant candy lozenge, which expels worms, regulates the bowels, tones up the system, and makes children well and happy. Kickapoo Worm Killer is guaranteed. All druggists, or by mail. Price 25 cents. Kickapoo Indian Medicine Co., Philadelphia and St. Louis. Fariss-Klutznig Drug Company.

High Point Woman Commits Suicide.

Mrs. J. C. Hill, wife of a workman in a High Point furniture factory, took her life early Saturday morning by almost severing her head from her body with a razor. She died almost instantly and was dead before assistance reached her. She had made several similar attempts and was being watched on account of her extremely ill health, which rendered her hardly responsible for her acts, and it was thought by members of the family that she had quit thinking of anything of the kind. This time, however, she made her plans deliberately, going to an outhouse near her home in the suburbs, and when her daughter reached her a few minutes later, she was dead.

DO YOU KNOW THAT you suffer from heat on Sundays more than any other day of the week. You go all the week thinly and comfortably clad, and when Sunday comes you put on your heavy winter suit and stiff bosom shirt and go to church prepared to sweat.

Now what you should have for summer Sundays and other days off from work is muslin underwear with short sleeves and short drawers, thin silk sox, a mohair or Palm Beach suit, a nice Straw Hat and a few of our wash silk ties. You'll be surprised to find how many pleasures there are to enjoy on Sunday. Our prices are not only in your reach but very reasonable. Come in and drink ice water with us and be sociable.
