Taking Toll of Babies.

Each season of the year takes its toll of the babies, and to watch and safeguard them from common colds and coughs is a matter of importance to their parents. To keep Foley's Honey and Tar Compound in the house and use it promptly is to save the little ones from the serious effects of these colds, to ward off croup, bronchial coughs, hoarseness, stuffy wheezy breathing and violent coughing spells. It is absolutely free of opiates and may be given to the little ones with no fear of harmful results. Refuse substitutes. Conyers & Sykes.

TWO PERFECT BABIES.

Prizes Awarded to Winners in Contest at the Fair.

The better babies contest, inaugurated some time ago and conducted by the Greensboro Woman's Club, came to a close Friday at noon, when a number of prizes were awarded at the baby booth at the fair. The contest aroused a great deal of interest throughout the county, and it is believed that the results will be very beneficial and far-reaching. The baby booth was one of the most attractive features of the fair.

The announcement that two perfect babies had been found among the several hundred examined was very gratifying and came in the nature of a distinct surprise to those in charge of the contest. The two babies scoring 100 in every particular were the 11-months-old sons of Mr. and Mrs. L. A. Hartsook and Mr. and Mrs. S. O. Melvin, of this city. It is said that Guilford is the only county in the United States so far that has produced two perfect babies in a similar contest.

Virginia Cole was the fortunate winner of the complete baby outfit given by Meyer's department store.

International Sunday School Worker in Greensboro.

Rev. W. C. Pearce, associate general secretary of the International Sunday School Association, who is in North Carolina to organize a state-wide campaign for better organized Sunday school work, made an address at a mass meeting of Sunday school workers in West Market Street Methodist church Sunday night. He made a strong plea in behalf of the Sunday school and presented facts to demonstrate that it is one of the most vital institutions in the nation today.

Mr. Pearce spoke interestingly of his travels throughout the United States and Canada and in nearly every quarter on the globe. Attributing the decay of the ancient nations in wealth, culture and power to licentiousness and a lack of Christianity, he said that there is a crying need in America today for more thoroughness and time to be spent in doing God's work, and expressed the fear that people today are too much occupied with the things of the world to spend the proper amount of time and energy in the work of the church.

Favors Compulsory Voting.

Josephus Daniels, secretary of the navy, has written an article favoring compulsory voting, in the course of which he says:

"We have come to a time in our national life when the compulsory ballot must decide for itself. Sovereign voters of this republic are abdicating the most important duty of citizenship. Should they be allowed in their way to desert, any more than a man should be allowed the right to desert the army in time of war? If we require our citizens as we properly do to serve on the jury, to bear arms when called upon, to obey any process of the court, however much he may object to giving testimony, to work on the roads in many districts and to pay taxes whether he approves them or not, may he not also make it compulsory for him to vote? The chief and most far-reaching attribute of citizenship is the use of the ballot. If he can forget his duty the state must compel him to recall it."
