

### Helping Kidneys By Clearing Blood

A Function Greatly Assisted  
By a Well-Known  
Remedy.

Most readers will be interested to more clearly understand why analysis of urine is so important. In the use of S. S. S. to purify the blood, its action is a stimulant to the myriad of fine blood vessels that make up the constructive tissues of the kidneys. All the blood from all over the body must pass through the kidneys. They act as testers and assayers. And according to what they allow to pass out in the urine, both as to quantity and materials, the health of the kidneys and the quality of the blood is determined. The catalytic energy forced by S. S. S. is shown in the urine. It is also demonstrated in the skin. And as the blood continues to sweep through the kidneys the dominating nature of S. S. S., acting as it does through all the avenues of elimination, shows a marked decrease of disease manifestations as demonstrated by urine analysis. This assistance is a great relief to the kidneys. The body wastes are more evenly distributed to the excretories; their elimination is stimulated by the tonic action afforded the liver, lungs, skin and kidneys. Thus, in cases of rheumatism, cystitis, chronic sore throat, huskiness of voice, bronchitis, asthma and the myriad of other reflex indications of weak kidney action, first purify your blood with S. S. S., so it will enable the blood to rebuild the cellular strength and regain the normal health.

S. S. S. is prepared by The Swift Specific Co., 527 Swift Bldg., Atlanta, Ga., and if you have any deep-seated or obstinate blood trouble, write to their Medical Dept. for free advice.

### CHAMBER COMMERCE MEETS

#### REPORTS SUBMITTED SHOWING WORK DONE DURING THE PAST YEAR.

The annual meeting of the Greensboro Chamber of Commerce was held Thursday night, when reports of the work of the past year were received from the officers and the various committees. The meeting was largely attended and a spirit of optimism prevailed.

The following gentlemen were elected directors for the ensuing year: J. E. Latham, R. C. Hood, J. W. Patterson, Claude Kiser, E. P. Wharton, R. D. Douglas, Harry Donnell, C. W. Gold, Garland Daniel, Jos. J. Stone, M. Robbins, Paul Lindley, George Newman, J. D. Oettinger, T. J. Murphy, C. H. Andrews, W. Hewitt, Julian Price, J. W. Cone, J. Norman Wills, C. G. Hudson, H. R. Bush and Earl Godbey. The director will hold a meeting in a few days and elect the new officers.

In his address the retiring president, Mr. J. E. Latham, stated that when Mr. E. P. Wharton delivered his valedictory last year he congratulated the community upon the general prosperity that existed. Mr. Latham stated that this general prosperity had existed only a few weeks during the fiscal year that he has held the office of president of the chamber. The war in Europe has disrupted the world's business as it has never been affected before. Values have been depressed, business demoralized and new enterprises made difficult. Notwithstanding, he said, this community has stood the strain as well if not better than any other southern city. Although new enterprises have not been as numerous as might be wished, there has been progress and land values are dearer than they were before the outbreak of the war.

Mr. Latham drew the attention of the chamber to the progress of Guilford farms and crop production. He stated that these things had not received their due share of attention at the hands of the chamber. The farmers around Greensboro, he said, are slow in crop production. Too much food for both man and animal is imported and too little raised at home. He said it was the duty of every professional and business man in Greensboro to interest himself in farming.

Mr. Latham spoke at some length on the effects of the war on business and the probable effects on American business after the war ends. He referred to the ill effects on business, both large and small, caused by the "war on business" that has been waged for the past ten years by politicians.

Secretary J. C. Forester made his report, showing the financial condition of the chamber and reviewing the year's work. He said that in order to raise enough funds to run the chamber a membership campaign would have to be conducted again this year. He said that Greensboro has a great future, but that it is necessary that her advantages be shown to other people. The year's work was reviewed in detail, showing what committees had been formed and what had been accomplished.

During the meeting compliments were paid the Southern Railway for the manner in which it has handled its shipping at this point. Along with the compliments were a few censures, chiefly on the sanitary conditions prevailing around the passenger station.

The meeting unanimously endorsed the decision of the county commissioners to erect an eight or ten-story modern building for use as a court house.

#### Bryan Sends Protest.

Secretary of State Bryan has sent a vigorous protest direct to the Carranza authorities at Tampico, Mexico, against their threat to close the great oil wells in that vicinity because the foreign operators refused to pay a heavy assessment levied by the Mexicans. The matter also has been brought to the attention of Gen. Carranza himself.

Most of the oil plants are owned by American and British capital. There have been several complaints against decrees of the Carranza officials, reports coming directly from state department representatives as well as through the interested foreign embassies. Latest advices indicated that the Mexicans were preparing summarily to shut down all of the plants unless the money demanded was forthcoming.

### A. W. McALISTER PRESIDENT OF ANTI-SALOON LEAGUE.

The North Carolina Anti-Saloon League closed its biennial session in Raleigh Thursday night, having elected the following officers for the ensuing year: A. W. McAlister, president; Dr. L. E. M. Freeman, Raleigh, secretary; Henry Young, of Raleigh, auditor.

The members of the convention shared a banquet Thursday evening complimentary to the members of the legislature, quite a number of senators and representatives attending.

There was much discussion of controlling the sale of malt in this state, the contention being that it is only purchased by illicit distillers and that there should be legal machinery to keep track of dealers and all sales of the product. The matter was referred to the legislative committee.

The league adopted resolutions providing for a special committee to press before the legislature whatever changes in the state prohibition laws are to be urged. It was decided not to adopt definitely the bill that had been prepared for prohibiting the delivery of liquors in this state for beverage purposes. Instead, a resolution was adopted providing that, in view of recent court decisions in the state and the federal courts, there be appointed a committee to draft whatever legislation is necessary to make North Carolina's prohibition law most effective. The committee consists of W. H. Witherspoon, of Richmond county; J. A. Brown, of Chadbourn; C. H. Ireland, of Greensboro; R. L. Davis, of Raleigh; Dr. R. T. Vann, of Raleigh; Judge J. C. Pritchard, of Asheville, and W. T. Shaw, of Weldon.

Congressman Richmond Pearson Hobson, of Alabama, who is soon to retire from public life, was one of the star attractions of the convention. He asserted that the national administration at Washington and the dominant forces in Congress are dominated by the national liquor forces, as evidenced by the fact that they refused to entertain his amendment to the war revenue bill to cut out tax on liquors as an iniquitous source of revenue. (Hobson is probably the only man in the United States who believes this.)

He declared the fight now is for Congress to submit to the states the question of a national prohibition amendment to the constitution and predicted this will come certainly by 1920 and then all candidates and platforms, state and national, of all parties will be required in 1916 to declare their position as to the national prohibition movement.

#### What the Farmers' Union Wants.

The state council of the North Carolina State Farmers' Union held a meeting in Raleigh Thursday and decided to center the attention of the general assembly so far as the union is concerned, upon four big issues—rural credit system, land segregation or permitting white communities to limit their land sales to white people, repeal of the crop-lien law and a measure for the government of co-operative enterprises. They will want 12-months' time for the application of the crop-lien law change.

Resolutions were adopted urging the use of the Torrens system of land titles and setting out that whereas some lawyers are reported to be advising farmers that such titles cost \$100, the fact is, according to Attorney General Bickett, that the titles should not cost over \$25, and asking that farmers patronize lawyers friendly to the Torrens system.

#### Increase in Gold Yield.

The gold-mining industry of the United States had a prosperous year in 1914 and regained its normal condition, inasmuch as early returns indicate an output greater by nearly \$4,000,000 than that of 1913. Mr. H. D. McCaskey, of the United States geological survey, who is authority for these figures, adds that the production in 1913 was lower than for several years past and even in 1914 the output was considerably below that of any year in the period 1908-1912, when the high-water mark was reached. For 1914 the preliminary figures of the United States geological survey and the bureau of the mint indicate a total gold yield of \$92,-\$23,500.

#### Life Insurance Refused.

Ever notice how closely life insurance examiners look for symptoms of kidney diseases? They do so because weakened kidneys lead to many forms of dreadful life-shortening afflictions. If you have any symptoms like pain in the back, frequent, scanty or painful action, tired feeling, aches and pains, get Foley Kidney Pills today. Conyers & Sykes. adv.

Do some people a favor and they will give you the impression that they are being done.

Education Needs Religion. Chicago, Jan. 16.—A thousand educators and church executives, attending conferences and conventions here, today began efforts to work out a program of religious training in public schools and colleges that will result in graduates of a higher moral standing.

Rev. Roy Hamilton, pastor of the Presbyterian church at the University of Michigan, told of a decline in religious influence at state universities. Sixteen state universities, he said, have no chapel and 14 hold chapel services only once a week. "In the majority of the institutions the chapel," he said, "has been declining in influence as a religious force in the last few years."

A man and his wife are one, and in many a family it's a constant scrap to see which is going to be the one.
