LOCAL NEWS IN BRIEF FORM

MATTERS OF INTEREST TO THE READERS OF THE PATRIOT FAR AND NEAR.

Shields-Smith.

Miss Matrie F. Shields and James Adolphus Smith were united in marriage Sunday afternoon at Colfax, they recovered from a paroxysm. Rev. I. C. Gray.

Gets Six Wild Ducks.

Joe S. Phipps and Dr. J. K. Kernodle went hunting on Reedy Fork Monday morning and bagged six wild ducks, the most difficult of all local game to get. Their guns brought down two others, which were not retrieved.

Elks Memorial Service.

The annual memorial service of Greensboro Elks will be held Sunday afternoon at 3 o'clock. Judge Robert H. Sykes, assistant attorney general, will be the orator of the occasion. The program includes splendid music features.

Had a Good Year.

West Market Street M. E. church, this city, is considered the biggest church in the Western North Carolina Conference. Its report this year shows 1,202 members; property worth \$125,000; a total of \$21,500 raised this year; a Sunday school of 1,261, which raised \$1,950.

Death of a Child.

Evelyn M. Duke, three-year-old daughter of Mr. and Mrs. A. L. Duke, died Monday, following a week's illness with pneumonia. Services were conducted from the home, 1110 Railroad avenue, Tuesday by Rev. S. C. Howard. Interment was in the burying ground at Hines' chapel.

Mr. and Mrs. Speas Improve.

Mrs. L. A. Speas, who was so seriously injured last Friday night when she was struck by the automobile of Dr. W. L. Kibler, of Lexington, shows improvement, and her physicians and relatives believe that she will entirely recover. Mr. Speas, who was hurt at the same time has never been in a serious condition, and is now able to leave the hospital.

Hightower-Selby.

At the home of Mrs. Marvin Boyles, sister of the bride, Monday afternoon Miss Bessie Hightower was married to H. C. Selby. Rev. W. A. Lambeth, of Salisbury, was the officiating minister. The bride is the daughter of Mr. and Mrs. W. D. Hightower, of Reidsville. Mr. Selby is a native of Wilson, but is now a traveling salesman with headquarters in Raleigh. They are now on a bridal trip to Northern cities and will visit here next week before going to Raleigh to live.

Draft Men Can't Volunteer.

After December 15, no man registered in the military draft will be permitted to enlist in any branch of the military service of the United States, except he be specially qualified for medical, dental or veterinary work and gets permit to enlist from the surgeon general of the United States. This instruction is conveyed in a letter from the adjutant general to Capt. E. B. Dennis, recruiting director for North Carolina, the instructions being by order of the secretary of war.

Can't Get Uniforms Now.

At a meeting of the Greensboro company of the home guards Monday, Capt. L. J. Brandt read a letter from the state adjutant general, who said that guns and uniforms could not be furnished for some time. The roll of men was called and they were asked to state what weapons they had. These ranged from safety razors to Springfield rifles, and if the company were to advance thus armed it would appear so amusing that the enemy could be captured before they recovered from a paroxysm of laughter.

Men to Remain in Camp.

The impression prevails here that, notwithstanding the announcement that the cases of men with dependents would be reopened, few, if any, men will be released from the training camps. Director Marshall, who has charge of military enrollment in the state, is responsible for this statement. It is generally understood that November 26 was the last date to consider applications to have cases reopened, and that the matter will not be considered in the future. The men who are at the concentration camps must stay.

Some Tips on Butchering Hogs.

There is an article in the November issue of Farm and Fireside in which the author says: "When we butcher hogs we prefer a clear, cool day, with the wind from the North. All necessary preparations are made beforehand as much as possible. If a number of hogs are to be dressed, they are not all killed at the same time, as standing seems to impair the flavor, but to make good time we aim to have one ready for scalding as soon as the one before it is finished. A small amount of lime added to the scalding water will not injure the meat in any way, and it makes the hair slip much more easily and the skin is whiter.

"The carcasses are pulled from the scalding barrel, and put on a long platform which is a little lower at the end farthest from the barrel. This lowering of one end gives the water a chance to drain off, and the hair and scurf is more easily cleaned from the platform. The best procedure in removing the hair is to begin on the head and feet."

Germans in Brazilian States.

As nearly as it is possible to obtain the figures with any degree of accuracy, it appears that there are 450,000 Germans in the three southern Brazilian states. In the city of Parana one in every three of the inhabitants is German or of immediate German extraction. Brazil has as little to fear from the German element of its population as an open conflict as has the United States. But in Brazil, as in the United States, the disloyal German element is fighting neither openly nor honorably.—Christian Science Monitor.

The Way to Win.

The estimates to be submitted to the next session of Congress will call for provision for an army of 3,000,000 men. This shows the spirit in which our government is facing the war. We may never need 3,000,000 soldiers, but we may also need more. The more we have at once the sooner the war will be over. We do not believe that the war will last five years, or three years, but the way to end it in 1918 is to overwhelm Germany and drown out its armies under a flood of projectiles.—Philadelphia Record.

Still Coming Over.

All things come to the man who waits. Years ago Mayor Dahlman, of Omaha, repudiated his life-long friend and companion, Colonel William J. Bryan, because of the colonel's views on prohibition. Dahlman being an extreme wet man. Now he has changed front and has become one of the most pronounced prohibition advocates in the West. Of course he has made up with the colonel.—Charlotte Observer.

Boy Scouts Patriotic.

You must hand it to the Boy Scouts of America, who sold, approximately, \$100,000,000 worth of the second Liberty loan bonds, according to the treasury department. Working as a unit throughout the country, the energetic youngsters disposed of two per cent of the entire bond issue.—Richmond Journal.

The Motor Car.

A lesson in natural history had been about the rhinoceros, and the teacher wanted to know how well the lesson had been learned. "Now, name something," she said, "that is dangerous to go near to and that has a horn." "I know, teacher—I know!" called a small boy. "Well, what is it?" "A motor car!" replied the boy.

German Officers at Petrograd.

London, Nov. 27.—Information was received here today from Petrograd that a number of German staff officers have arrived here and are acting in an advisory capacity to Nikolai Lenin, the Bolsheviki premier.

Neighborhood Benefactor.

Mr. Crowell K. McMurray, who was here Saturday from R. 4 Lawrence, reports that he made 1,727 gallons of molasses this year for himself and neighbors on a 1-2 horsepower mill.—Cleveland Star.

Housewives have been warned against persons who, it is reported, have attempted to buy, tax or carry away home-canned products, claiming that they are representatives of the food administration. These persons are imposters.

The total pack of canned corn this year is expected to amount to 11,000,000 cases, the largest since 1912.

"Jammed!"

"The second bird got away! The gun wouldn't work!"

Every sportsman has heard that bitter story—many have had the actual experience.

The difference between good sport and no sport at all, is in the gun. And the feeling of confidence you get from a good gun is half the sport.

In rain or snow, heat or cold, in the salt air of the seashore or the hot winds of the dusty plains, the Winchester repeating shotgun will never fail you.

The Winchester Repeater repeats. Whatever the weather conditions, it is a sure-fire, sure-to-work gun. It will not jam, catch or fail to extract the empty shell.

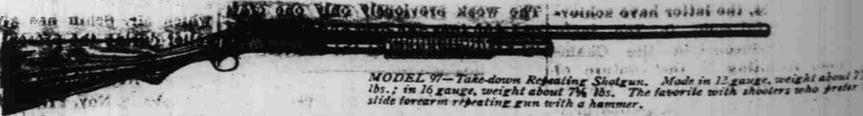

We have a stock of Winchesters we want you to know about. Come in and look them over. Feel the balance of the Model 12 hammerless take-down Winchester. That is the gun that has been classed by critical experts "the perfect repeater".

It is absolutely reliable, strong, light and beautifully balanced. It "feels right", "comes up right", and is right.

It is made in the standard 12, 16 and also in the 20 gauge.

If you prefer a hammer gun, we have the Model 97, practically the same as the Model 12, but with hammer action.

Come in today and just fit these guns to your shoulder.

MODEL 97—Take-down Repeating Shotgun. Made in 12 gauge, weight about 7 1/2 lbs.; in 16 gauge, weight about 7 1/2 lbs. The favorite with shooters who prefer a slide forearm repeating gun with a hammer.
