Machinery For Wartime Law.

Chairman Volstead, of the committee, declared tonight there was no possibility of the passage of the joint measure before July 1, but that there existed ample means of morcement and ample penalties for volacion of the wartime act. The full and explicit definition of intoxicating liquors—any beverage or product containing more than onehalf of one per cent alcohol-set by the bureau of internal revenue left no doubt, he said, as to how the courts would construe the law or ston road. deal with offenders.

Three Bills Reported as One.

No attempt was made by prohibiion members of the committee to conceal their satisfaction in having ordered the three bills sent to the house in one so as to prevent more than one fight. Some members inti-

mated that title one, the wartime enforcement measure, would still be unpassed when actual wartime prohibition was declared ended. It was pointed out by others that the law made it mandatory on the President to say when demobilization was completed, which would 'automatically permit saloons to resume operations until January 16, when constitutional prohibition will become effective.

Time of Demobilization.

Members of the judiciary committee said it was inconceivable that demobilization would be delayed befond the middle of January. While they did not look for action by the President this week or next, the general view was that with the signing of the treaty by Germany and the government assurance of speedy denobilization issuance of the Presi-

'HICKORY' NUTS'' GIVE FINE ENTERTAINMENTS.

A select number of musicians and boys who know how to entertain the public were selected in France get up a play to entertain the to

soldiers in the army. These boys were selected from the Old Hickory division-hence their name "Hickory Nuts."

They have as well learned orchestra as has been in Greensboro for a long time. Some as fine singing by the boys as has been heard here for many days.

The entertainment is good and well worth the money it costs to see and hear it.

SIOUX INDIAN CODE ON TELEPHONE FOOLED HUNS. Decatur, Ill., June 26.-There was one code Fritz never got onto in

France. That was the Sioux. Private John Leas, just back from France, tells of it.

"A good many German spies got over into the allied lines," said Leas, who was in charge of a communicating battery, "and there was some tapping of lines and listening in by German agents who understood English perfectly. We got around that as a clever way. We put Sioux Indians on the telephones to send and receive orders.

"'Uump, glum, hoosha, moo, shunk,' an Indian would repeat over the telephone, meaning bring up a battery of 75's.

"'Og, gog, pom, hegan, cachoo. rakok,' would come the ready answer, which might mean they're starting; will be there in five minutes.

"I don't know how much of a technical war vocabulary those Sioux had, but Fritzie never got wise to the lingo."
