

# MAKE YOUR SUMMER WORK EASIER—INSTALL A "NEW PROCESS" WICK BLUE FLAME Oil Cook Stove IN YOUR KITCHEN SAVES ONE-THIRD IN FUEL AND TIME!

We can show you positively how this stove, with features possessed by no other, can save at least one-third of your fuel bill; and reduce your time in the kitchen one-third. Does that interest you this hot weather?

The short chimney arrangement utilizes every particle of fuel, and applies the flame directly to the vessel.

You won't have bothersome troubles with the "NEW PROCESS" wick, either. You can get at it. Strong frame, conveniently and attractively made up.

It is the ideal Oil Cook Stove; an examination will convince you of that. Worth its weight in gold during the hot months; and pays for itself in absolute economy!

### SEWING MACHINE NEEDLES

### WINDOW SHADES

We have just put in another big new stock of Ready-made Window Shades, in a great range of sizes; highest quality material at best prices. Shades made to order.

## BURTNER FURNITURE COMPANY,

BURLINGTON GREENSBORO HIGH POINT

Savings Stamps in the hands of the original purchasers that each pledged to go back home and constitute himself the head of a vigilance committee to oppose the offering of merchandise for government securities.

Watch your nickels and the dollars will take care of themselves.

Small leaks sink big ships—stop them with W. S. S.

### TABLE SHOWS HOW MONEY MULTIPLIES

Trifle More Than One Hundred Dollars Monthly for Eight Months Will Grow Into Thousand Dollars by January 1, 1924.

As soon as he accumulates sixteen Thrift Stamps he may exchange them for a War Savings Stamp by paying the few cents additional to make up the purchase price of a War Savings Stamp for that month.

The following table will be of service to the individual who plans to save systematically throughout the year by means of War Savings Stamps. The stamps draw four per cent interest compounded quarterly. Each 1919 War Savings Stamp was worth last January \$4.12. Each stamp, because of the interest that is compounded, costs one cent more each month, so that next January it will cost \$4.24 and at the end of five years it will be worth \$5.

Thus if the Thrift Stamp saver collected his sixteen stamps in May, it then cost him 16 cents additional to convert them into one War Savings Stamp. In June it costs 17 cents additional and so on, and then on January 1, 1924, less than five years after the exchange, the War Savings Stamp will be worth \$5 and the government will pay that amount for it.

Thrift Stamps are of the denomination of 25 cents and are the means by which one may accumulate small savings until a sufficient amount is saved to purchase a War Savings Stamp. They are invaluable for the thrifty saver who can lay aside only a small amount at a time.

In the table below the second column shows that the person who invests a little more than \$100 a month for eight months of this year, will have paid in before January 1, 1920 \$839. On January 1, 1924, this will have grown to \$1,000. The other columns show what the purchaser will be required to invest to have \$500, \$250, \$100 or \$50 by January 1, 1924.

Each Month	No.	Cost No.	Cost No.	Cost No.	Cost No.	Cost					
May	4.16	25	\$104.00	13	\$54.08	7	\$29.12	3	\$12.48	2	\$8.32

### FOOD IS CURE FOR BOLSHIEVISM

First Aid Treatment Splendid Medicine for Spirit of Unrest. How War Savings Stamps Help.

President Wilson has asked for food to stop the wave of Bolshevism rolling westward out of Russia. No intelligent person doubts the value of food as a first aid, but at bottom the security of our institutions rests upon the working interest the people take in those institutions.

Citizens having no interest in a government, no economic interest in the success of that government, are apt to be the first victims of vicious propaganda or unbalanced political theories. On the other hand men and women who have invested in their government either by way of conducting private enterprise under its protection or through direct purchase of government securities have something at stake and desire to maintain stable institutions. Such persons are not necessarily reactionists. They may be quite progressive and anxious for reform where reform is needed.

Consequently the effective barrier to Bolshevism in America today is thrift and investment. The philosophy must reach into the workshops of the nation. It is reaching into those workshops and into the schoolhouses of the nation in the form of the Thrift Stamp and the War Savings Stamp.

When everybody in America is buying Thrift and War Savings Stamps as a habit, one won't hear much about Bolshevism in America. It is the financial and patriotic duty of every American who loves real liberty to get the Thrift Stamp habit NOW.

### SOLD WAR SECURITIES.

Eastern Business Men Issue Warning Against Parting With Government Bonds and W. S. S.

That it is a bad business proposition for any merchant to encourage holders of War Savings Stamps to exchange them for merchandise is the opinion of a group of eastern business men, who recently discussed this question at their annual convention.

"Such action merely helps fake promoters and dishonest brokers in their effort to shake public confidence in government bonds as an investment," said one of the speakers. "It is lamentable that they have worked to an alarming degree among the poor, and among ignorant people of this country."

The two hundred delegates attending the gathering were so impressed with the necessity for keeping War

### TO ENCOURAGE THRIFT

Schools Called Upon by Treasury Department to Make Saving Happy Habit.

Through the government savings directors of the twelve federal reserve districts, the Savings Division of the United States Treasury Department has called upon the normal schools, colleges and universities of the country to aid in the government campaign to make thrift a happy habit. The American Council on Education, representing institutions of higher learning throughout the country, has joined with the Savings Division to secure the co-operation of the schools.

The plan evolved by the Savings Division and the Council on Education contemplates the creation of thrift organizations in each of the normal schools, colleges and universities, to teach the basic principles of intelligent saving—wise buying, sane spending, safe investment and avoidance of waste, and to aid in featuring the advantage of Thrift Stamps and War Savings Stamps as the ideal investment for small savings. Through the American Council on Education, the presidents of the institutions of higher learning have been urged to name institutional thrift representatives, who will co-operate with the local savings organizations. This has been done in most cases. The educational institutions are expected to have a large influence in the movement to make the United States a nation of intelligent savers.

### WORLD'S HISTORY IN RESUME PROVES W. S. S. WILL PAY.

One thing we know as we pursue the history of antiquity, from times when Noah was the news, of Babylon's iniquity, down through the day when Caesar's ghost was haunting Brutus in his bed, is this: The spender shouted most, but nearly all of them were bled. Whereas the lad who never flung sesterces to the Forum crowd was never immaturely hung nor measured for an early shroud. This bit of ancient sophistry has now its modern counterpart, and more and more it's borne on me how splendid is the saving art—the art of minding one's affairs and watching little things increase. It rids the future of its cares, shows profit on our elbow grease. Today when W. S. S. you read upon a hanging sign, a virtue once quite hard to find, I do not thank the war for much, but this I've learned, and learned it proper, when some one tries to make a "touch"—a Thrift Stamp makes an A-1 stopper.

### FIVE PAPERS

## Each Week 1 Year \$2.25
