THE DEMOCRATIC PARTY. The reason why the people of North Carolina have stood so long and so steadily by the Damoeratic party is because the principles of that party have wrought out the liberty of the citizen and secured him in all his rights of person and property. The poorest and humblest person in the land possesses all the privileges and immunities of the rich and powerful. Under our equal and just constitution, made so by the Democratie party, every one is entitled to personal liberty in its fullest sense, unless he commit erime; and to have, own and enjoy all his industry, zeal, brain or capital can make for him. What more can any one wish, unless he would be shielded from the penalties of wrong-doing, or that he would have those more industrious than himself to divide the fruits of their toil with him?

Nihilism certainly can have no abiding place in staid old North Carolina; and until there shall be formed \*some combination against all or any government, the Democratic party

the State, and the money to appro- Dem. priated has been honestly expended.

and Consumption. The reputation it has attained, in consequence of

the marvellons cures it has produced during the tast half century, is a sufficient assurance to the iblic that it will continue to realize the happiest esults that can be desired. In almost every pection of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by ite use, All who have tried it, acknowledge its superiority; and where its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affections. CHERRY PECTORAL always affords instant relief, and performs rapid cures of the milder varieties of aronchial disorder, as well as the more formidable diseases of the lungs.

As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health. This medicine gains friends at every trial, as the cures it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it

never will. Eminent Physicians throughout the country prescribe it, and Clergymen often recommend i from their knowledge of its effects.
