We see from our exchanges that Miss Frankton and Miss Alexander, successof this State, are 'making a home for thomselves on the stage .--They are said to have divided the laurels with the beightest stars of the day. Il -s Alexander recently appeared in Washington and Miss Pendleton in Louisville. Their reception was very flattering. Good for the Old North Stale.

Treaty of Peace.

The Richmond papers that have carried on such a fierce war of words on Railroad questions, have laid them aside and joined hands in defense of the common and paramount cause of the Conservative party. A THOUGHT--Of all the machicery in the world the most powerful engine is a thought. As it drives into the world it moves the hearts of men. tearing up the foundations of society, overturning, empires and demolishing thrones, or it may be, removing the shackles of a people or a race. In the machine shop of the human mind it has its motor and sourc, and wherever the great heat of humanity throbs it lifts as the ocean tides the emotions into panting joyous harmonies or sends their firey lava, as from a bursting volcano, over burning homes and p ostrate, aching hearts in invisible cities of men and women, Fompeii and He culaneum of the unseen shores of mind. Itad News From Texas.

The cotton growing portion of Texas has been visited by a killing frost, and it has become necessary in twenty three counties to replant their grops. The fruit is said to be entirely destroyed This will be a serious matfor to the planters of that State, as otton was theiir chief product. But while it may be injurious to that immediate section, its general effect will le other than hurtful. Our people mise too much cotton, and unless some disaster overtakes the cotton crops the price must of necessity come down an the acreage planted promise a tremen yous yield.

The Recent Indian Murders.

A special from Washington to th Daltimore Sun says :

The accounts received from the Indian country indicate a renewal of the 'atrocitics along the frontier. It is reported that several surveying parties have already been murdered, and the greatest auxiety appears to exist, with " ference to the peace of that whole region during the coming summer. Up to the present time the murders appear to have been committed only by the dog soldiers of the Cheyennes, who bre a particular savage remnant of the Cheyenne and Arapohoe tribes. These force warriors generally roam between the waters of the Oimaron and the Platte. During the Indian wars of 1868 and 1869 they were most implacable in their hostility. As yet no information-has been received here to show that any of the other wild tribes ranging over the extreme western sections of the Indian territory have taken part in the aggressive movements against the whites. This is the commencement of the fighting season, and t.. e troops on the 'rontier will be kept in a state of 'activity watching the movements of these cribes.

The Carolina Watchman says : A FACT F R FARMER .- It may not be generally known the seed of the sun flower is the most infallible remedy yet discovered for the speedy cure of tounder in horses. The directions, which we glean from a brief article on the subject in the Essex "Banner, says;

have been consumed.

" Immediately on discovering that your horse is founded, mix about a pint of the whole seed in his food, and it will perfect a cure."

Sun-flowers are easily grown along side of ferces and in ou'-of the way places, where they take up but little room. The seed, when fed in small quantities to the horses, are very bealthy, giving to the hair a prouliar gloss. It is a diuretic' in its tendency. Fowls like it much, and thrive on it.

government has shown i self utterly incompetent to suppress thes: border ruffians and thieves, perhaps it would be well for a regiment or two of our regulars to cross the riv.r into Mexican territory and capture or exterminate the whose pestiferous brood. It might not be considered neighborly by the Mexi can people, but as they do not aid their government in suppressing the robbers we do not see that they would have any right to complain at such an invasion. The Mexican greaser is the mean est thing on God's green earth, always excepting the carpet bagger and when he gets particularly rantackerous there is but one way of dealing with him-at the end of a halter The people of Tex is have suffered very severely at the hands of these wretches and it becomes our Government to punish them with all possible rigor. A mere police force is not sufficient : they can easily elude such a force, however vigilant it may be The Government cannot afford to keep a large part of the army lying lazily on the banks of the river, waiting for the rascally Mexican robbers to come over. So the only way to protect our people in Western Texas is to carry the war into Africa go into the fastnesses of the ruffians and drag them
