An ingenious arrangement of ropes and pulleys has been invented, by which a cradle, a churn, a rocking chair and a fan are all kept in operation at the same time, while the operator is left at liberty to sew or read.

Remember that the price of board and tuition together, for the term of five months is but \$80, at the Louisville Female College. Thus, deducting the regular price of tuition \$25, board is reduced to \$11 per month. Can it be cheaper?

Seventeen lawyers publish their professional cards in the Asheville papers. Who will say that they do not believe in advertising? This spirit of the Asheville people must account for the prosperous condition of three large papers in that little town.

PICNIC FOR THE UNIVERSE.—There will be given at the Cold Spring, near Louisville on Thursday Sept., the 4th a Pic Nic for general recreation and public amusement, every effort will be made by the efficient corps of Managers, to contribute to the utmost pleasure of those who attend. Music, dancing and amusements to suit the tastes of every one, will be the order of the day. All the good things that the hospitality of our people can prepare will be there.

Large and interesting revivals of religion have been going on at several Churches in this county. Trinity, Methodist; Poplar Spring, Flat Rock and Hopkins' Chapel, Baptist.

Another treat in store for the readers of the COURIER; "VIVIAN," the writer of the charming little story, entitled "Walter's Love," which appeared in the COURIER a week or two back running through two numbers, is preparing another story, which will appear soon in our columns.

Capt. Jack, and the other Modocs have been convicted on two charges, viz: Murder in violation of the laws of war, and an assault with intent to kill. They have been sentenced to be hanged on the 3rd of October 1873.— Their fearless bravery and spartan heroism, would have served them better than this, with a more heroic foe.

Betsy Merritt (col) and Catherine Merritt, her step-mother, have been arrested and lodged in the Wake county Jail, as the two parties guilty of the murder of the infant whose dead body was found on the 14th inst, in rear of the stable, on the premises of Robt. Wyche, on Edenton street, Raleigh N. C.

MURDER IN RICHMOND COUNTY.—A respectable citizen of this County, name not mentioned, was murdered a few days ago. The deed supposed to have been committed by a negro who is still at large. The body of the murdered man, had been rifled and the sum of 90 cts. taken therefrom, this is all the pecuniary benefit that the murderer derived from the deed.

A WORD TO WORKING PEOPLE OF BOTH SEXES.—Mechanics, artisans, factory hands, and people who labor for a living, find it very difficult if not impossible to keep the hands free from stain. Hand Spolio will not only remove every practice of stain, and what is called 'grained in dirt,' but it will also keep the skin soft and pliable, rendering the muscular action as quick and easy as is the case with those who do not perform hard labor. It is only 10 and 15 cents a cake, according to size. Every mechanic should use it constantly in place of all other soaps.

THE BOY MURDER IN WILMINGTON.—From the Wilmington Journal of the 23rd, we learn that all the prisoners in the murder case of Willie Carter, have been committed, below final decision of the Court.

From the admissions of David Martin and Jimmie Anderson themselves, and from the evidence adduced, the Court is inclined to believe that Elizabeth Carter, William H. Merrick and Elijah Martin are implicated in this murder, and the Court doth therefore bind over the defendants, Elizabeth Carter, Elijah Martin, David Martin, Jimmie Anderson and William H. Merrick, to the next term of the Superior Court.

Our thanks to Dr. G. W. Blacknall, Proprietor of the Yarbrough House, at Raleigh N. C. for a complimentary ticket.

NO EXCUSE.—A first class public school has been opened in our Town; Mr. H. B. Smith, who has charge of the school is in every respect qualified for the position. Parents, if you allow your children to run about the streets, and grow up in ignorance, and prove a curse to society and a shame to you in your old age, you alone are to blame. Do not let this opportunity of educating your children pass; give your children education, and they will accumulate fortunes; they will be a fortune themselves and to their country. It is an inheritance worth more than gold, for it buys true honor; they can neither spend nor lose it; and through life will prove a friend and blessing.

THE FRANKLIN STEAM WASHER.—We are pleased to know that the favor with which the above named 'Washer' is meeting, is unprecedented. It has been advertised about three weeks, and only in the COURIER and Recorder, and the orders are pouring in daily. An order was received by the last mail for one to go to Germany. They are being used in every part of this country, and we have yet to hear of the first one that does not give entire satisfaction. It is all that is claimed for it and in a short while will be as common in almost every family as the wash tub is, at present. We congratulate Messrs. Barrow & Pleasants, they have a fortune in the 'Franklin Steam Washer.' Since writing the above we have been handed the following:

Messrs. Barrow & Pleasants: Gentlemen.—I have tried your 'Washer' to my entire satisfaction. It is more than you claim for it—it is a complete success. I will assure all who try it to be pleased. Mrs. A. D. Wester.

We copy the following description of the mammoth building, erected by Messrs. Williamson, Upchurch & Thomas, of Raleigh, from the Raleigh Sentinel.

THE MAMMOTH BUILDING.—The new building of Messrs. Williamson, Upchurch & Thomas, recently erected on Fayetteville street, is, perhaps, the largest building of the kind in the South. This mammoth building is three stories high, two hundred and ten feet in length—extending across the block from Fayetteville street to Salisbury street, is thirty-two and a half feet in width, and we are informed by the contractor, five hundred thousand bricks were used in the erection of the walls. This house was built expressly for the cotton trade, as all its arrangements and appointments show.—The increasing business of these popular cotton merchants necessitated the construction of a more spacious building than the one they now occupy.

Some idea may be formed as to what Raleigh is doing in the cotton line when we state that the single firm of Messrs. Williamson, Upchurch & Thomas handled last year more than ten thousand bales of cotton. One of the firm informs us that their large building just approaching completion would not have been large enough for the business of that year, and yet their business is steadily on the increase.—Raleigh is something of a cotton market, after all.

THE "FRANKLIN STEAM WASHER." Latest Improvement in Steam Boilers. PATENTED, JUNE 24TH, 1873. Satisfaction Guaranteed in Every Instance.

OTHER MACHINES HAVE THEIR PECULIAR MERITS—THIS HAS NO DEFECT. NO MORE WASHDAY—INSTEAD THEREOF, WE WILL HAVE WASH HOUR—THE WASHING OF A FAMILY OF ORDINARY SIZE EASILY ACCOMPLISHED BEFORE BREAKFAST.

For a long time the inventive genius of this country ignored the rights, or rather the wants of woman. It was busy and active in efforts to relieve man from the hardships of labor and toil. But the women of our land were doomed to the same drudgery, and were forced to do the same quantity of labor, with their hands that was required of the house keeper in the sixteenth century. Within the last two decades, there has been a change in the particular. As last our eyes were opened to the fact that the strength of woman was insufficient for the performance of the labor and toil required of a house keeper under the old regime, and that our women were growing prematurely old on account of it, public sentiment to-day, however, is in full sympathy with woman,—much has already been done for her—much yet remains to be done.

The policy of invention is now in favor of woman. "Revolutions never go backward." As one of the grand results of the interest in this direction we have the sewing machine. Husband, do you remember how the eye of your wife brightened when she saw a sewing machine carried into her dwelling and realized that it was hers, and how after she had finished her work, that it was all that had been claimed for it, she exclaimed: Oh, if I only had a machine for washing which would answer for that purpose as well as this does for sewing, I would be independent and housekeeping, instead of being a burden would be a pleasure. The country has long felt the want of a good Washing Machine; and how to construct one which would save labor and at the same time do the work well has been the great problem. There have been a number of inventions patented, each of which had some merit,—still none of them were exactly the thing. There was disappointment, defects were apparent, and the demand was for something better.

The Woman's Friend, patented a few years since, had fewer defects than any invention which preceded it. There have been sold of this patent more than one hundred thousand machines. The Machine is worthy of the high place that it has in public favor. The inventor of the "FRANKLIN STEAM WASHER," was owner of the right to manufacture the Woman's Friend in certain territory. While manufacturing these machines, and watching attentively their action, and the manner in which they operated, and the results, he discovered certain prominent defects in these defects. He has at last succeeded—and as the result of his investigation and study, he offers to the public the "Franklin Steam Washer," which is by far the best washing machine ever patented. We claim as an evidence of its merit that "LETTERS PATENT" were granted for it over all others.

It will wash anything—from a Lace Collar to a Bed Blanket. It will clean the clothing without Tearing, and more thoroughly than can possibly be done by hand labor or the use of the rubbing board. With one-fourth of the labor four times as much can be done in the same length of time as can be done by hand. We could publish columns of certificates, of its worth from those who have used it, but for the present, we prefer the "WASHER" to speak for itself. We give a few below:

Messrs. Barrow & Pleasants, Louisville, Aug. 4, 1873. Gentlemen:—I take pleasure in recommending your "Steam Washer." I acknowledge myself to have been incredulous with regard to yours; after having tested several others that had been as highly recommended to me; but the inconvenience to a large family, of not being able to get a good washer, regularly induced me to give yours a trial. I am glad that to pronounce it a perfect success. I used it according to directions, and did two week's washing in two hours, not did I give the first run, while so more nicely washed clothes, I have never had. It only needs a trial to convince. Respectfully, Mrs. W. H. F. Maas.

Messrs. Barrow & Pleasants:—Gentlemen: Through the kindness of your agent Mr. J. J. Person, I have tried your "Steam Washer," and find it by far the best I ever used. It certainly saves a great deal of hard labor and does not damage the clothes. It is all that you recommend. Respectfully, Mrs. Dr. J. B. Clifton.

Messrs. Barrow & Pleasants:—Dear Sir: I take pleasure in recommending your "Steam Washer." It is a complete success. My clothes are whiter than ever before, and that without labor. A very short while with the "Washer" will save a hard days washing. Yours Truly, Mr. T. C. Hinton.

Messrs. Barrow & Pleasants:—Gentlemen: I have been using the "Steam Washer" about one month. It surpasses my expectations; it is all that you say for it. I am highly pleased. Respectfully, Mr. T. A. Fisher.

Messrs. Barrow & Pleasants:—Sir: I am using your "Franklin Steam Washer" and find it far superior to all others. It will wash the dirtiest clothes perfectly clean. If I could not get another, I would not take \$200 for mine. It is a complete success, and all that is required to convince any one is a trial. Very Truly, Mr. F. P. Guert.

Messrs. Barrow & Pleasants:—Gentlemen: My wife has been using the "Franklin Steam Washer" for some time and she, as well as the washer, both are highly pleased with it. Very truly, Miss Helen V. D.

We have acquired by purchase of the Patent, Mr. F. W. Barrowman the sole right to manufacture, and to sell the "Right" to manufacture the "Franklin Steam Washer," within the United States and Territories. We now offer the "Franklin Steam Washer" to the American people with full confidence that it will do all that we claim for it, and in order to introduce it as rapidly as possible, we are offering great inducements to working men who want to make money; we will sell each one to a party with ten thousand inhabitants, for one hundred dollars; within twelve months, if properly managed, the purchaser can sell from three to five hundred washers, at a profit of Five Dollars each, and his right will be worth more as the population of that time, than it was at first, from the fact that it has been introduced and will sell in almost every town.

To All Whom It May Concern. All persons are warned against manufacturing or selling the "Franklin Steam Washer" without authority from us. Any person infringing upon our rights in this matter will be prosecuted.

To All Whom It May Concern. We are well acquainted with Messrs. Barrow & Pleasants; as Merchants, they are doing a leading business in their Town. They are men of the most integrity and in every way reliable and responsible. They do what they say for us. Edwin W. Fuller, Mayor of Louisville. Jo. J. Davis, Atty at Law. W. K. Davis, State Senator. James C. Wynn, Sheriff of Franklin County. J. B. Barrow, Editor "Courier." R. H. Timberlake, Probate Judge. W. C. Davis, President Louisville Male Academy. Rev. P. J. Caraway, N. C. Conference. Rev. W. Royal, D. D. President Louisville Female College. C. B. Gentry, Atty at Law.

The "Franklin Steam Washer" is now on exhibition at the State Fair at Louisville. Also by Mr. J. J. Person, with Messrs. Yarbrough & Co. All letters must be addressed to BARRON & PLEASANTS, Louisville, N. C.
