Never did Franklinton appear more prosp rous than at present. Three new stores have gone up quite recently, and others are in prospec'. And why should not the town which represents Pranklin County to the Railroad puts lie be worthy of Ler constituents? We fee! prou l of her.

Read advertisement of Messrs. King White & Shaw, they have enlarged their store room, call in and see the improvement. Their s'ore room is large, and their stock of general merchandize very complete, they will sell their goods very close.

We hear heavy complaints from the farmers of this county, in regard to the Cotton crops, the recent rains having done large damage, causing too much weed and the bolls to drop off. The recent freshets in the river and creeks injuring very materially the corn crop in the low grounds,

OLD BOOK,-We were shown this morning, a history of the world, written by Sir Walter Raliegh, and printed at London in the year 1614. This very interesting history belongs to Dr. Wm. R. King of this place; it is in two large volumes and in a state of good preservation. In the first volume is a most interesting sketch of the life of the author.

No corps of instruction in any Col. lege in the land is abler than that of the Louisburg Female College. All the branches pertaining to a finished education are taught there, and well taught. Examine the circula and see if we are not correct in regard to the former, Then visit the College during the session and decide the latter for yourself,

No outsider can truly understand the pluck and enterprise of the merchants of Louisburg. Stuated, as our town is-not on a Railroad, lut 10 miles from it,- one would suppose that in the rush of trade and the hurry of travel, she would have been left quite "high and dry," But 'come and see,' before you pronounce judgment. Our streets present a life which is unexampled in any town of our siz . Here, cotton is King,-haul it ir, and realize more from it than you would, if sold in Battimore or New York.

SPECIAL NOTICE-AUCTION COURT WEEK .- Having a good many desirable goods on hand that we wish to dispose of before getting our fall stock. we will during Court week, offer them at public auction. Now is the chance to get bargains as we will sell, them without reserve and to the highest bidder. Recollect this when you come te town.

We have received notice from Mesers. Haight &Cc. Proprietor's of the Great Eastern Circus, stating that they will visit our locality, with their grand Managerie, Museum, Aviary Circus, Hippodrome and Caravar, during the fall. This mammoth Circus has three claborate Brass and Reed Bands in Gol den Chariots; a new Mammoth Steam Piano, the music of which can be heard four miles; a grand gratuitous balloon ascension, and a gorgeous street pageant, with twenty ladies on horseback, with brailliantly costumed attendants; a long line of emerald and crimson vans, dens and tableaux cars have been added to the old attractions, The old idea of a single arenic performance is discarded, and now two arenas instead of one are used every day, requiring the use of nearly one hundred performers and two hundred horses.

Frank in county possesses many advantages. The lands are productivethanks to Syenite. Although not so rich as those of some countries, they yet, with proper cultivation, yield an abundance for man and beast.

The b'essings of providence are distribut a quite uniform'y in this world : and what is wanting in one country may be found in another. But we do believe that with us as few things are lacking as anywhere else, We have Churches, Echools and Academies, accersible to our people. In religion, we are Protestant, and free from all "isms." The pure gospel is preached every Salbath; and no inhabitant of the county is without the privilege of religious worship at stated times

Our people are social, hospitable, patriotic and intelligent to a degree far above the average. And there is hardly a community within our limits, in which a man of virue and true gen" tility could not find an agreeable home.

We invite immigration on a moderate scale, but must co fe s that we are averse to baving our social statues materially changed by an irruption, such as is going on in some adjoining counties.

THE "FRANKLIN STEAM WASHER."

Latest Improvement in Steam Boilers. PAIENTED, JUNE 24TH; 1873.

Satisfaction Guaranteed in Every Instance.

OTHER MACHINES HAVE THEIR PECULIAR MERICS-THIS HAS NO DELE T.

NO MORE WASHDAY-INSPEAD THEREOF, WE WILL HAVE WASH HOUR -THE WASHING OF A FAMILY OF ORDINARY SIZE BASILY ACCOMPLISHED BEFORE BREAKFAST.

For a long time the inventive genius of this country ignored the rights, or rather the wants of woman. It was busy and active in efforts to relieve man from the hardships of labor and toil. But the women of our land were doomed to the same drudgery, and were forced to do the same quantity of labor, with their hands that was required of the house keeper in the sixteenth century. Within the last two decades, there has been a change in the particular. At last our eyes were opened to the fact that the strength of warman was insufficient for the performance of the labor and toil required of a house keeper under the old regime. keeper under the old regime, and that our women were growing prematurery old on account of it. Public sentiment to-day, however, is in full sympathy with woman,—much has already been done for her—much jet remains to be

The policy of invention is now in favor of woman. Revolutions never go backward." As one of the grand results of the interest in this direction we have the sewing machine. Husband, do you remember how the eye of your wife brightened when she saw a sewing machine carried into her dwelling and realized that it was hers, and how after she had satisfied herself, that it was all that had been claimed for it, she exclaimed: Oh, if I only had that it was all that had been claimed for it, she exclaimed: Oh, if I only had a machine for washing which would answer for that purpose as well as this does for sewing, I would be independent and housekeeping, instead of being a burden would be a pleasure. The country has long feit the want of a good Washing Machine; and how to construct one which would save labor and at the same time do the work well has been the great problem. There have been a number of inventions patented, each of which had some merit,—still none of them were exactly the thing. There was disappointment, defects were apparent, and the demand was for corrections better.

paren', and the demand was for something better.

The Woman's Friend, patented a few years since, had fewer defects than any invention which preceded it. There have been sold of this patent more than one hundred thousand machines. The Machine is worthy of the high place

that it has in public favor. The inventor of the "FRANKLIN STEAM WASHER," was owner of the right to manufacture the Woman's Friend in certain territory. White manufacture ing these machines, and watching attentively their action, and the manner in which they operated, and the results, he discovered certain prominent detects therein. He spent ten months in the study of the subject of finding remedies for these defects. He has at last succeeded—and as the result of his investigation and study, he offers to the public the "Frankin Steam Washer," which is by far the best washing machine ever patented. We claim as an evidence of its merit that "LETTERS PATENT" were granted for it ever all others.

It will wash anything—from a Lace Collar to a Bed Blanket. It will cleause the clothing without Tearing, and more thoroughly than can possibly be done by hand labor or the use of the rubbing board. With one fourth of the labor four times as much can be done in the same length of time as can be done by hand. We could publish columns of certificates, of its worth from those who have used it, but for the present, we prefer the "WASHER" to speak for itself. We give a few below :

Louisburg, Aug., 4, 1873. Messrs. Barrow & Pleasants,

Gentlemen :- I take pleasure in recommending your. "Steam Washer." I acknowledge myself to have been incredulous with regard to yours; after having tested several others that had been as highly recommended to me; but the Saconvenience to a large family, of not being able to get a good washer, regularly, induced me to give yours a trial. I am gratified to pronounce it a perfect success. I used it according to directions, and did two week's washing in two hours, nor did I give the first RUB. Whiter or more nicely washed clotues, I have never had. It only needs a trial to convince.

Respectfully, Mrs. W. H. Furmar, Mossrs, Barrow & Pleasants :- Gentlemen : Through the kindness of your agent

ever used. It certainly saves a great deal of hard labor and does not damage the clothes. It is all that you recommend. Mrs. Dr. J. B. Clifton. Respectfully, Louisburg, June 30th, 1873. Messrs, Barrow & Pleasant :- Dear Sirs: I take pleasure in testifying, that I

Messre. Barrow & Picasants: -Gentlemen: My wife has been using the 'Frank-lin Steam Washer' for some time and she, as well as the washerwoman are high-line Malone, M. D. Louisburg, Aug., 5th, 1873.

We have acquired by purchase of the Patenter, Mr. S. W. Barthelomew the sole right to manufacture, and to sell the "Right" to musufacture the "Franklin Steam Washer," within the United States and Territories.

We now offer the "Franklin Steam Washer" to the American people with full confidence that it will do all that we claim for it, and in order to introduce it as rapidly as possible, we are offering great inducements to working men who want to make money; we will sell State or county rights on very reasonable terms; for instance we will sell the right to a county with ten thousand inhabitance, for one hundred dollars; within twelve months, if properly managed, the purchaser can sell from three to five hundred washers, at a profit of Five Dellars each, and this right will be worth more at the experation of is of Five Dollars each, and his right will be worth more at the expiration of that time, than it was at first, from the fact that it has been introduced and

will sell in almost every family.

To parties wishing to buy State or county rights, we will send, on receipt of Five Doltars, just one half of the retail prior, the "smakin Steam Waster of Complete, with instructions how to use &c.; and after antisfying themselves that it is what we recommend it to be, they can correspond with us in regard to the territory wanted, our terms, &c. We desire a send mable General Agent in every State in the Union, and we invite correspondence with working men who would like to make money. None need apply who cannot furnish satisfactory evidence of their integrity and reliability.

All persons are warned against manufacturing or selling the "Frankling.

All persons are warned against manufacturing or selling the "Prackling Steam Washer" without authority from us. Any person infringing upon our rights in this matter will be prosecuted.

To All Whom It May Concern,

We are well acquainted with Messre, Barrow & Pleasants; as Merchants, they are doing a leading business in their Town. They are men of strict integrity and in every way reliable and responsible. They do what they engage to do.
