An Ice House for Five Dollars.

A neighbor of mine, says a correspondent, has an inclosure of about six feet square in the clear, and six feet high. The walls are formed of old refuse timbers thrown closely together, The roof is made of hemlock boards. of containing thirty-five loads of ice. but simply five loads. Two years this little, unpretentious house has been henored a draft upon its crystal deposit. About six inches of sawdust was spread upon the ground floor, and in packing, a space of about nine inches fixed. The three main principles ob- animal, served here will always insure a supply of ice, viz: good ventilation, good drainage, and plenty of sawdust. With these rules adhered to, a corner of any old pen-shed will prove quite efficient in preserving ice.

Household Hints.

STEWING CHICKENS.—Parboil two fine mace and a pinch of salt. Cover close-Serve hot in the same dish."

CURE FOR CROUP .- When the symptoms appear, immediately fold a towel, child's breast and throat; then wrap a blanket closely around him. Or, bathe the feet well in warm water, at the same time rubbing the throat and breast with mutton tallow or goose-grease; then envelope in a warm blanket. Either of these modes will check the disease till cases will of themseles effect a cure.

of yeast, one cup of sugar, and flour to make it sponge; let it-rise over night, then add another cup of sugar and one of butter; mold them into small biscuits.

Salt as an Aid to Manure.

About five o'clock one fine summer's morning, I noticed that where the salt had been sown the previous day, every grain of salt had attached to itself the dew, and formed on the surface a wet spot about the size of a sixpence, the ground being generally very dry. On our light lands it consolidates them and makes them epecially firm and acceptable to the wheat plant, whose straw will stand firm and erect, although four and a half to five feet long. It is also unfavorable to certain weeds by this consideration. It prevents the ravages of the wire worm. It is especially favorable to saline plants, such as mangolds, whose ashes contain fifty per cent. of salt. I never sow guano, except mixed with its own weight of salt. Like everything else. it has, I am sorry to say, greatly risen in price. I observe that all crops seem to thrive well on land near salt water, especially where the land is drained.

Care of Hogs.

advice, which, in the main, we think dashing through the brush toward the sound, for those whose herds are not too spot where the hunter and the brute in Cuba. The fact of the matter is that large and who are engaged in mixed husbandry. To handle hogs to the best advantage, a pasture is needed of green grasses-clover, blue grass and timothy | the animal's body, and in a few minutes -and it is best if there is no running it rolled over and died. water or stock ponds in the lot. Hogs do better where there are no branches or stock ponds to wallow in. In place which was thought to be a catamount tic affairs of other nations. Our civil thereof, have good well water pumped of the mammoth species. It weighed for them. Have troughs made, and 246 pounds, and measured 4 feet 51 nail strips across eight inches apart, to inches long, not counting the length of keep the hogs from lying down in the its tail, which was 2 feet 1 inch. It should be soaked in swill barrels for 12 hours before feeding-no longer-and fed to them as drink.

Everlasting Fence Posts.

I discovered, many years ago, that wood could be made to last longer than iron in the ground, but thought the process so simple and inexpensive that it was not worth while making any stir about it. I would as soon have poplar, basswood, or quaking asp as any other kind of timber for fence posts after having been set seven years, which were as sound when taken out as when they were first put in the ground. Time and weather seem to have no effect on them. The posts can be prepared for less than two cents apiece. This is the recipe: Take boiled linseed oil and stir it in pulverized charcoal to the man that will live to see it rot.

Solling Cows.

It will certainly pay to judiciously narrates: upon one-half acre for summer, and one race was neck-and-neck, nose-and-nose : has been done. Starting this late, pre- a great hurrah hailed the victory. pare the ground well, and sow one- it was not repeated, for just at this \$1.50 per day. No serious disturbance eighth of an acre of oats thickly for each cow as early as you can; two or three weeks after sow the same amount which drove the blower, slipped from break. of land to oats for later cutting. Then the drum, the safety-valve ceased to prepare the ground and sow one-fourth scream, and the engine, for want of of an acre of corn for each cow. This breath, began to wheeze and pant. New Use For Petroleum.

residing in London, has invented a new ed it; and although the band was presmethod of using petroleum as a motive ently replaced and steam again did its power. His invention does away with best, the horse was too far ahead to be boiler and furnace, throwing the petro- overtaken, and came in the winner of leum in minute quantities in the form of spray into the cylinder of the engine itself where it is fired or exploded, the power thus produced being transmitted by the piston moving in the cylinder. Petroleum has heretofore been employ-ed for this purpose by three methods: first, the petroleum or hydro carbon has been mixed with the ordinary solid fuel in the furnace; second, the hydro been conveyed to a tubular boiler and

phire nor nothin' round."

A STRUGGLE IN THE MOUNTAINS.

How a Panther Tackled an Englishman, and how the Panther was Killed.

A correspondent sends the following very thrilling account of a desperate struggle with a mammoth catamount in Planter takes the following view of the the Blue Mountains, about seven miles | question : with no regard to form or comeliness, from Featherolfville, on the extreme northern edge of Albany township, to making a determined effort to embroil The entire cost of the building did not the Reading (Pa.) Eagle: I have just us with Spain, by inducing Congress to exceed five dollars, and, practically con- learned the particulars of an encounter sidered, it is a success; not ambitious had on the mountains, which has caused a great deal of talk in this section. For cars, chiefly the latter, have the great weeks past people coming down or crossing the hills have reported at variused for ice, and never yet dis- ous times having seen a large wild animal, and others as having heard deep growls and strange noises at certain hours of the night. A farmer along the base of the hills, named Ezra Sensenwas left between the ice and the walls ing, lost two young calves and an enof the building for sawdust, and about lire litter of young pigs in the short nine inches of sawdust was spread upon space of eight days, and he attributed the top of the ice, and the thing was the loss to the incursions of this strange are only three American citizens with

These reports came to the ears of Rudolph Pfleger, an old hunter and trapper who has passed fully forty years on the mountains. He made several efforts to hunt up the strange animal, but to no purpose. At last he concluded to erganize a small hunting party. He had some one to write to Schuvlkill county to two old friends of chickens; take them up in a large dish; his who were also engaged in hunting, cut them up, and separate all the joint- and who had likewise passed more than bones one from another. Then take half their lives on the mountains. They out the breast-bone, add a little of the arrived on foot over the hills, and water they were stewed in, a blade of stopped at the cabin of Pfleger. Their names are Henry Vancolt and Thomas ly with another dish, and put them in Anson, two Englishmen, who first came to stew until the fowls are tender. to the mines when the canal was built, but gave up their business and took to the hills soon afterward.

The three started out on different dip it in cold water, and apply it to the pathways, the men having previously agreed to meet at the "big tree," a point about five miles off in the mountains. They were well armed, and determined to hunt up the mysterious animal if it were possible. Nothing happened to any of the party up to the time when Pfleger and Vancolt arrived the arrival of a physician, and in many at the tree, which was within a half hour of each other. Nothing was seen or heard of Anson. The sun had gone underbrush, and when about one hunnominations, and some hundreds of Robert Banks, a negro, while standing in front both the mineral and vegetable kingdom have dred yards from the point of meeting, thousands of active members of the of a saloon at Kingston Springs, Tenn., was he determined to pass up through a various Christian churches. small ravine, whose sides were overhung with a dense undergrowth of shrubs. When directly under a small crag, and walking along with his head bent to the ground and his form doubled in creeping under a low vine, all of a sudden he heard a crash overhead, and the next minute he felt the claws of an animal sink in his neck and flesh, accompanied with fierce growls. By a very quick movement, Anson swung around his arms, grasped the animal by the neck with both hands. and held it in his vice-like grip. He then staggered back to the clearing, when the animal shook off the hunter's neck. Quick as thought the man grasped a knife in his belt, and with fearful velocity swung it around and sunk it deep into the animal's side. The brute gave a long, low howl, and amidst the excitement man and beast nations had no right to interfere in our rolled over on the ground, and as they domestic quarrels. did so the former received three severe The Colonial Farmer says: "A the animal attracted the attention of and England had to interfere in our practical breeder gives the following the remaining two hunters, who came

In the Police court at Chicago, a few room with a fork in her hand, he jump- which was contracted into 'Boston.' carbon employed has been vaporised by against the fork, wrenching it from her and the horse purchased with the wined in the way and struck his wrist The game was played, the money won, left the house,

Cuba and the United States.

Just now the Cuban question is one of the topics of the day, and the papers are discussing the subject with much earnestness. The Washington correspondent of the Georgetown, S. C.

The holders of Cuban bonds here are recognize the independence of Cuba. These speculators, Cubans and Ameriadvantage over the Spanish Government that they can lobby, visit newspaper offices, and tell their own story, call public meetings and make speeches distribute bonds, make large promises, and influence public opinion by a thousand "ways that are dark and tricks that are vain," to which a government cannot resort. The Spanish minister cannot do any of these things. There whom the Government of Spain can the Rev. Mr. Montgomery Mrs. Ann and the American Minister at Madrid. Under these circumstances, it is not strange that Congress, the press, and the people at large, whose knowledge of Cuban affairs is based exclusively on the one-sided statements of interested parties, should misunderstand the duties and the material interests of the government and people of the United States, in regard to this proposed recognition of Cuba. We have never yet had any disinterested evidence that the insurgents in Cuba are entitled to our respect and our sympathy, because of their purity of motive and purpose; or that they are so numerous, and powerful, and have so fair a prospect of success, that nations at peace with Spain would be justified in recognizing their independence.

Only a few years ago, there were sevnection with the federal government. Among these were some of the wealthiest men, and many of the first statesmen and best military and naval offimillions of insurgents were backed, heart and soul, by mothers, wives and daughters; had old, strong, and stable State governments; and organized themselves into a powerful confederacy. They equipped and sent into the field, against the United States. from which they had seceded, immense armies. They fitted out war vessels, that all but swept our commerce from the seas. For nearly five years they stood their ground. To subdue them cost us half a million of lives, and a debt of some \$2,000,000,000, which we shall probably never cancel. Yet, during all that war, we protested against grasp, and made an effort to bite his the recognition, by foreign powers of the confederacy formed by these rebellious States; and mainly upon the ground that, without such recognition, they could not succeed in achieving

And what more right have we to inbites in the shoulder. The growls of terfere in Cuba than Spain, and France, civil war? The carnage here was ten thousand times more than it has been were tusselling on the ground. The there never would have been a rebellion struggle did not last long. Anson in Cuba, if it had not been excited by mercenary men in this country, and it plunged his knife the second time into would collapse in six months, were it no condition to interfere in the domeswar is hardly over. We have a large country, and various interests to care for-more than we can well attend to. Let us look after our finances, our curwater, and let the hogs be put on floors, stood 2 feet 8 inches high, and was rency, our system of transportation, to keep them from digging up wallow-ing holes. If any feed be given, it built.

powerfully knit and very compactly lest dissatisfaction may cause another rebellion in some section of the Union, and foreign nations may combine to disintegrate our country by acknowledging the independence of our rebels.

their independence, and that foreign

A Labor Strike.

Liver Complaint.

By R. V. PIERCE, M. D., of the WORLD' DISPENSARY, Buffalo, N. Y.: A healthy liver secretes each day about two and a half pounds of bile, which contains a great amount of waste material taken from the blood. When the liver becomes torpid or congested, it fails to eliminate this vast amount of noxious substance, which, therefore, remains to poison the blood, and be conveyed to every part of the system. What must be the condi-tion of the blood when it is receiving and retaining each day two and a half pounds of poison? Nature tries to work off this poison through other channels and organs-the kidneys, lungs, skin, etc., but these organs become overtaxed in performing this labor in addition to their natural functions, and cannot long withstand the pressure, and become variously diseased.

The brain, which is the great electrical center of all vitality, is unduly stimulated by the unhealthy blood, which passes to it from the heart, and it fails to perform its office healthfully. Hence the symptoms of bile

A large variety of diseased conditions are pro-

drastic and poisonous purgatives, in order to produce a powerful effect upon the liver, and rouse the lagging and enfeebled organ. These medicines are given freely and in large doses, which keep the liver in an excited condition while under their influence. This system of treatment is on the same principle as that of giving a weak and debilitated man large portions of brandy to enable him to do a certain amount of work. Every intelligent person can readily see, or imagine, the condition the man would be in when the work was done and the brandy withheld; and it is just so with the When the stimulant is withheld, organ rapidly relapses into a more torpid or sluggish and weakened condition than before. What, then, is wanted? Evidently medicines that, while they arouse the liver to action, will do it, not by an irritating and stimulating effect, as is produced by a dose of great, repulsive, sickening, drastic pills, calomel, to row. The race is to come off on the River mass, mandrake, or podophyllin, but by tonic invigorating and strengthening influence upon that organ. Medicines are wanted that, while they cause the bile to flow freely from the liver, as that organ is toned into action liver strengthened and healthy. Such medicines am happy to have been able to discover and introduce to the afflicted for their relief and cure. As a remedy for all the various mani festations of disease resulting from "Liver Complaint," as it is usually termed, and as a blood purifier, Dr. Pierce's Golden Medical Discovery is positively unequaled. By it the liver and stomach are changed to an active. healthy state, the appetite regulated and restored, the blood and secretions thoroughly purified and enriched, and the whole system enovated and built up anew.

radical and lasting benefit.

There are, however, some peculiar constitutions on which the Discovery will not prove sufficiently laxative to unclog the bowels, and instead of taking it in larger doses than two teaspoonfuls four times a day, if that quantity does not move the bowels twice in twenty-four hours, take from one to three of Dr. Pierce's Pleasant Purgative Pellets each day, or just sufficient to produce the desired relaxation, which should fall short of a cathartic effect In fact, the combined use of the Pellets and the Discovery from the first, in the mild doses which I recommend, will be found most effective in arousing the secretion of the liver, and subduing congestion or inflamation of that organ. Do not use any other laxative or cathartic with the Discovery, as none other is so well calculated to work in harmony with and assist the Discovery in its congenial operation. Other cathartics will frequently counteract and interfere with, or neutralize the power and good effects of the Discovery; they should not, therefore, be used. These little Purgative Pellets, or Sugar-Coated, Root and Herbel Juice, Anti-Bilious Granules, on the other hand, are so compounded as to harmonize with

and assist the Discovery. the world over. A CURE OF LIVER DISEASE.

Dr. R. V. PIERCE-Dear Sir: My wife last year at this time was confined to her bed with Chronic Liver Disease. I had one of the best doctors to see her, and he gave her up to die, when I came upon some of your medicines. bought one bottle and commenced using it. She then weighed 82 pounds, now she weighs tance from town Capt. A. F. Butler, was 140 pounds, and is robust and hearty. She has with his wife on a street car at Augusta, Ga. In taken eight bottles in all, so you see I am an advecate of your medicines.

A WONDER TO HERSELF. TANKTOWN, Delaware Co., O., March 20, 1873

To Dr. R. V. Pierce: Your Discovery needs only a fair trial, and it will do all you recommend it to do, and more too. When I was 15 I mend it to do, and more too. When I was 15 I have been a heartburn. If you are a sufferer, give this remove perfect wreck of disease, and all the medicines and doctors' bills have run up at times to \$200 and \$300, and never any better, but worse when I gave up all hopes last spring of living the summer through. I received one of your Account Books, and told my husband, after reading it, that it was too late to try further, but he said it was never too late. He went and bought two bottles, and I found it was helping me very much. Since 1841 I was troubled with Catarrh and Sore Throat, and was almost entirely deaf in one ear, and my voice was dull as could be. There was constant pain in my head. Now my head is as sound as a dollar, my voice is clear, and I have used ten bottles of your Discovery. It has cured me of Catarrh, Sore Throat, Heart Disease, Spine Affection. and Torpid Liver. My liver was very bad.

My skin was rough. When I put my hand on
my body it was like fish scales. Now it is smooth and soft as a child's. In conclusion, I will say I have been well for three months. I am a wonder to myself and friends. This is the Virginia owner of the great racer which it is impossible to doubt. Among but an imperfect statement; half has not been before the latter had earned for him-

HESTER LACKEY. SCOUT, "BUFFALO BILL." HOLLAND HOUSE, ROCKFORD, Ill., April 30, 1874 Dr. R. V. PIERCE, Buffalo, N. Y .- Sir: have now taken four bottles of your Golden Medical Discovery in connection with your Pellets, and must say that nothing I have ever I feel like a new man. Thanks to your won-

W. F. CODY, ("Buffalo Bill.") Mrs. J. B. Curler, Bath, Me., says: My eldest daughter was sick for three years with Liver Complaint and Dyspepsia, and your Discovery cured her.

Good articles are always cheapest in the end. This is especially the case with paper collars, as the Elmwood will wear longer than any others, and look well all the time. - Com.

SYMPTOMS OF LIVER COMPLAINT, AND OF SOME sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts; dullness and drowsiness, with frequent headache, dizziness, bitter or bad taste in the mouth, dryness of the throat, and internal heat; palpitation of the heart, in many cases a dry, teasing cough, with sore throat; unsteady appetite, sour stomach, with a raising of the fcod, and a choking sensation in the throat, sickness and vomiting, distress, heaviness, or a bloated and full feeling about the stomach and sides, which is often attended with pain and pain and soreness through the bowels, with heat; constipation of the bowels, alternating Wm. McPhail, bell boy of the American with frequent attacks of diarrhos; piles, other eruptions, sores, boils, carbuncles and scrofulous tumors. Only a few of the above symptoms will be likely to be present in any

duced by liver complaint. By curing the disease of the liver we remove the cause, and thereby radically cure, not only the liver complaint, but also the various other diseased conditions produced by it.

The Rice Divorce Suit for fraud in age, is causing great excitement in Boston. MAGNOLIA BALM upon her face, neck and hards. Poor youth! He probably found her elbows weren't quite so soft and pretty. Ought Hagan to be indicted? We know of many similar cases. This Balm gives a most wonderful pearly and natural complexion, to which we don't object. We like pretty women. To finfsh the picture, they should use Lyon's KATHAIRON upon the hair With pearly chin, rosy cheeks, and soft luxurious tresses, they become irresistible.

Feil from a Ratiroad Car, and nearly broke lameness and such accidents are constantly occurring. There is nothing so sure, safe, cheap and convenient as the celebrated MUSTANG LIMIMENT. It costs but 50 cents and \$1.00 per bottle, and no Family or owner of Horses should be without it. There is no flesh, bone or muscle ailment upon man or animal, like Rheumatism, Bruises, Spavin and Lameness, which it will not alleviate or cure. Why will you suffer? Beware of counterfeits. It is wrapped in a steel-plate engraving, signed G. W. Westbrook, Chemist,"

What is this Great Hemedy, and what are a right to expect a candid and satisfactory reply. The preparation is a mild and satisfactory reply. The preparation is a mild and gentle saline cathartic, alterative and tonic, and is most carefully prepared in the form of a snow-white powder, containing all the wonderful medical properties of the far-famed

Seltzer Springs of Germany. Of its effects, those who have tested the preparation are the best judges, and they declare, over their own signatures, that the preparation will promptly relieve indigestion, regulate the flow of the bile, cure every species of headache, tranquilneartburn. If you are a sufferer, give this remedy one trial, and it will convince you of the above facts. Sold by all gruggists.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BIXrens?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable enalities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Laframmation of the Liver and Visceral Organs, in Bilious

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic. Carminative, Nutritions, Laxative, Diurete, Sedative, Counter-Irritant, Suderific, Alterative, and Anti-Bilious.

GENTS WANTED FOR

By Mrs. T. B. H. Stembouse, for 25 years with of a Mormon High-Pricest. With an introduction by Marriet Boscher Stown. I we pears ago the author wrote a pamplet on Polygamy which excited the Marmon assumption to Superingly there is not and women argud her to notept the challenge. She did so, and Tell It All I is the result. It is a work of extraordinary interest, full of startling reventations, trathful, bold, and good—the only book on this subject ever written by a real Mormon woman. The stary of Eliza Ann, Wife No. 10, is told in full by herself, 6.25 pp. superity situatrated and hund. It is the most popular book ever sold by agents, outselling all others three to one. It takes like wildfare. (T) 100,000 will be sold. Steady were or for spare hours for men or women—5.25 to \$.200 a month rasily made. Our Descriptive pamphlet, terms, de., sent free to all, will prove this. Address A. B. WOSTHINGTON & CO., Hartberd, Ou
