A new foot bridge is needed on West Middle streat. The old one is sadly out of repair.

Read the interesting story on the outside, written for the COURIER, by James A. Davis, of Flat River.

Cubs of Subscribers to the COURI ER are coming in every week, but we have a large mailing book and have room for more. Friends dont cease your efforts, until the COURIER is put in ev ty family in the county

We saw two men quarreling a few days ago and one of them drew back his stick to strike the other, however he did not strike him, and consequently we cannot give as striking a local of the affair as we at one time thought we would be able to do.

RELIGIOUS NOTICE. - For. Mr. Jenkins, of Warsaw, will be with Prof , C. E. Taylor next Sunday and preach at at 11 o'clock A. M., and in the after-

KILLED .- We regret to learn that our young friend G. M. Boyer, of Pleasant Hill Miss., was shot on Tues day 26th Oct., and died on the 28th We have been unable to get full partitculars of the affair, we could only learn that a dispute arose between him and a Mr. Jno. W. Fowler, and coming to blows Fowler shot Boyer in the side, causing his death.

We issue this week the first number of the fifth volume of the COURTER. The improvement on the 1 atent will be observed with pleasure by many and by none more than by us. We intend to try to make the COURIER worthy the patronage of the people of this community, and if they will only sustain us we will endea , or from time to time to make such improven ents as will make the paper more and more valuable to every family.

POSTAL GUIDE - We have received from Col. Thos. B Long, Special Agt. of the P. O Department, the above named book gotton up at his own personal expense. The book is invaluable to business men.

It has been our pleasure to have a number of business transactions with Col. Long, and we have always found him to be polite and courteous, ever ready to give any information in hisdepartment asked. We will ever remember his kindness to us, in pushing forward, and personally interesting himself, in assisting us to get a daily mail from Franklinton to this place.

HE SAYS IT IS A FACT, - We heard a Franklin farmer say that when he went into his corn field to gather his corn, he had to cut down a row of stalks before his wagon could get in to haul it out, so he just arranged his ptoneer corps, who after hard and earnest work succeeded in making a roadway wide enough for his wagon to get

The same gentleman said that one of his neighbors had a field, in which the stalks were so large and thick that neon or night, which will be aunounced of a crow got into the field, he h d to from the pulpit. The citizens and start from the outer one and wall public generally are just respectfully up the row. We like to here that at least some of our Granger t. ends will have plenty corn for another year Can't you pursuade all our farmers to go and do likewise ?

THE MEETING. - At the person street Methodist church is increasing to interest. There were two mourners last evening, and everything indicates a re vival of spirit among the members themselves. There will probatly be services every evening for t .e next two weeks.

SERVED HIM RIGHT .- On the down rain from Weldon to Wilmington last Saturday night, Capt. James Borden

The immense hats that were earlier exhibited as " latest styles" have been toned down, until they are really pretty shape; and the ugly ties that were to be fastened under the chin have been disposed of, by either crossing at the back and bringing forward, draping on the bosom with flowers, or are loop ed with bows and long irregular ends at the back.

A favorite style of drapery is, sashes arranged either to lap in points in the front, or put on the skirt diagonally, the ends concealed under bows and short fringed ends. The sashes, as they are called, are formed of alternate folds of the two shades. Pockets made of puffs, or a puff with a frill of side plaiting falling from it, or oblong and trimmed with ruching, are placed on the skirt on one side ; which side quite depends upon style of trimming, though the right is usually preferred; but a skirt without an outside pocket is hardly seen at the present stage of fashion.

One of the prettiest over-dresses we have seen for evening, was of white organdie, made tablier and basque .--The tablier laid in tucks around it, each full two inches wide, and two inches apart. The sash was tucked the same, and was very wide, with deep loops, indeed almost sewed as a puff at the back. The tablier or ds of sash, edge of basque and sleeves were all trimmed with a fine kilting, edged on both sides with a tiny Italian edge, and the kilting stitched about an inch from the edge. The basque was tucked the same as the overskirt, only lengthwise instead of across ; but the sleeves were tucked around the arm. This was worn over a pale green silk, and was looped with pale green flowers.

"What is the cause of the unparalleled success of VINEGAR BITreas f" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Reno vator and Invigorator of the system. Never before in the history of the world has a medicine been compounded pos-sessing the remarkable qualities of VIN-BOAR BITTERS in healing the sick of every disease man is her to. They are a gentle Purgative as well as a Tonle, relieving Congestion or Fellammation of the Liver and Viscoral Organs, in Bilious.

In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J.
