

God's Things.

Most of our misfortunes are more supportable than the company of our friends upon them.
To milk a kicking cow—and off about eight feet and yell, "So you darned old skin!"
Why are plagues the nobles of manufactured articles? Because they are grand, upright and square.

HALL'S SELF-FEEDING COTTON GIN.
The following are some of the reasons why HALL'S GINS are superior to all others:
1. It is most economical; it requires the attendance of no experienced ginners, and dispenses with the labor of one hand.
2. It will pick more Cotton in a given length of time than any other gin in use.
3. It never BREAKS THE ROLL, thereby losing no time, and making a more even and better sample.
4. It will run longer without whetting or sharpening; the Self-Feeder will not carry to the Saws any hard substances that will injure them, such as rocks, nails, sticks, hard un-matured bolls, &c., which also render the danger from FIRE much less.
5. It picks the seed cleaner than any other Gin in use, thereby making a better yield.
We have in our possession the result of a test in which one pound of lint Cotton was produced from two pounds, seven and one-half ounces of Seed Cotton. These Gins are perfect and complete in every particular, and are made to run at high speed. They can be found in almost any section in North Carolina where Cotton is grown.
Price, \$5 per Saw. Send for Circular.
