# LOCAL INTELLIGENCE.

Baptist Church Sunday night,

WE publish in another column a communication about the closing exercises of the school at Denver. We regret that we were unable to attend.

No one can fancy the feelings of newspaper man when he, hears a delinquent subscriber whom he has but twenty-four hours before vainly implored to "settle that little bill," yell out on Sunday, "put me down for \$50 for the good the cause," when they are "raising the urch debt."-Hudson River Chronicle.

### Strange Phenomena.

A strange muffled noise, resembling an earthquate, and which and ed a strange sensation to creep over one's person, was heard here and in the country around town Tuesday evening about two o'clock. It was heard by people living two miles from town, and is considered a strange phenomena.

# No Arology to Offer.

Editors, as well as other voters and citizens, have the right and should exercise the privilege of expressing their personal and political preference for candidates who present themselves before the public for office. No one should deny this privilege to the humblest citizen, and we therefore present no apology for advocating the claims of those who best suited our ideas of fitness and capacity. But as, in some instances, we were in the minority, we cheerfully submit our judgment to the assembled wisdom of the party, and shall give the nominees our hearty support. The unity and interest of the party are far above friendships or prejudices with us.

We oppose all bolters, independent or disorganizers, and with an eye single to Democratic success shall work for the party until our victory is complete and

# Liver is King.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immethe Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result fidence. from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want.

Judge Schenek returned to his home last Monday from the extreme western counties in the 12h District where he has been holding the courts since the first of April. We regret that the Judge's health has been feeble, and that he even now shows traces of his recent illness, but if the cordial and hearty welcome of his Rev. J. H. Booth will preach at the numerous friends who have flocked in to see him, and the pleasures of one of the most beautiful homes in the State, and the affection of a devoted family will premote his speedy restoration to health, he will soon be himself again.

Many unscrupulous and malicions things have been said of Judge Schenck while he was cut off from mail facilities and had no means of explanation or denial, and which prudence dictates that he shall not now condescend to notice. He s safe in the affections of his neighbors and friends, who, in this county, have twice during his absence endorsed him by the most complimentary and confiding resolutions. His district, where the scene of the recent criminations were located, will support him, and five out of the six counties in it, which have met in convention, have declared for him for the exalted position of Chief Justice.

Capt. C. E. Grier, Col. H. C. Jones and Major Avery, who were referred to as leaders of the organization, which it was alleged Judge Schenck betrayed, are his personal friends and warm supporters for Our visits to Mr. J. H. The Laboratory of the System. ' The stomach is the laboratory of the ystem, in which certain mysterious proesses are constantly going on. These result in the production of that wonderful vivifying atent the blood, which in a state of health rushes laden with the elements of vitality to the remotest parts of he system. But when the stomach semi-paralyzed by dyspepsia, blood manufacture is carried on imperfectly, the circulation grows thin and sluggish, and the system suffers in consequence.

Moreover, indigestion reacts upon the liver and bowels, rendering the first sluggish and the latter constipated. The brain also suffers by sympathy, and sick headaches, sleeplessness and nervous symptoms are engendered. Hostetter's Stomach Bitters reforms this state of things, gives permanent to be and regularity to the stomach and its associate organs, the bowels and liver, and ensures complete sourishment and increased rigor of the system. It is the most popular as well as the most efficient anti-dyspeptic and tonic in America.

The Catawba Convention. The convention of the 10th Judicial District was held in Hickory on last Wednesday. Major W. C. Avery, of Burke, was nominated Judge, and Mr. J. S. # The Bankrupt Law and the Homestead.

The Raleigh News says the bill to repeal the bankrupt law is, as we have before Court in the Kearsey case was rendered. The North Carolina representatives at Washington saw at once the distressing situation into which many of our people rescue. The bill was scotched. And now it looks as if it will lie over until the next Congress.

In the meantime the opportunity fo mending the bankrupt law and putting in saving clauses to the repeal bill is being seized upon. Gen. R. B. Vance has been quick to avil himself of the chance. mounted Brer Plato and rid im over Yesterday he introduced a bill to amend the bankrupt law so as to secure to the debtor his homestead to the value of one thousand dollars, and five hundred dollars personal property. It is to be earnestly hoped, in behalf of those likely to suffer in this State, that this amendment will prevail.

> The grand jury for the last Superior Court in Mecklenburg county "rather stirred up things," we are told, though we notice that the local papers there have seen fit to preserve a stern silence in regard to what did occur, thinking no doubt that while it is the journalist's duty to line. tell all the news, yet that those things which occur in the bosom of the "Future London" are matters too sacred for 1' outside world, and which He in his inscrutable wisdom says to that outside world "thou shalt not know;" or perhaps thinking that smaller villages have no right to become acquaited with, any local items that occur in the city, upon the principle that pigmies should not inquire into the business of giants. The "stirringup" to which we refer is the small matter of the numerous "true bills" that the aforesaid grand jury found in regard to betting on elections, taking faro tables into the court house, &c. We do not suppose that the court intends to play, but still we can not imagine any other reason for bringing the tables into the court house unless, as Mrs. Partington would say, the court intended to "disturb their future quiet."
