The Latest Flasco of the Spanish Campaign...The Senate and House Conferees Agree on Resolutions Favoring the Acknowledgment of Belligerency---Spain's Probable Action.

HAVANA, Cuba, March 7.-Maximo Gemez, the insurgent Commander-in-Chief, in the recent movement of the main body of patriots east from Havana province across Matanza to the line of Santa Clara and then back to the centre of Hayana province, again dis played the genius which has made his military operations remarkable.

General. Weyler, the Captain General of Cuba, with more troops, better organization,

(Second in command in the Cuban Army. more thorough preparation for transportation, and a larger cavalry force than Martimez Campos had, has been outgeneralled

by the insurgent chief.
Weyler's first failure was made when Maceo was allowed to enter Havana province from Pinar del Rio and effect a junction with Gomez, in spite of the wall of men across the island. Then all available troops were sent out to strenghen the columns which were closing in on the twe patriot leaders, within twenty miles of this city.

Gomez countermarched to the middle of Matanzas province, where he stopped to seethat the estates should not obey Weyler's orders to grind cane. Those for preparing had their cane burned, Maceo returned to Havana province. He brought with him his own column of about 5000 men and as many more belonging to the column from the orient which have been moving west for about a month. These forces, added to those which remained in this province, make the situation more serious here than ever before. The outposts of the enemy are within ten miles of the city.

The Government holds nearly every rail-road town, although most of these towns have been entered and partially burned down. Outside the fortified towns in this province are many small towns which have been occupied by local bands of flaurgents for weeks. The Cubans melt away on the approach of a large column of Spanish troops, but reapnear when the Spanish go. Gomez, in a talk with an American planter

"I divide the war into three periods; that of invasion, that of occupation, and that of expulsion. We are now in the second period.' He alluded to his march westward, and to that of Maceo through Pinar del Rio, as the invasion. His people certainly occupy a large portion of the territory of Cuba now. How he proposes to expel the Spaniards he did not say.

From the Times, Troy, N. Y. William H. Harrison, Jr., a well-known resident of Berlin, tells the Times how he was stricken with a complication of diseases some time ago, being left, after his partial recovery, a mental and physical wreck. Considering the fact that Mr. Harrison was compelled to use crutches, and has now fully recovered so as to be able to put the crutches aside, this was indeed an interesting case.

Mr. Harrison tells this story: "I am fifty-one years old. Three years ago last March I was taken sick with a complication of diseases; my doctor helped me somewhat, but I was left with my left leg wollen, there were purple patches on the inside of the ankle and there was scarcely any feeling in the leg from the knee down Above the knee there was a weak, faint feeling. The suffering was almost unbearable, was, in fact, a mental and physical wreck. I had neither energy nor ambition, my mind was blurred and I could not concentrate my thoughts. I was nearly discouraged when I happened to read an advertisement of the cures of Dr. Williams' Pink Pills. I felt that they would hit my case, and a neighbor, tell-ing what the pills had done for a friend of his, made me decide to try the remedy; so I ventured to send to Schenectady for some of the

Pink Pills "For a year I had been able to do no manual labor and walked on crutches most of the time, but before I had taken half a box of the pills I felt like a different man. After: taking several boxes of the pills my legs improved, and my bodily health was altogether better. I put aside my crutches, my strength returned, my mind became clear and all the organs of my body seem now to be doing

"I am now working most every day and I am in nearly as good health as I had been for several years prior to my last illness." Mr. Harrison was loud in the praises of Dr. Williams' Pills, and he continued: "I can honestly say that I feel that if I had not had the pills I should not have been here to-day, so I most cheerfully tell of the wonwork they have done for me. I sincerely hope that this statement may reach some other poor sufferers and accomplish as excellent work for them as I have had the benefit of
