## POYNER'S HILL.

A Few Thoughts on the New Year—Society's Going and Coming.

Correspondence of the TAR HEEL.  
Poyner's Hill, Jan. 18, 1902.

Another year has passed, bringing many changes in all of our lives. To some it has passed to

quickly, leaving fond memories that will never pass into oblivion, but will last until the whole world sleeps its eternal sleep. To those it brought joy, love and sunshine, with not a cloud to mar their happiness, while to others—oh! who can describe the pain, sorrow, suffering and the hearts it has broken? Today there are hearts bleeding, wishing to forget the past; longing to leave forever this world of sin and sorrow. Why can't the joy and sorrow be more equally divided? Why must some have all happiness and others all pain? Will it always be thus? Let us hope not. Let us hope that this year may not be so deeply shrouded in mysteries and crimes, but may be what thousands of lips murmured to their friends and loved ones as the clock ceased striking the midnight hour—a very happy New Year.

Our little town was very quiet during Christmas. Several of our young people spent the holidays with their friends elsewhere.

Miss Laura Woodhouse spent a week on the mainland. She attended the Christmas entertainment at the I. O. O. F. Hall, which she enjoyed and reports a decided success.

Mr. Tom D. Thompson, of this place was there also.

Mr. Stark Harris spent Christmas on the mainland.

Miss Laura C. Wescott attended the entertainment given by the Sunday school at Whales Head. From there she went to visit friends at Currituck Inlet. She had a very pleasant time.

Captain J. Edmond Woodhouse, of Dam Neck Life Saving Station, Va., was in our town on the seventh and eighth, Capt Woodhouse was formerly number one in Poyner's Hill station. He was held in high esteem by both keep and crew, and every one who knew him. We were sorry to lose such a noble gentleman from our midst, but rejoiced in his good fortune. He has our best wishes for success.

The TAR HEEL is eagerly looked for by its readers here. It is one of our state's most interesting and up to date papers. We congratulate Mr. Cohoon upon his success and wish for him a happy and prosperous New Year.

## CHAPEL HILL.

Professor, Lecture on Liquid Air—New Assistant.

Correspondence of the TAR HEEL.  
Chapel Hill Jan. 15, 1902.

Prof. Eugene C. Foster, of Philadelphia, delivered his lecture on liquid air in Gerard Hall, to a large and appreciative audience, last week. This is the third of the series in the Star lecture counsel.

The marvelous properties of liquid air were explained in a manner both interesting and instructive, and the lecture's manner of distributing the remains of articles used in the experiment, added zeal to the explanation.

From the time Professor Foster stepped upon the platform and drawing a supply of liquid air, threw it about the audience, until he closed his talk, everyone present was greatly interested.

We now have an enrollment aggregating nearly 600. This attendance is unparalleled in the history of the University.

Many new students have been enrolled and lectures are once more under way.

Prof. I. Alphonso Smith, of Louisiana, State University, has been elected as Assistant Prof. of English to Dr. Thos. Hume. His duties will begin at the beginning of the next scholastic year. This will give us three Profs. and two assistants in this important branch of study.

How People  
Lose Their Money.

By concealing it about their person; by stowing it away in mugs, jugs and jars; by sewing it up in skirts and ticks; by tucking it under the cushions and carpets, in cupboard and bureau drawers. These are some of the ways by which people lose their money, and sometimes their lives.

How People Save Their Money.
