Two Ways of getting **Glasses.**

ONE is to go to the nearest permanent located Optician and get what you need, and a guarantee that they will be satisfactory; if not, they will be exchanged free, or money back.

THE OTHER is to let some traveling peddler sell you a pair and run the risk of ruining your eyesight entirely, and when he has your money you never see him again.

MY CARE insures better use of the eyes you have. My properly fitted glasses will correct defects, strengthen the eyes, and in time, remove the defects. I'd like to fit your eyes.

**Lower Prices,
Larger Business,
Better Shoes.**

Making big profits is no road to big business. There must be satisfaction with the goods, satisfaction with the prices, satisfaction with the wear of the shoes through weeks and months of service. It's not enough to make sales today. There must be value that will be talked about to friends and neighbors. We've reached that point with our shoes.

It's safe to say our men's \$3 shoes are as good as anybody's \$3.50, and our \$3.50 shoes are as good as anybody's \$4.

It's safe to say our women's \$2 shoes are as good as anybody's \$2.50, and our \$2.50 as good as anybody's \$3.

No wonder this business is doubling.
