Several Negroes Sent to the Roads of Edgecombe County-Alleged Illegal Voters Not Gnilty.

The fall term of Pasquotank Superior Court convened Monday, with Judge W. B. Council, of Hickory, presiding. Everybody is agreed that no better judge has ridden the circuit for many a day. He is dignified and gentle, and dispatches business with great

Mr. M. B. Sawyer, the young son of Mr. M. N. Sawyer, was made foreman of the grand jury. This body is composed of an unusually intelligent class of men. They went to work immediately and the large number of presentments shows that they have not been idle.

The docket, both civil and criminal, is very large. Fifteen prisoners were in the county jail awaiting trial, and these cases, which were all of minor importance, have been tried, and as a result, the public roads of Edgecomb Pasquotank's ebony-hued citizens. The

against W. M. Poyner, Ed. Brinson; D. R. Munden, Geo. Steger, Wm. Andering in the recent prohibition election, were the most important. The votes of these men were challenged because of the non-payment of poll tax as revotes were challenged, but the judges in every ward, except the seventh, refused to allow those to vote who had not paid their poll tax by May 1st. The decision of the court was that these men were not guilty, because they were acting on the advice of the judges of election. The matter then rested on the judges of election.

There were two divorces granted; one white, Daniel F. Webster against Minnie Webster. This was for absolute divorce for adultery. Another case was J. E. Askew against Mary Askew, colored, for abandonment. Among other cases disposed of on

the criminal docket were:

State against Arthur Burgess, Will Twiddy, Tom Scarborough and Will Scarborough, for affray. All were found guilty, except Burgess, and fined \$5.00 each and costs. State against Charles Turner, col-

## COTTON PICKING BEGINS.

The Weekly Crop Bulletin for week ending Monday, September 21, 1903,

"The first part of the week continued fair and warm, but during the passage northward of the sub-tropical storm over western North Carolina on the 16th and 17th considerable rain fell over most of the State, with the largest amounts in the western section. At some places in the west heavy rains washed land considerably, and high winds blew down some corn and bruised a little tobacco. The amount of damage was smal, and generally the rainfall was beneficial to all late crops, and placed the soil in excellent condition for plowing. Following the rain occurred a decided fall in temperature, and the remainder of the week was quite cool with temperatures below the normal. Very light frosts were reported the mornings of the 18th and 19th in several western counties, without any damage to crops. # MUCH INTEREST IN EDUC**ation**

Valuable Additions to Public School Faculty-A. C. I. Begins Twenty-Fifth Annual Session.

The schools of the city are now in good running order, and with an unusually large attendance as a result of the much agitated question of Edu-

cation during the passing summer. The Public School started Wednesday with an enrollment of more than three hundred, which is laregly in excess of the number enrolled during the opening week of last session. The buildings have been repainted and everything has the appearance of nestness and thorough order. The pupils were quickly classified as a result of the system of grading which was employed last session.

The faculty of the public chool is unusually strong. The addition of Misses Bagley and Luck is considered most fortunate. Both ladies come well recommended.
