### YOUR DUTY TO HELP THE CAUSE

The ladies of the Civic League will hold a lawn party next Tuesday night for the purpose of securing funds to aid the League in its work. The Civic League is a most worthy organization and a very timely one, and should receive every possible encouragement and support to insure the success of the efforts of the League.

The League has in view the work of cleaning up the city to make it beautiful as well as healthful. It is very necessary that the city shall be beautiful but it is more necessary that the city shall be healthful. The two go hand in hand. Everything beautiful is healthful. To the healthfulness of the city the attention of the League will be particularly directed.

Now is the opportune time to begin the work. In a climate that is none too healthy of account of Malaria etc., this time of the year is especially fraught with danger to people residing in localities in which

the principles of sanitation are neglected. Thousands of dollars are lost annually on account of sickness besides lives and a great amount of suffering is inflicted often upon the innocent and helpless. All of this for the most part could be avoided, if the principles of sanitation were carried out. Many many times have people suffered and died of dreadful maladies caused by ignorance and carelessness. Every patch of weeds and every pool has its victims.

Make the city beautiful and flies will move hence; make it beautiful and the mosquito will find no place to breed and malaria will not exist. It is the paramount duty of every citizen to aid the League in every possible manner with money, by physical exertions and lend a helping hand every where.

### ONE CRIPPLE'S INDUSTRY.

How William Sawyer, of Newark, Came to Embark in the Manufacture of Artificial Limbs.

The Tar Heel desires to make the Southern public acquainted with a man for whom we entertain the highest possible regard in the person of William Sawyer, maker of artificial limbs, of Sligo, N. C.

Mr. Sawyer is a cripple and although a comparatively young man, lost one of his legs several years ago. Too poor to afford the expense of an artificial limb, he made one for his own use and in the construction of this limb discovered a secret in artificial limb making which impelled him to embark in the business of their general manufacture.

We believe that Mr. Sawyer has one of the best, most durable and satisfactory artificial limbs on the market at a price within the reach of the most meagre purse.

If you know of anyone in need of a limb you will be doing them a favor for which they will afterward thank you by telling their attention to Mr. Sawyer.

Mr. Sawyer says:—My experience may be of some benefit to you. If it is, feel free to command me. I often hesitate in appealing to my prospective customers from a sympathetic standpoint, for fear they will think I am using this as a means of gaining their confidence. This I would never do. Any one who has undergone an amputation and has suffered the trials caused by a poorly fitting limb can appreciate the feelings of a person in a like position. It makes no difference whether you order a leg from me, or any other, I shall be pleased to confer with you if my advice is acceptable.

There is nothing which appeals to the man who has recently lost a leg as the sight of another walking well upon an artificial appliance. For weeks he has been sitting idly waiting for the stump to heal, thinking and wondering if ever he would be able to walk and to work again. The sight of others moving about as he used to, sound in body and happy in mind, depresses him from the thought that he may never again be able to enjoy the same privileges. Thus he welcomes the sight of a man who gets about on an artificial leg as these do.

Respectfully yours,  
WM. SAWYER.

Newark, N. J.

Wm. Sawyer Esq:—After giving you leg a test of 6 months I must say it is all you claim. Amputation 5 inches below the knee. Having wore three other makes in the last 7 years, both wood and leather sockets, I find yours is much lighter and a better fit. My weight is 225 pounds. Occupation machinist.

Your truly,  
W. J. UNCLES.

## NO REASON FOR IT HERE IS WHERE YOU

When Elizabeth City Citizens Show the Certain Way Out.

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back the annoyance of urinary disorders, the dangers of diabetes of any kidney ills when relief is so near at hand and the most positive proof given that they can be cured. Read what a Elizabeth City citizen says:

Samuel Jarvis 224 W. Fearing St., Elizabeth City, N. C. says: "I suffered a great deal from backache, accompanied by a soreness and lameness across my kidneys. I could hardly stoop or lift and at such times sharp pains darted through my loins. The kidney secretions were very irregular in passage, compelling me to arise several times during the night. After taking Doan's Kidney Pills which I procured at the Standard Pharmacy, the backache and pains vanished and I have not had recurrence of the trouble since. Doan's Kidney Pills proved of far more benefit to me than any other remedy I had previously used and I gladly give them my recommendation."

For sale by all dealers. Price 50 cents.
